eTechSuite Timeline

The Event Planner eTechSuite Journey

We have you covered every step of the way

Why Select eTechSuite

- Award-winning technologies with flexibility to cater to unique client and event requirements
- Can be offered as stand-alone products or as a fully integrated suite of technologies
- Automation and integrations saving Event Organisers lots of time and money
- Supported by a well-established and dedicated technology team – based in Australia, Europe and the UK
- eTechSuite is a carbon neutral certified organisation (since 2022) – the first event technology company in Australia

eTechSuite

eTechSuite Awards

Digital Innovation Award 2022

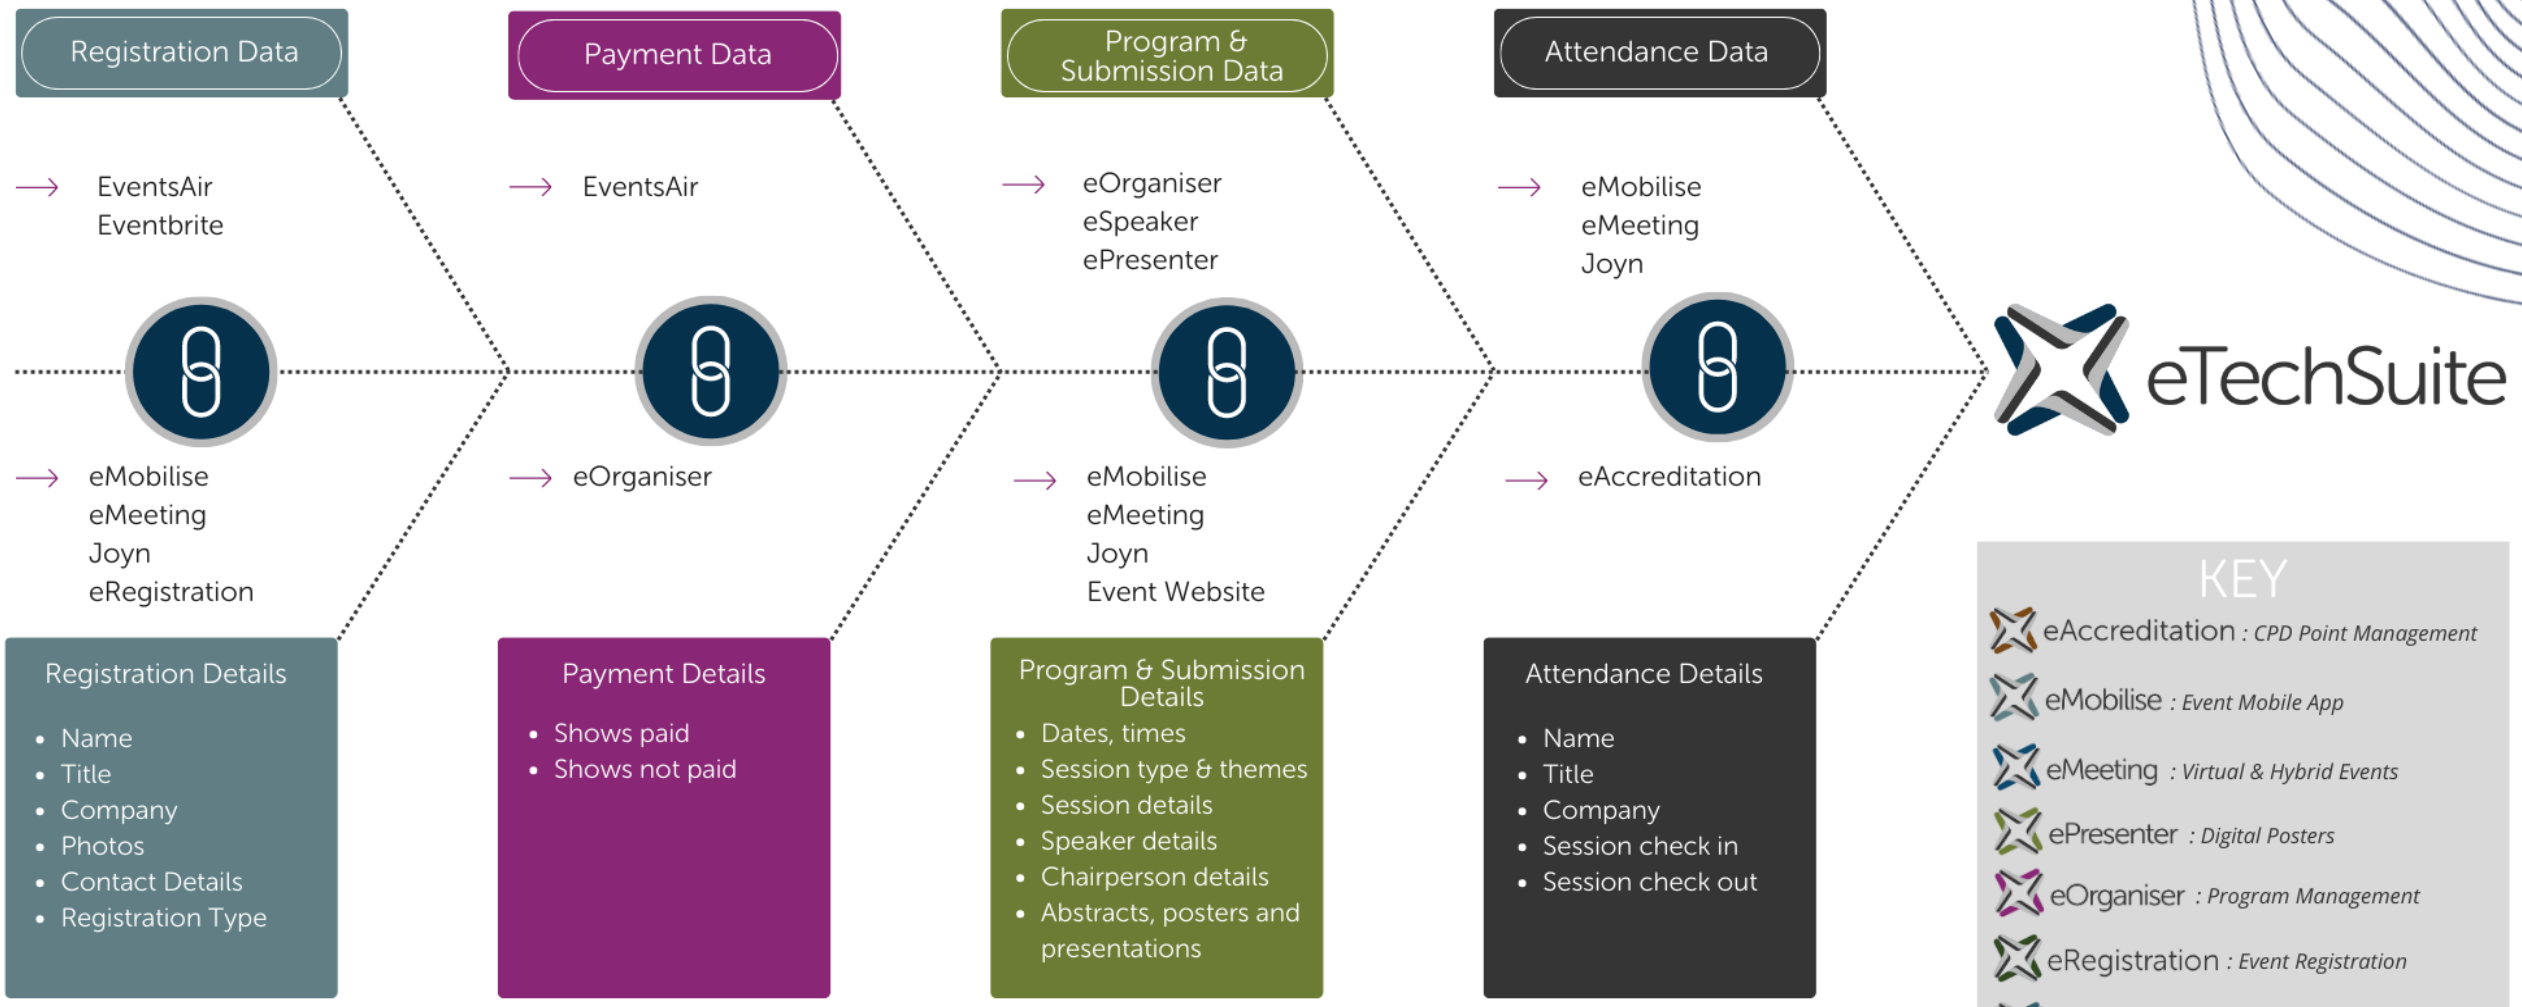

Best Abstract Management System (eOrganiser) - Eventex 2022

Best Sustainable Technology Solution- Event Technology Awards 2022 for ePresenter (Finalist)

Tomorrow's event technology today

eOrganiser

Products to power your events

Why eOrganiser

- Tested and proven across hundreds of events over the past 10 years including some of the most complex and large scale international events – hundreds of set up options that can cater to any type of event
