Goes on: Reformation Jubilee

While many churches celebrated the "500th Reformation Jubilee" in 2017, it should not be forgotten that the really important jubilees are still coming. Professor Hans Wiersma, Augsburg University Minneapolis: "Luther's really big stuff – the teachings that would shake the church big time – didn't start rolling out to the public until 1519. And the really, really big stuff landed one after the other in 1520." We are also looking forward to the jubilee of the diet of Worms ("Here I Stand") 2021 and the Bible Translation at Wartburg Castle 2022. Still many reasons to invite church groups travelling Germany!

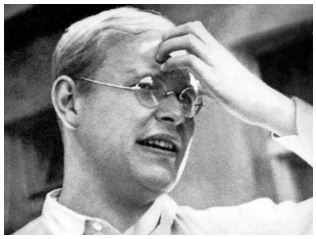
Celebrate: 100 years Bauhaus

If your clients like architecture, travelling Germany is a must. 2019 marks the 100th anniversary of the Bauhaus style. Founded after WWI, the Bauhaus art school was a new, revolutionary perception of art, an important piece of German modernism. The idea of Bauhaus means to combine art and technique, to create art by bringing different kinds of arts together such as design and architecture.

Remember: Dietrich Bonhoeffer died 75th years ago



The end of the war also marks the death of Pastor Dietrich Bonhoeffer. Through his resistance to the Nazi regime and many of his writings he turned into a martyr of the evangelical churches. Travelling in the steps of Dietrich Bonhoeffer in 2020 is a very special way to remember the end of the Second World War 75 years ago.
