Weekend Hedonic Tour

3 days - Individual and group program

Montenegro is a small country with mild climate, modern infrastructure and fantastic Mediterranean landscapes, which make it just a perfect destination for short visit with full of enjoyment. Warm Mediterranean coast and its cuisine, local wines of exclusive quality, traditional olives and olive oils local wrapped in a diverse culture makes this program intense in impressions and memories.

Day 1
Boat ride in the Bay & show cooking

Kotor old town –originating from the period of ancient Rome and the UNESCO cultural heritage. The city of sailors is teeming with history, which is written in every stone, old palaces, architectural details and coats of arms.

Boat ride in the Bay with view on the picturesque coastal settlements ,visit of the **artificial church island Our Lady of the Rock** (17th c) and ending destination is Luštica peninsula.

Show cooking - watch the local chef preparing one of the traditional local speacialties while having a glass of domestic wine.

Day 2
Family owned Wine estate

After visiting **Cetinje,** former royal capital of Montenegro and charming keeper of the Montenegrin history we have **Wine testing at the privately owned Wine Estate** in the area near Cetinje. You will enjoy the fabulously semi circularly shaped vineyard and stone built wine cellar filled with symbolic of wine growing. From the wine testing premise you can further enjoy the fantastic views. We taste three to five wine etiquettes white, red and barrique) followed by traditional snack.

*For **incentive tours** we can organize mini concert in the outdoor amphitheater next to the vineyard, which would complete the wine scents and tastes*

Day 3
Oriental style of Old Bar and olive groves

The **Old Bar** is with its ruins fantastic witness of historic turbulent changes in the coastal area of Montenegro. The remains of buildings of different architecture and influence: Byzantine orthodox churches, Venetian churches and palaces and Turkish hammam.

Olive growing is a centuries-old tradition of the ancient Barans and the surroundings of Bar are rich in olive groves that are more than a thousand years old. Therefore this is the perfect place for olive oil testing , specialy of pure pure virgin olive oil along with traditional products of the area.