- Submissions, reviews, program building, in-built communication and reporting all in one system
- Drag & drop program builder with option to publish Program to Web
- Saving 60 hours of labour per 100 submissions
- Fully integrated with ePresenter, eSpeaker, eMobilise and eMeeting/Joyn and OnAIR
- Payments checks API with EventsAIR
- Generate chairperson report, microsites with the click of a button
- Full training and support provided
- Award-winning: Best Abstract Management System - Eventex 2022 and Digital Innovation Award – EEAA Awards for Excellence 2022

Abstract, Papers and Program Management System

Multiple Submissions Types

Abstracts

Papers

Symposiums

Awards

Presentations

The submitter can allocate

- Topics
- Themes
- Categories
- Opportunity for multiple submissions
- Presentation types
- Keywords
- Tracks
- Custom field options

eOrganiser

Submission Form

Submit Your Abstract in:

Word Document

Field Text (Copy paste from external source)

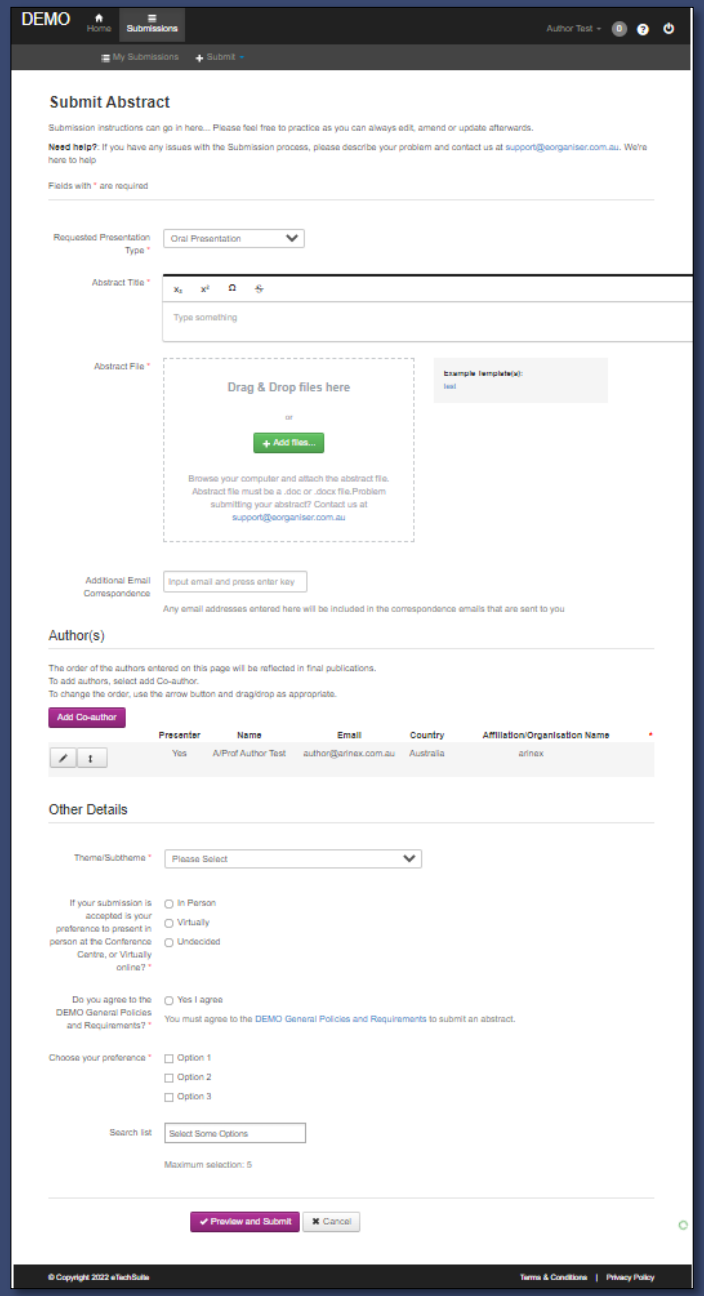

All in one page. No multiple steps to submit

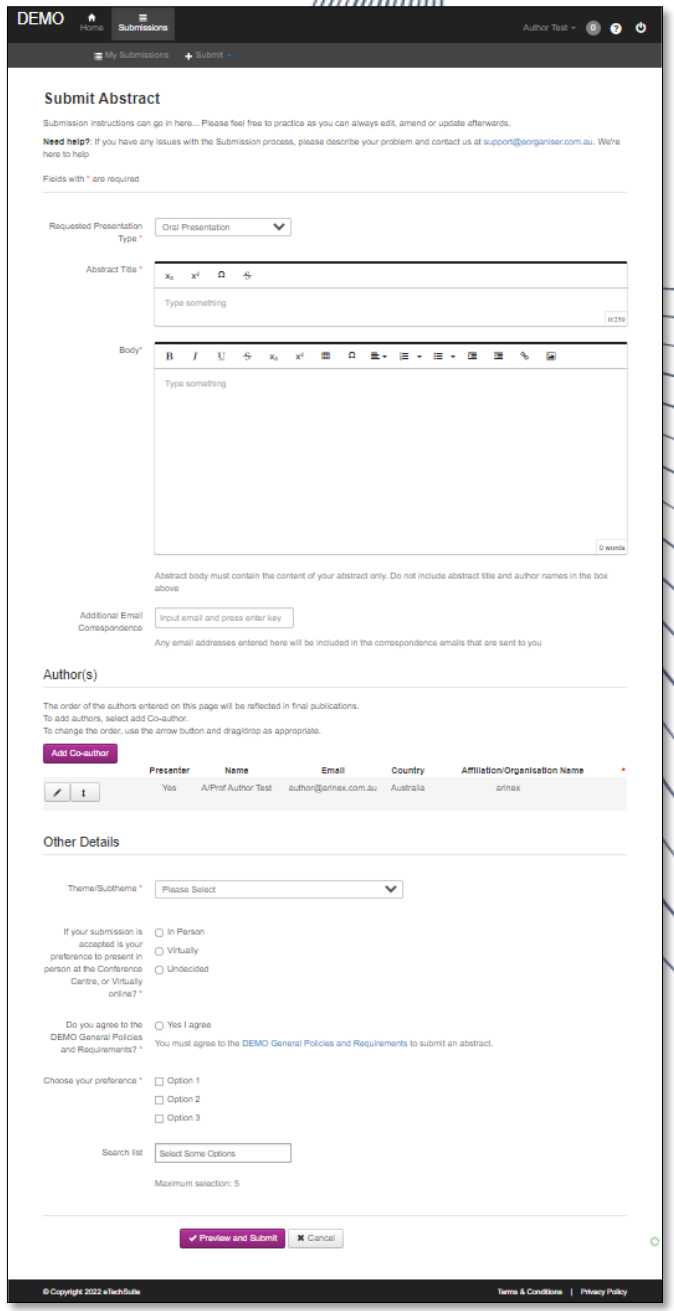

Features:

