Welcome to **Transformational Japan**: Your host and **MICE** Coordinator

If you are a company or agency looking for a MICE facilitator in Japan we are here to provide you with the services that you need. With our collaboration with Japan's second largest and oldest travel agency, we are able to provide full services from Meet and Greet, to all domestic transfers (private car, bus, bullet train, helicopter, private jet). All hotels, meeting locations, local tours and excursions, as well as guided support are all on our menu. We have access to top hotels and top convention venues. Let us know what you need and let us handle all the stress and worry.

In addition, we work closely with deeply connected and artistic tour designers who facilitate a wide menu of activities and discoveries for your people when the meetings are over and it is time to explore the deep and rich culture that Japan has to offer. Everything from sumo to sushi, to Ginza fashions to modern art, to nightclubs, sake safaris, and going to all the places that the locals go. We get you there and put you in the room.

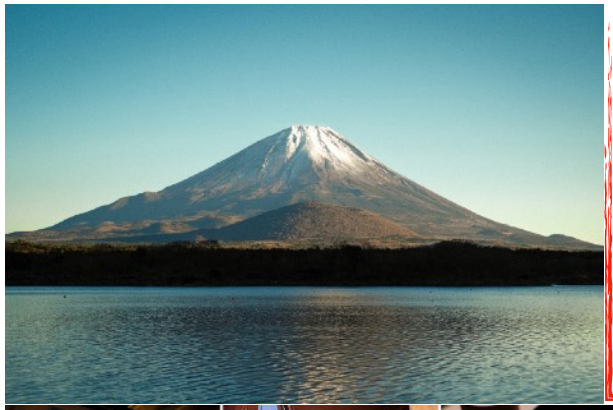

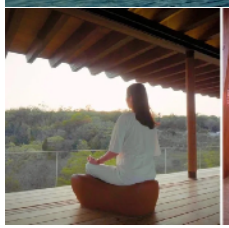

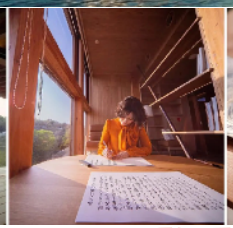

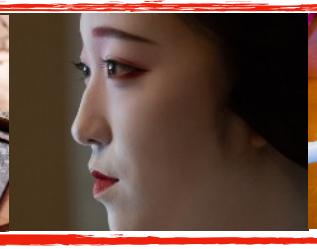

For any and all who are interested in extending their time in Japan beyond their Event we have a wide selection of Deep Japan experiences that are also our great pleasure and delight to the Japan that goes beyond the guidebook.

How about a short pilgrimage walk in bamboo forests and through rural Japan?
How about a food tour from farm to urban eateries? Meet the farmers and the chefs?
How about an overnight temple experience in a Buddhist temple?
How about a family trip with the kids through the subculture of Japan?
How about an art adventure through galleries, private studios, and even art island hopping through the Inland Sea?
How about some Deep Japan Cultural experiences? Sword crafting, sushi making, music performances, geisha entertainment, ceramic art, museums, traditional art and design?
How about whiskey and sake tours?
How about cycling over the sea through a series of islands?

Our 25 year history of work in Japan has brought us in contact with keepers of Japan's traditions and culture. Our collaboration with top of the line land operators and hoteliers makes your experiences smooth and seamless.
Let us know what you are looking for and team up with us for the Japan MICE experience that your people will never forget.
