ABOUT US

Skylink was founded in 1991 as a part of a North American corporate group to develop activities in Europe, Central Asia, the Middle East and Africa.

From a single company with a handful of employees, it has grown into a group of 6 major companies with multiple subsidiaries with presences in various parts of Europe, the Middle East and Africa.

Sales Volume 2024: 170 Mio. Euro

Reliable, fast and trustworthy.

WE FLY WORLDWIDE

We are **represented globally.**

OUR LOCATIONS

OUR VALUES

Trust & Respect

Transparency & Honesty

Empathy

COMMERCIAL JETS

Aircraft with a **capacity** of **18 to 615 passengers** offer the perfect charter solution for your event.

- Film productions
- Travel agencies
- Cruise companies
- Incentive- and Event agencies
- Automobile manufacturer
- Orchestras / Tourmanagement
- Governments / Aid Organisation / NGOs

We provide the perfect solution for your unique needs and manage all the details related to your flight.

PRIVATE JETS

Chartering a private jet can be **a flexible, efficient** and **cost-effective alternative** to commercial flights.

There are various categories of private jets:

- Turboprops, entry-level jets, light jets, superlight jets, midsize and heavy jets to long-range aircraft

Access to private jet terminals for faster security checks.

We take care of all the details based on your requirements: departure and destination, flight schedule and number of passengers.

With our **Jetcard** we offer frequent flyers the greatest possible flexibility with guaranteed availability.

HELICOPTER

Helicopter flights can be the perfect way for clients with a sensitive schedule or the need to reach remote locations where there is no nearby airport to avoid stress on short "hopping" distances.

SCHEDULED FLIGHTS

Sometimes, a commercial flight solution can be more economical than a charter flight. We offer and compare group allotments for commercial flights with options for full charter flights or a combination of both to find the best solution for your needs.

- Seamless commercial flight solutions for groups - we analyze your flight requirements.
- Access to all major global distribution systems
- Special flight rates for group allotments

Scheduled tickets can be the perfect addition to your connecting charter flight.