- Multiple attachments
- Word and text character count
- File size limit
- File page limit
- Support images, tables, international or scientific characters
- Add authors and co-authors
- Unlimited sections
- Payment options
- Automated submissions checks and formatting
- Limit number of submissions
- Limit number of assigned authors, co-presenters.

eOrganiser

Submission Form

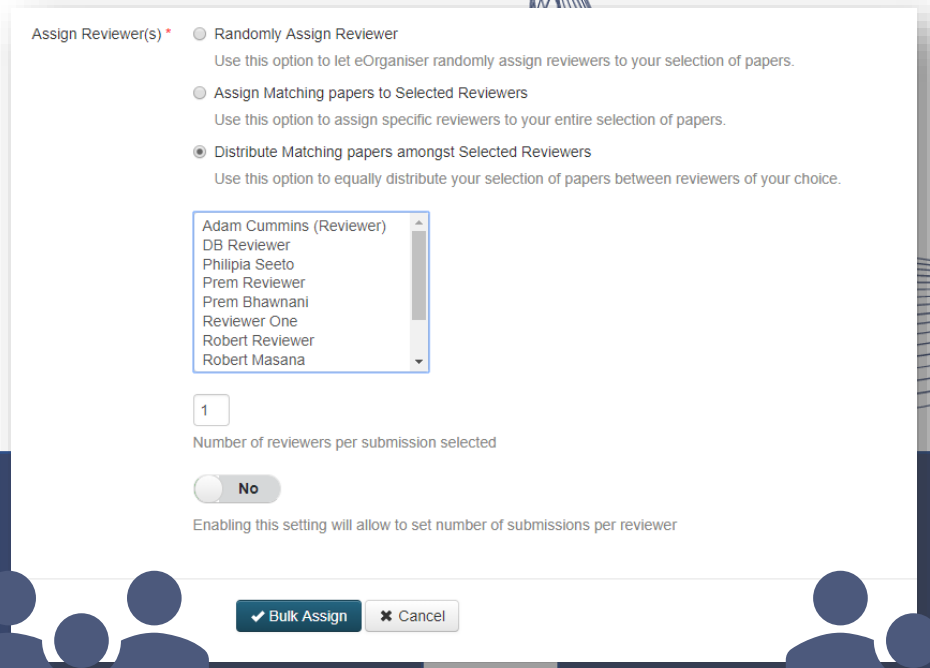

eOrganiser

Reviewers

Invite or import reviewers to participate

Assign Your Reviewers:

Assign specific reviewers to your selection of papers

Randomly assign reviewers

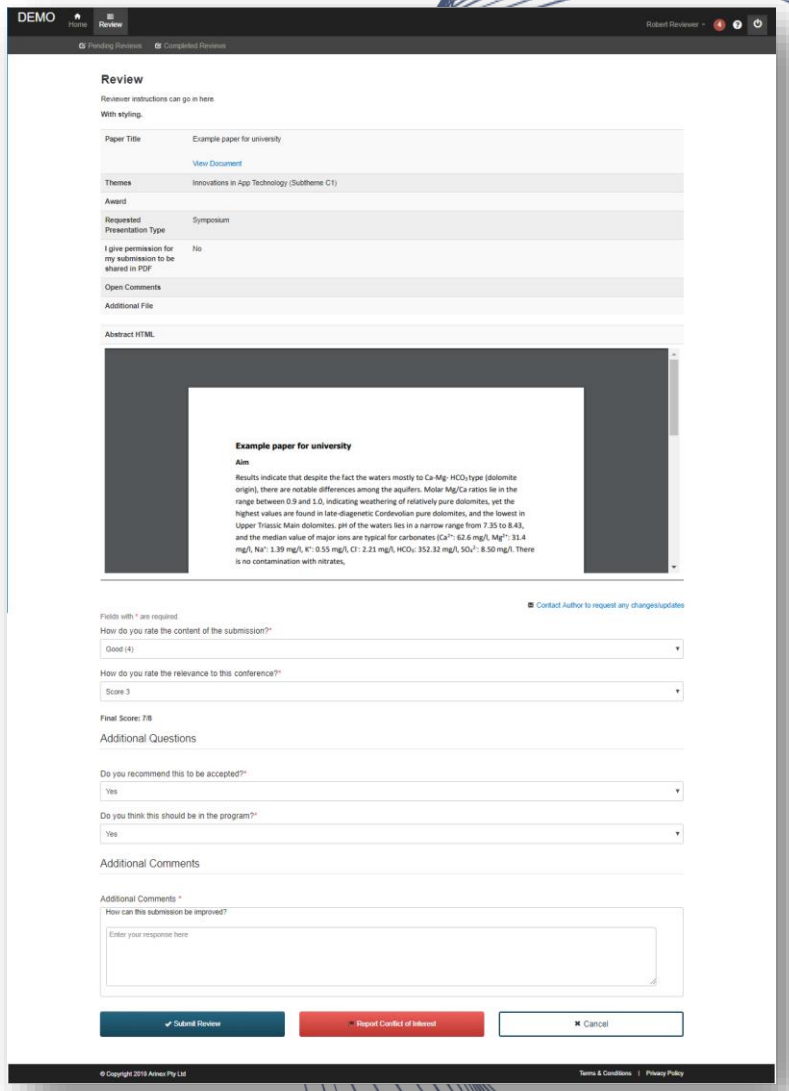

Equally distribute your selection of papers between reviewers of your choice

**Smart, built-in checks ensure reviewers will never be assigned their own submission and the system supports blind reviews if required.*

