Quest is full of puzzles

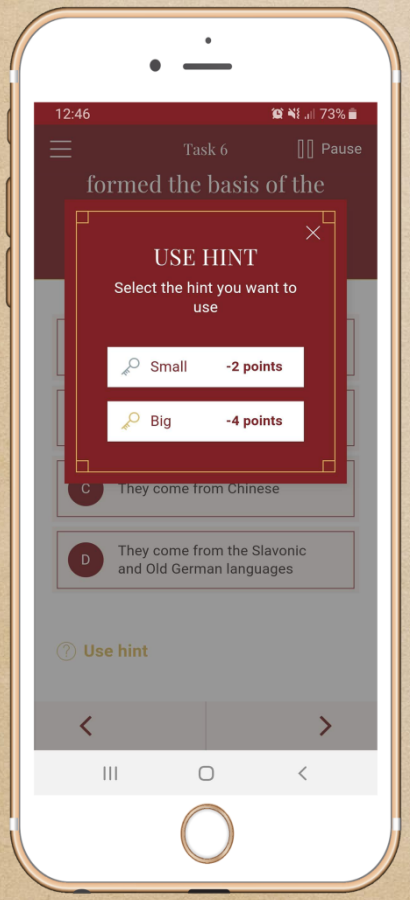

Start to play! Quest is full of puzzles! To answer all of the questions you'll only need to pay attention and think logically, no special training is required. It could be:

- Photo question, a choice of four options.
- "ABCD" question.
- A question where you are required to enter an answer in a specified text field.

Attention! You need to know:

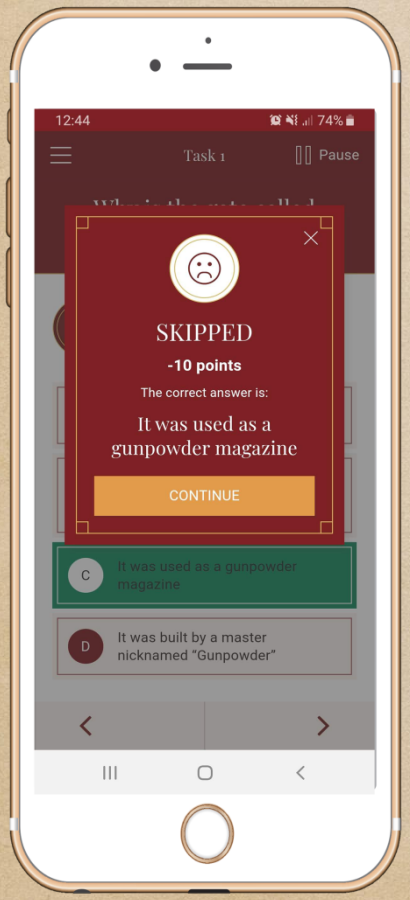

- There's always only one correct answer.
- Try to answer questions on your own: points are being collected and at the end of the game you will be able to evaluate your wit. And if you play as a team, then compare your results with those of your opponent.

Use hints

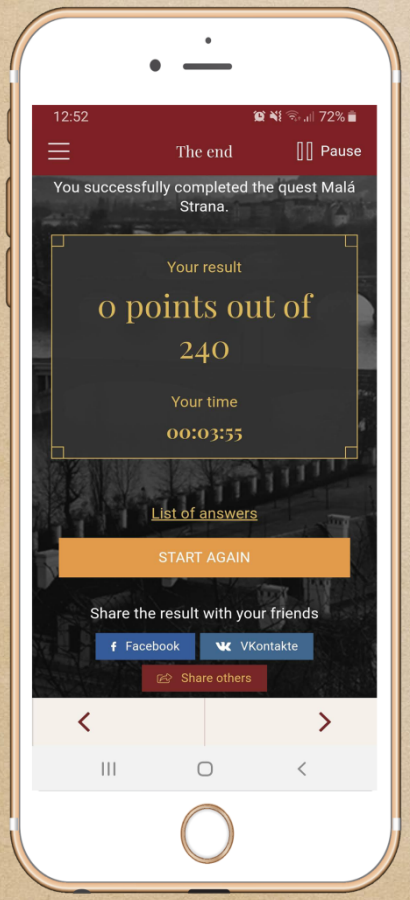

If you have any doubts about the correct answer, use hints. You will lose a few points, but this will help you to answer the question correctly. There are two options: a smaller hint and a bigger hint, which are indicated by silver and golden keys.

Earn points

- For each correct answer you get **+10 points**.
- Points are not awarded for incorrect answers. But if you don't want to answer - it's your right! You can skip the question. Continue the game without answering questions: you won't earn points, but you'll definitely find out the right answer!
- Using hints you lose points: a smaller hint **-2 points**, a bigger hint **-4 points**. You can choose the smaller hint, and if it didn't help you, use the bigger one. In this case, you lose **-6 points**.