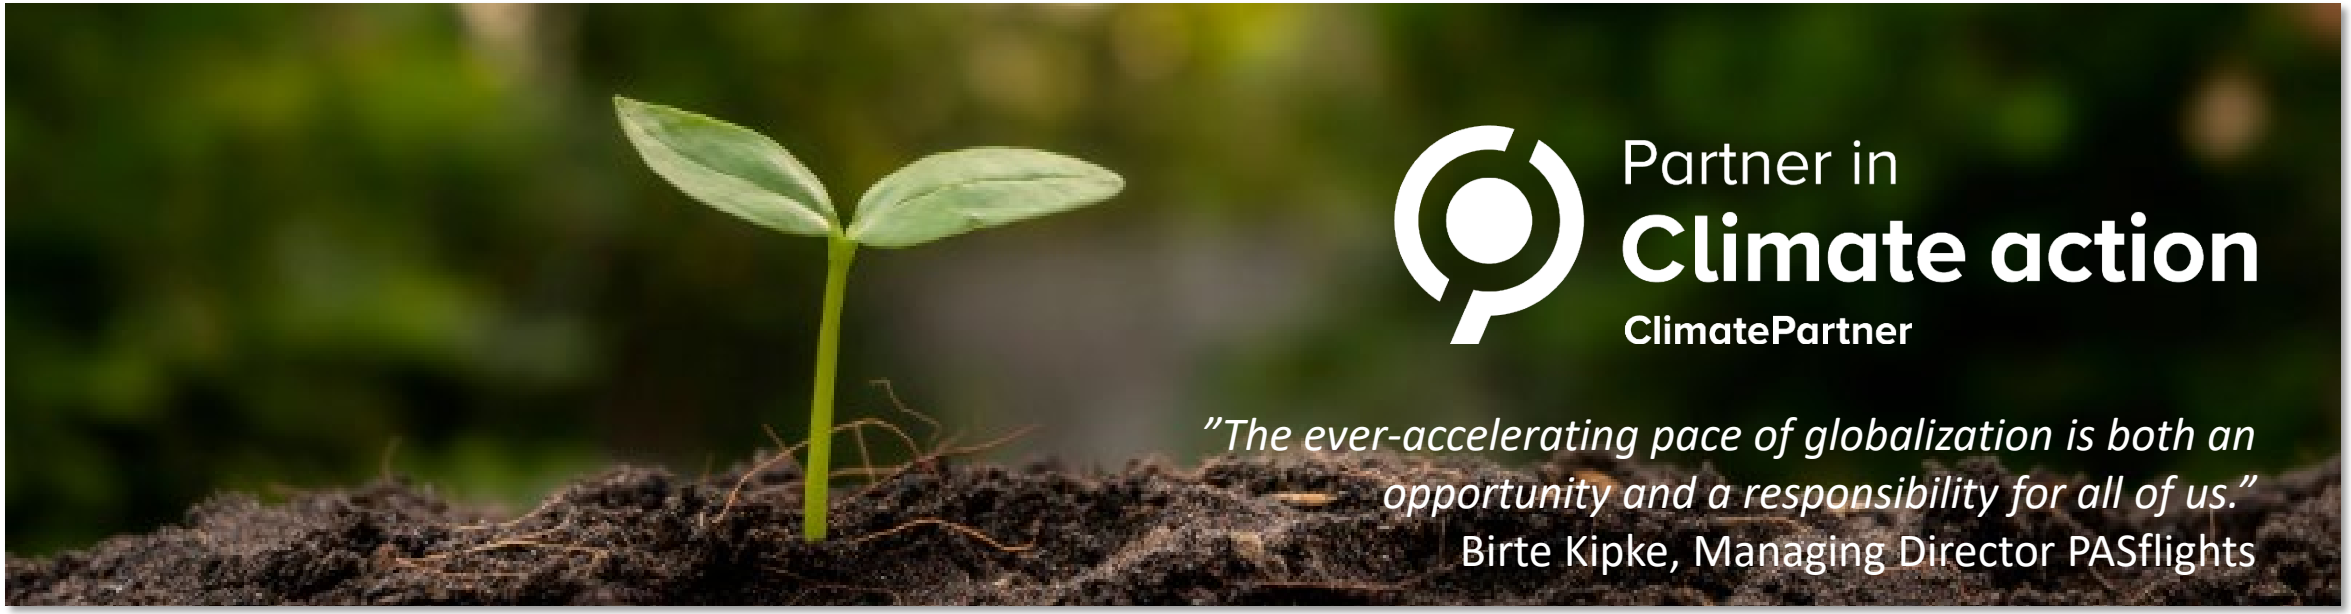

POLAR AIR SHUTTLE

PAS - Polar Air Shuttle GmbH is sister company of the German PAS - Aviation Holding GmbH and offers flights to **Arvidsjaur** in Lapland during the **winter season.** These flights have been developed in collaboration with the international automotive industry and can also be requested and booked by tour operators and travel agencies.

When? November – end of March
Monday and Friday

Route: Munich - Arvidsjaur
Hanover - Arvidsjaur

SUSTAINABLE FLYING

Emission compensation

- PAS in collaboration with ClimatePartner is offering to offset CO2 climate actions
- If desired, a CO2 offsetting can be calculated and carried out for each flight
- With CO2 offsetting, you invest in a certified climate project
- Upon request, PAS provides the option to use Sustainable Aviation Fuel (SAF)

ENVIRONMENT MANAGEMENT

- **SAF** (Sustainable Aviation Fuel): First charter broker to offer sustainable aviation fuel, if available at the departure airport
- The PAS headquarter is certified according to the high standards of **ISO 14001:2015**
- **All flights are offered with CO2 offsetting**
- **PAS** exclusively collaborates with **suppliers and service providers who comply** with **environmental requirements**

QUALITY-MANAGEMENT

- PAS offers professional Quality Management and transparent offers
- The PAS headquarter is certified according to the high standards of **ISO 9001:2015**
- Inhouse CRM-System and Database with access to all airlines and aircraft types around the world

Charter Sales Experts – available 24/7 with a smile.