eOrganiser

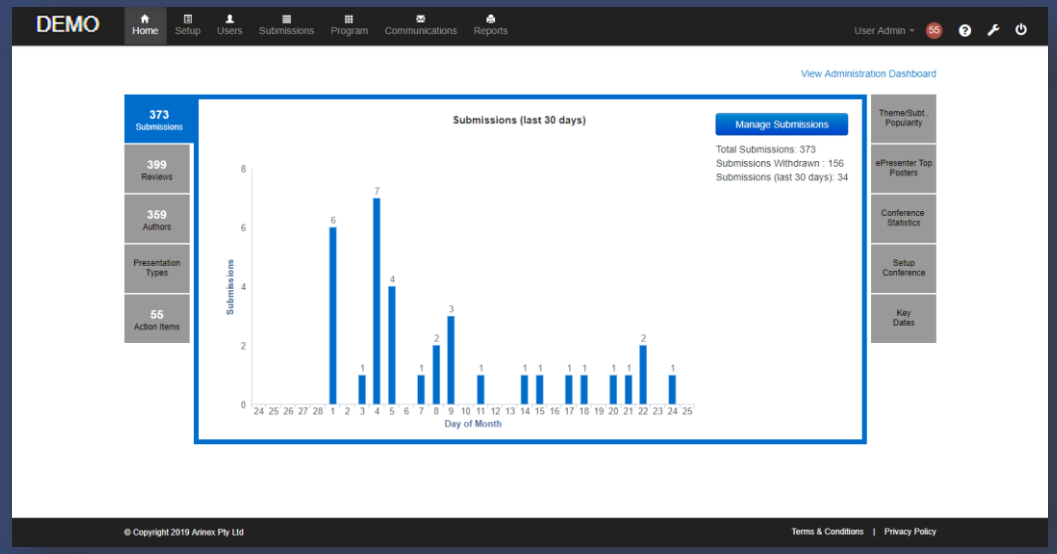

Benefits of Review

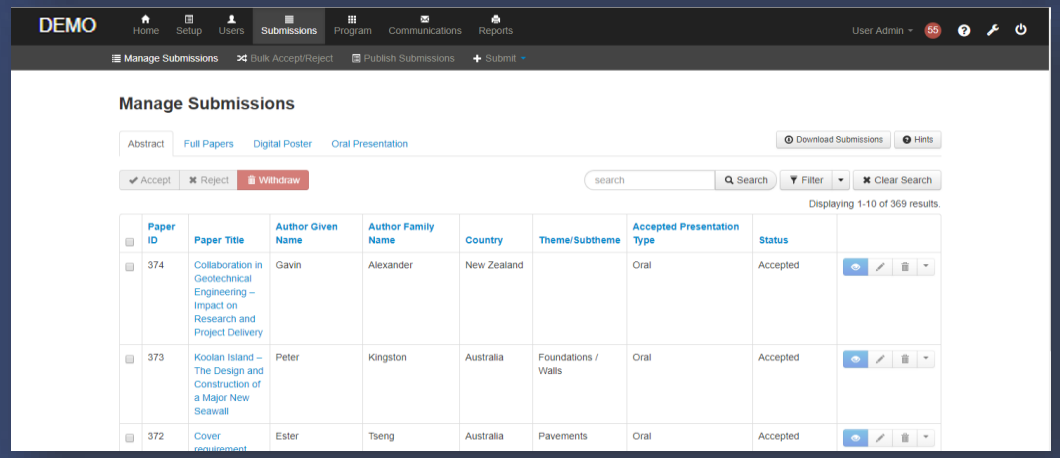

- No need to download any abstracts
- Review from any device
- Dashboard with score frequency and pending reviews
- Easy to report conflict of interest
- Score the abstract
- Make contact with the authors anonymously (optional)
- Change score at any time until review cut off date

eOrganiser

Manage Submissions

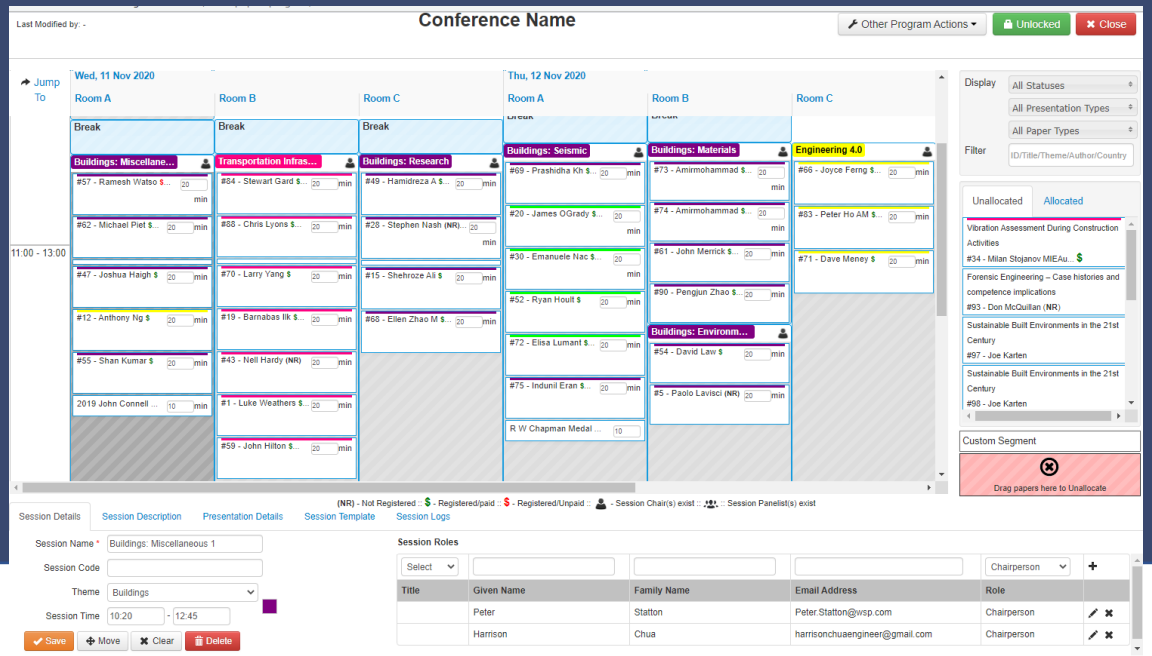

Features:

- Sync registration data and eliminate manual cross checking
- Customise and download standard reports
- Send communication emails
- Dashboard statistics
- Manage submissions
- Create different roles (coordinators, administrators, chairs, committee members)
- Merge duplicate user accounts
- Import:
  - Authors
  - Reviewers
  - Committee members
  - Photos

eOrganiser

Program Management

- Visual drag and drop program manager
- Auto adjust session times
- Add on-the-fly sessions
- Withdraw speakers and sessions
- Automatic program flow
- Real time deployment of session changes
- Add Chairs, Panellists and other roles
- Auto Save and Program backup

No more spreadsheets! Everyone can log on at the same time and make changes

Custom Sessions

- Panel discussion
- Open Ceremony, Gala Dinner
- Poster Listing

Other Features

Chairperson: Xiaozhou Liao
Session Name: PS-13.2 Physical science applications of in-situ microscopy
Session Date: Monday, 10 Sep 2018
Session Time: 14:00 pm - 16:00 pm
Session Room: Darling Harbour Theatre
Session Speakers:

Presentation Time	Speaker Name	Affiliation/Organisation Name	Presentation Type
14:00 pm - 14:30 pm	**Dmitri GOLBERG**	Queensland University of Technology	Invited Speaker – by invite only

Presentation Name: In situ TEM for inorganic nanomaterial property analysis

Biography:
Dmitri obtained his PhD degree in Moscow, Russia, in 1990, from the Bardin Research Institute for Metallurgy and joined the National Institute for Materials Science (NIMS), Tsukuba, Japan, five years later, where he discovered and launched world first TEM studies on boron nitride and many other inorganic nanotubes, nanowires and nanosheets, and developed various methods of in situ TEM analyses of diverse inorganic nanostructures. From April 2017 he joined Queensland University of Technology (QUT), in Brisbane, as an Australian Laureate Fellow and a Full Professor. To date, Dmitri has authored and co-authored more than 450 original papers and more than 100 japanese and international patents. His papers have been cited over 33000 times and H-index of his publications is 94. Dmitri numerous awards include Tsukuba Prize for his pioneering studies of inorganic nanotubes, Thomson Reuters Research Front Award for his outstanding contributions to emerging global research fronts, Sato Award from the Microscopy Society of Japan, and NIMS President Award. In 2014, 2015, 2016 and 2017 he was consecutively named as a Highly-Cited Researcher by Thomson Reuters being currently listed among top-250 most-cited world materials scientists on the Web of Science.
Presenter Email:dmitry.golberg@qut.edu.au
Presenter Phone:+61-7-31386601

14:30 pm - 15:00 pm	**Zibin CHEN**	Scitek Australia	Invited Speaker – by invite only

Presentation Name: In-situ Transmission Electron Microscopy Investigation of Ferroelectric Domain Switching

Biography:
Dr. Zibin Chen conducted his MPhil and PhD research in the University of Sydney under the supervision of Prof. Xiaozhou Liao and received his PhD degree in 2017. He was awarded a Chinese government overseas private students scholarship for his PhD research. After his PhD, he worked in the University of Sydney as a postdoctoral research associate until he joined Scitek Australia Pty Ltd, a world leader in vacuum technology and surface science technology, as an application scientist in December 2017. Dr. Chen's research interest focuses on ex-situ and in-situ electron microscopy characterisation of the structures and structure-property relationships of advanced materials including semiconductor and ferroelectric materials. He has published high-quality papers in top journals including Nature Materials, Physical Review Letters, Physical Review Applied, and Acta Materialia.
Presenter Email:zibin@scitek.com.au
Presenter Phone:+61 447818577

15:00 pm - 15:15 pm	**Xuedong BAI**	Institute of Physics, Chinese Academy of Sciences	Oral Presentation

Presentation Name:
Real-time observation of solid-state electrochemical processes at atomic scale by in-situ TEM

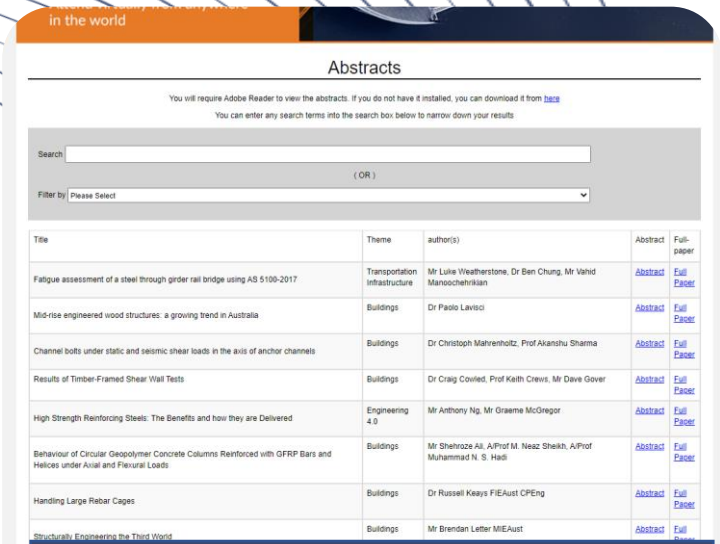

Biography:
Please note this is optional.
Presenter Email:xdbai@iphy.ac.cn
Presenter Phone:+86-10-8264 9032

15:15 pm - 15:30 pm	**Yoshifumi OSHIMA**	Japan Advanced Institute of Science and Technology	Oral Presentation

Presentation Name:
Operando TEM observation of lithium ion battery

Biography:
Dr. Yoshifumi Oshima is a professor of Japan Advanced Institute of Science and Technology. He received his doctoral degree from Tokyo Institute of Technology in 2006 in Material Science. His research interests are physical and chemical properties of atomic scaled materials. For example, he developed a miniature scanning tunneling microscope (STM) which can be installed in ultra-high vacuum transmission electron microscopy (UHV-TEM) and proved that gold nanowires have quantized conductance and so on. He achieved visualization of lithium atoms for the first time in the world using latest TEM. Now, he has challenged to investigate chemical reaction locally at the solid-liquid interface by developing electrochemical cell for TEM observation. He received the society award (Sato prize) of the Japanese Society of Microscopy in 2011.
Presenter Email:oshima@jaist.ac.jp
Presenter Phone:+81-761-51-1500

Publish submissions in word or PDF

- Program Book
- Send to scientific publishers
- Peer reviewing

- Create program index report
- Export program to visual excel format
- Export chairperson report
- Microsite (generate a portal with all abstract, full papers, presentations)
- Reports – create your own

Communication

- Send any communication to your authors, speakers, committee members, chairs

eOrganiser

Tomorrow's event technology today

ePresenter

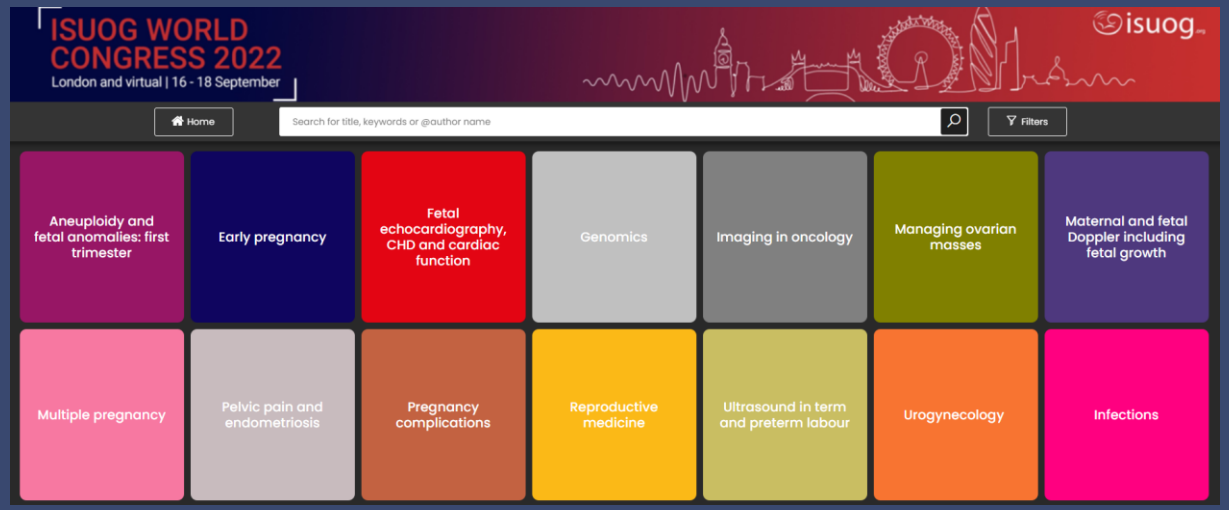

Products to power your events

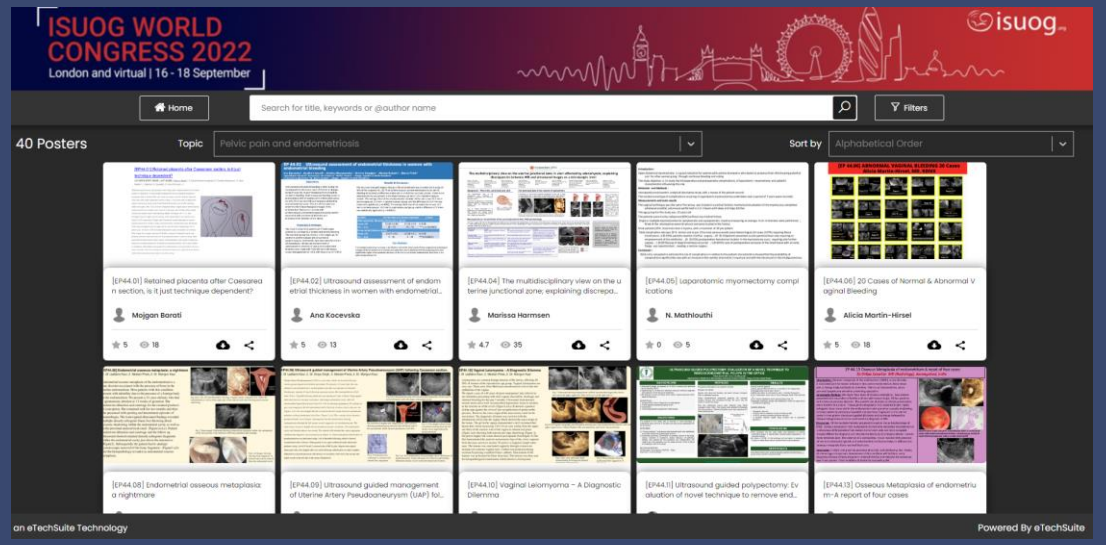

Why ePresenter

- Tested and proven across hundreds of events over the past 10+ years
- Intuitive drag & drop submissions (PPTX – with audio and video content embedded - and PDF) and bulk imports
- Custom branding, colour customisation and whitelabelling
- Viewable on any device and all screen sizes – zoom in and out on touchscreen devices
- Interactivity: star rating, contact author, share poster on social channels
- Search, filter and download posters
- Fully integrated with eOrganiser and can be embedded in event websites, eMobilise, eMeeting/Joyn and other virtual platforms
- Best Sustainable Technology Solution- Event Technology Awards 2022 (Finalist)

eTechSuite

ePresenter (Digital Posters)

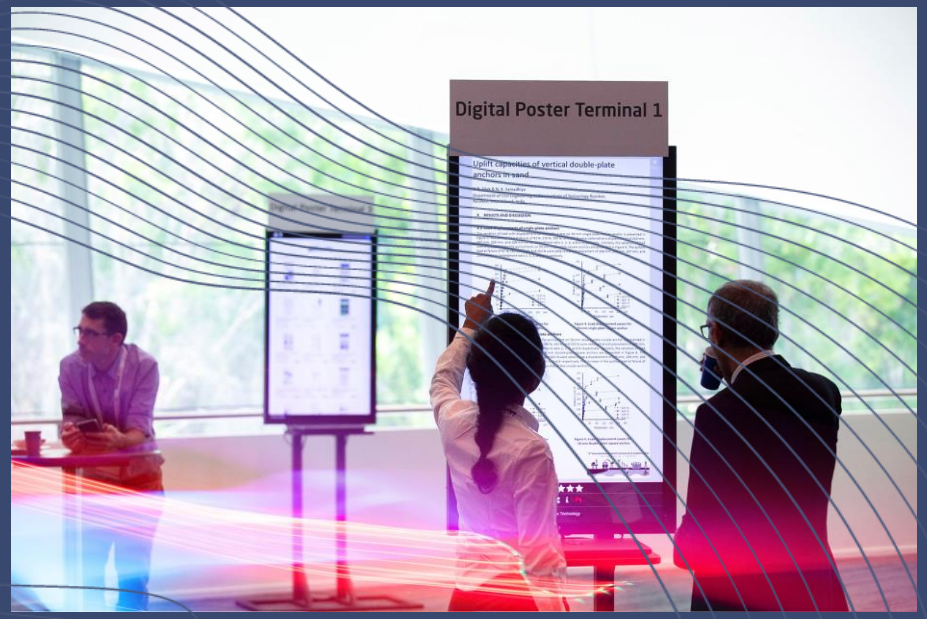

Intuitive and user-friendly experience. Improved poster presentation experience. Streamlined interactions.

- Audio/video available
- Rate posters and contact authors
- Author biography and photo
- Zoom in and out (touchscreens only)
- Multiple slides with checked limits
- Screensaver when not in use
- Win prizes (Gamification)
- Valuable statistics
- Available within the mobile app
- Sponsor messages

ePresenter

ePresenter (Digital Posters)

Interactive experience with paperless posters

Recommended Screens

- Up to 250 PAX: 1-2
- Up to 500 PAX: 2-4
- Up to 1500 PAX: 4-6
- 1500+ PAX: 6+

ePresenter

Tomorrow's event technology today

eSpeaker

Products to power your events

Why eSpeaker

- Submissions pre-event online and onsite; and speaker permissions for post-event sharing
- Submission monitoring: traffic light system
- Automatically send presentations to the right session at the right time; dynamic holding slides
- Avoids program conflicts with session time slot overlap, speaker and room conflict checks.
- Make program changes onsite – and publish in (near) real time to web, eMobilise app, and eMeeting/Joyn virtual platform. Eliminates need to manually update program for changes on multiple channels
- Reduces resource requirements (only need 1 AV technician between 3-4 rooms; instead of 1-2 AV technicians in each room), reducing staffing costs and carbon emissions of AV staff traveling to and from venue.
- The larger the program, the bigger the savings
- Best New Product (eSpeaker) - EEAA Awards 2016 (Finalist)

eTechSuite

High quality speaker presentation experience

Speaker Prep Management

- Drag and Drop Builder
- Submission monitoring
- Automatically send presentations to the right session at the right time
- Integrated with PowerPoint, PDF and Web Link
- Event program capture
- Organiser report view
- Program changes on-site

Session Room

- Holding slides automatic and linked
- Single click presentation launch
- Real time updates without interrupting proceedings
- Presentations available prior to session in room
- Countdown timer
- Local backup
- Preview Speaker Notes

eSpeaker

Tomorrow's event technology today

eMobilise

Products to power your events

Why eMobilise

- Increased interactivity and participant engagement in the event.
- Innovative features: exhibitor lead scanning, session scanning, badge creator, meetings management, interactive floorplans and wayfinding.
- eMobilise integrates with EventsAir and Eventbrite registration systems, automatically syncing all delegate registrations.
- eMobilise integrates with the eOrganiser abstract and program management system, automatically pulling across all program and speaker details in real-time. Eliminates need to manual populate the program and speaker details on the backend of the mobile events app.
- The ePresenter digital posters can be embedded in the eMobilise mobile events app – allowing delegates to view and download the digital posters and contact authors on their phone or tablet.
- Eliminates the need for printed program books, sponsor and exhibitor printed brochures and marketing materials.
- Increase revenue by selling sponsorship packages including branded splash screen, sponsor banners, sponsored push notifications and sponsor/exhibitor pages.

eMobilise (Conference App)

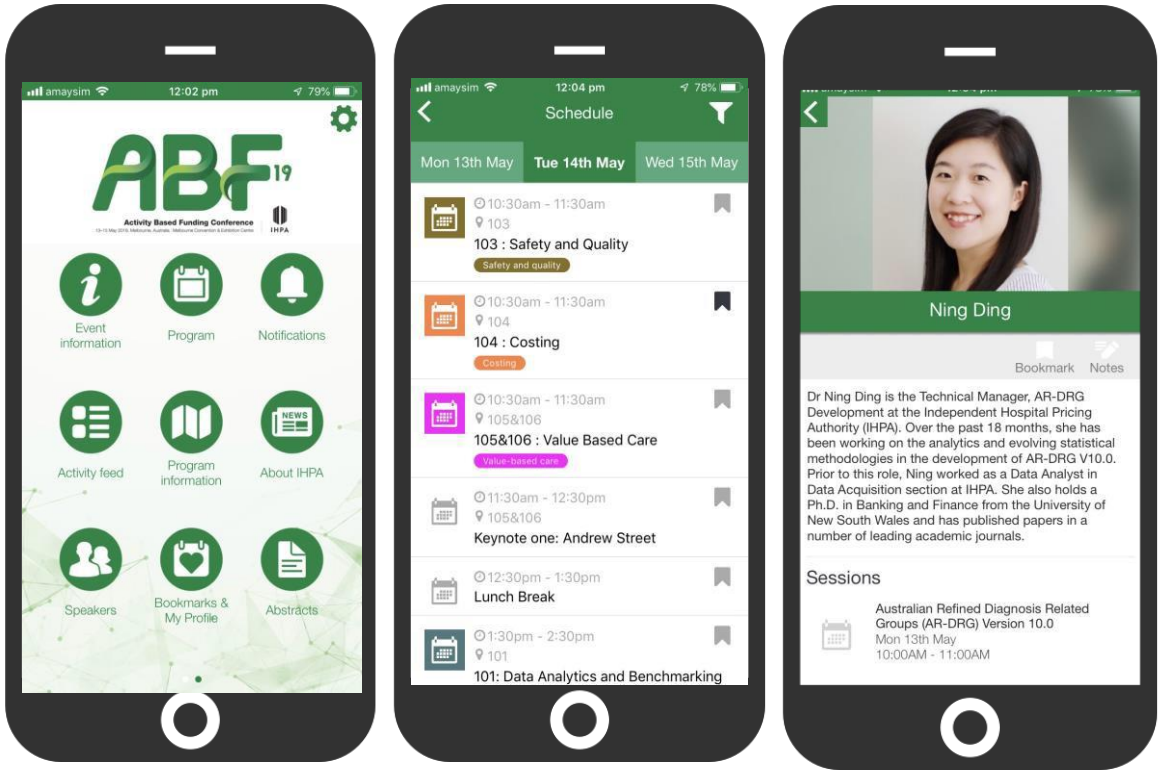

Increase engagement by 70%

Flexible and affordable event app

- Build App in minutes
- Sponsorship opportunities
- Privacy regulated
- Real-time integration with all eTechSuite
- Highest adoption rate in events market
- Focus on engagement and networking
- Lots of additional features
- Extensive data analytics

eMobilise

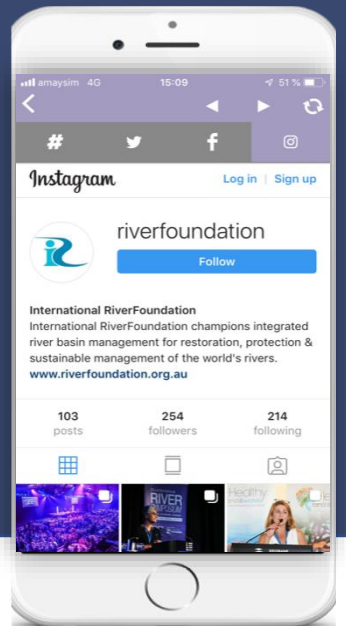

Tomorrow's event technology today

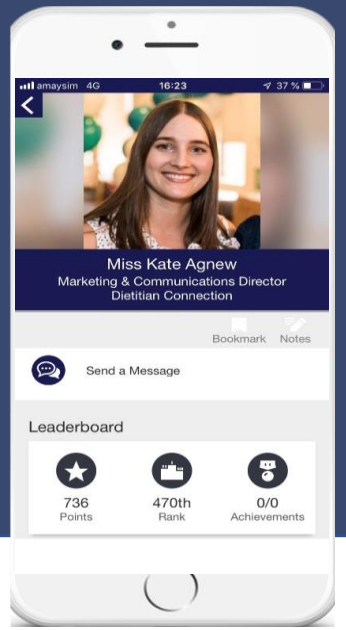

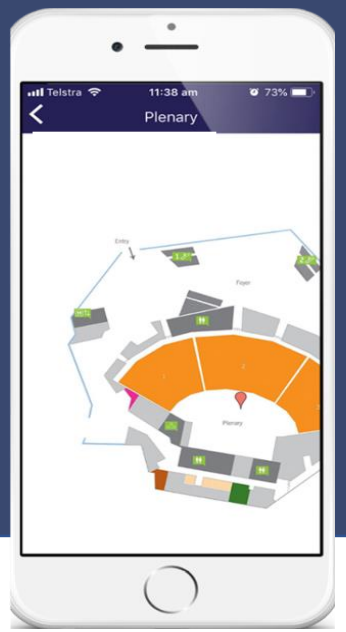

Products to power your events

eMobilise

eMobilise (Conference App)

- Messaging between attendees & exhibitors
- Multiple feedback sets
- Exhibitor Directory & Floor Plans
- Wayfinding
- Push notifications
- Social Media integration
- Gamification
- Valuable statistics & CPD Points
- Exhibitor Lead Tracking
- Sponsor messages

eMobilise

eMobilise (Conference App)

Wayfinding

- Point to point
- Fastest route calculation
- Set Points of Interest
- Multiple venue levels
- Detailed room maps
- Tradeshow map

Gamification

- Custom in-app displays
- Custom stamp image
- Progress bar feature
- Exhibitor logo tiles
- Bonus sponsorship opportunity

Statistics

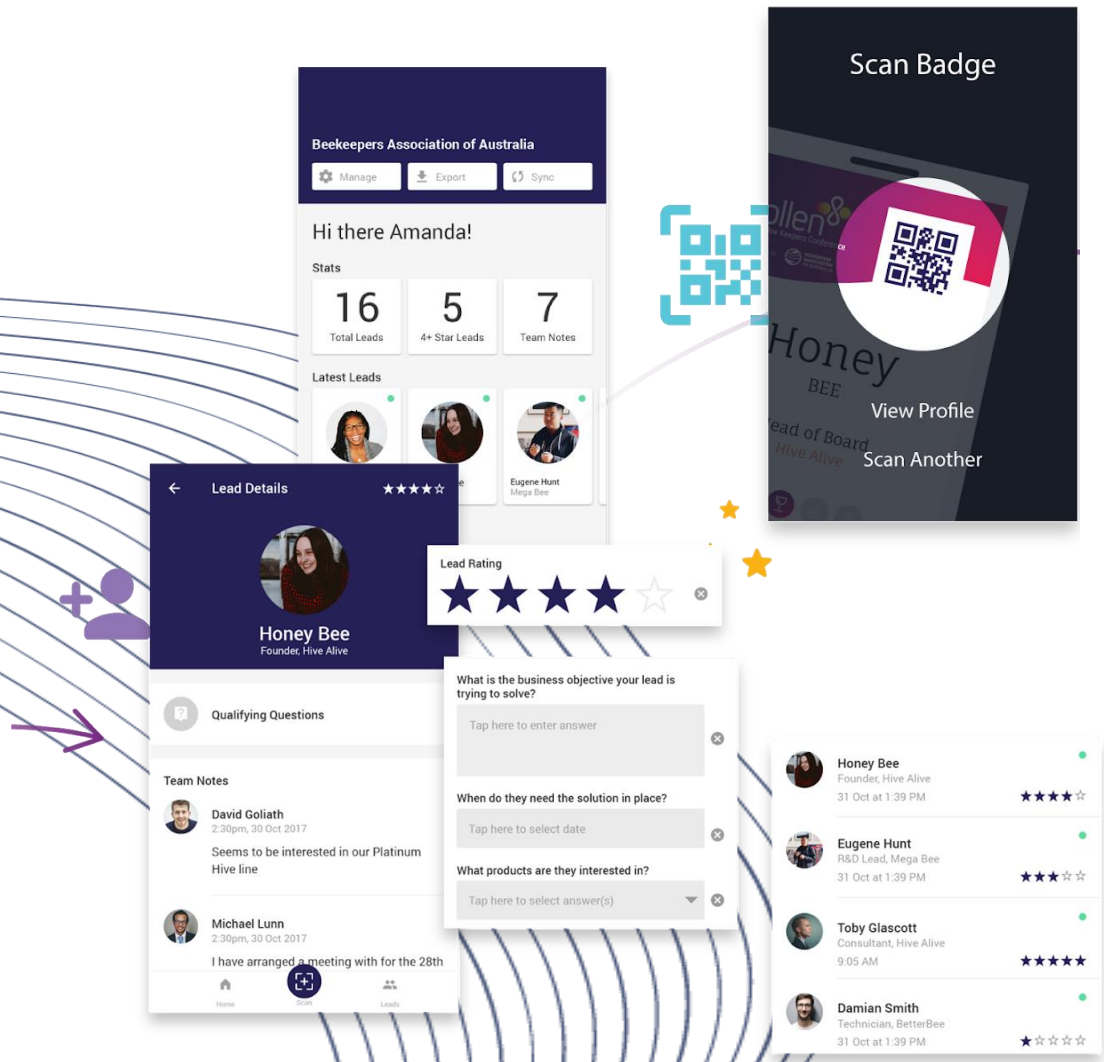

- Session overview report
- Delegate attendance report
- Remaining session report
- Full scan report – excel spreadsheet with attendees and times

eMobilise

eMobilise (Conference App)

Lead Scanning

- Scan attendee badges
- Answer qualifying questions
- Rate and take notes on the go
- Quick export to email
- No additional hardware costs or user limits

eMobilise

eMobilise (Conference App)

Attendance Tracking

- Session attendance tracking
- Ingress Management
- Generate, analyse at any time
- Create rules of entry and controlled sessions
- Attendees can see attended sessions in the event app

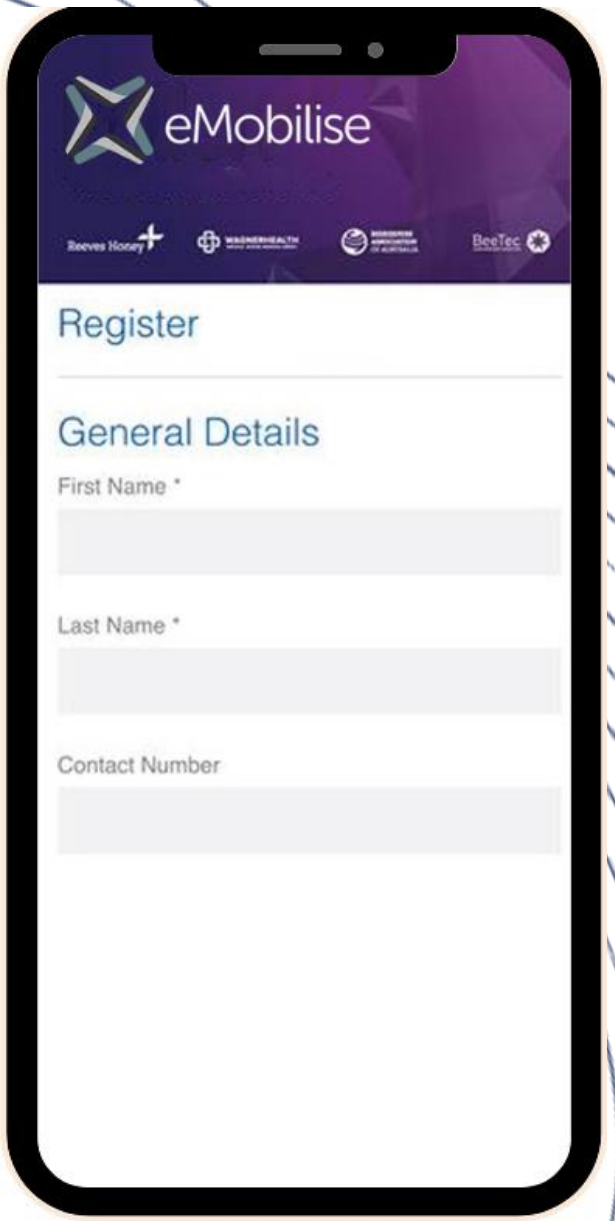

eMobilise

eMobilise (Conference App)

Registration

- Drag and drop builder
- Skin with event theme
- Responsive and mobile friendly
- Integrated with eWAY or Pin Payments
- Create custom HTML confirmation emails
- Connect to onsite registration when coupled with instant badge printing kiosks

eMobilise

eMobilise

Create a printing solution to suit

Export to PDF and print at commercial printer.

Scan or look-up attendees at rego desk to generate badges.

Welcome attendees with premium self-serve kiosks with multiple check-in options.

eMobilise

eMobilise (Conference App)

Badge creator

- Use attendee profile data to automatically change layouts, colours, icons and other design elements.
- Display unique information such as attendee types or dietary requirements.
- QR codes connect attendee's profile data to the Event App, Capture App and Track App.
- Create full colour, single or double sided badges. Supports any size or stock option - A6, business card, butterfly and labels.

eMobilise

Tomorrow's event technology today

eRegistration

Products to power your events

Why eRegistration/registration kiosks

- Self-service registration kiosks provide a modern, smart and professional first impression of events.
- State-of-the-art kiosks come with the latest barcode scanners, touch screen for name look-up and badge printers.
- Registration kiosk software integrates with event management systems like EventsAIR and Eventbrite, as well as the eMobilise mobile events app.
- Each kiosk is capable of processing 100-120 registrations per hour.
- Our service includes onsite technology manager and/or delegate registration support staff.
- Registration kiosks reduce registration staff and associated travel and accommodation, reducing the carbon footprint of events.
- Registration kiosks print on demand and avoid wastage of pre-printed badge solutions. Environmentally friendly lanyard and badge options eliminate the need for plastic pouches.
- Kiosks can be custom branded and repurposed for displaying the event website, digital posters, the mobile events app or virtual events platform after the peak in registrations is over.

Seamless Scan and Print Experience

- Eliminate queues
- Self-service check in
- Print-on-demand
- Pre-printed
- Roving registration technology
- Contactless and COVID-safe kiosk solutions

Complete Registration Support

- Professional and friendly staff
- Service can include onsite manager and/or delegate registration staff
- Customised registration reports and access to real time participant lists
- Integrate between eMobilise, EventsAir and Eventbrite

Range of name badge, lanyard and custom branding options

- Custom name badges
- Custom lanyards
- Environmentally friendly options

Focus on Sustainability

- Options to reduce event carbon footprint
- eTechSuite is a registered carbon neutral organisation
- Sustainable lanyard and name badge options

Self-serve Registration Kiosks

- eRegistation use the latest in technology systems for high-speed COVID-safe name badge printing.
- State-of-the-art kiosks come with the latest barcode scanners, touch screen for name look-up and badge printers.
- Capable of processing 100-120 registrations per hour.
- Our service includes onsite technology manager and/or delegate registration support staff.
- We can accommodate a range of name badge and lanyard requests with a variety of options from print-on-demand to environmentally friendly solutions.
- Versatile and flexible, our kiosks can be custom branded and repurposed for displaying the event website, digital posters, the mobile events app or virtual events platform after the peak in registrations is over.

Self-serve Registration Kiosks

- Onsite delegate registration has never been easier with eRegistration's innovative self-serve registration kiosks which create a quick and easy onsite registration experience.
- First impressions matter and we understand the importance of professional and exceptional customer service.
- Reduce your event's carbon footprint with our print on-demand and recycled paper solutions. eTechSuite is a registered carbon neutral organisation.

Climate Active Carbon Neutral ORGANISATION

We are well-tuned in managing the needs of attendees from all over the world creating a simple, professional and welcoming user experience.

Specifications

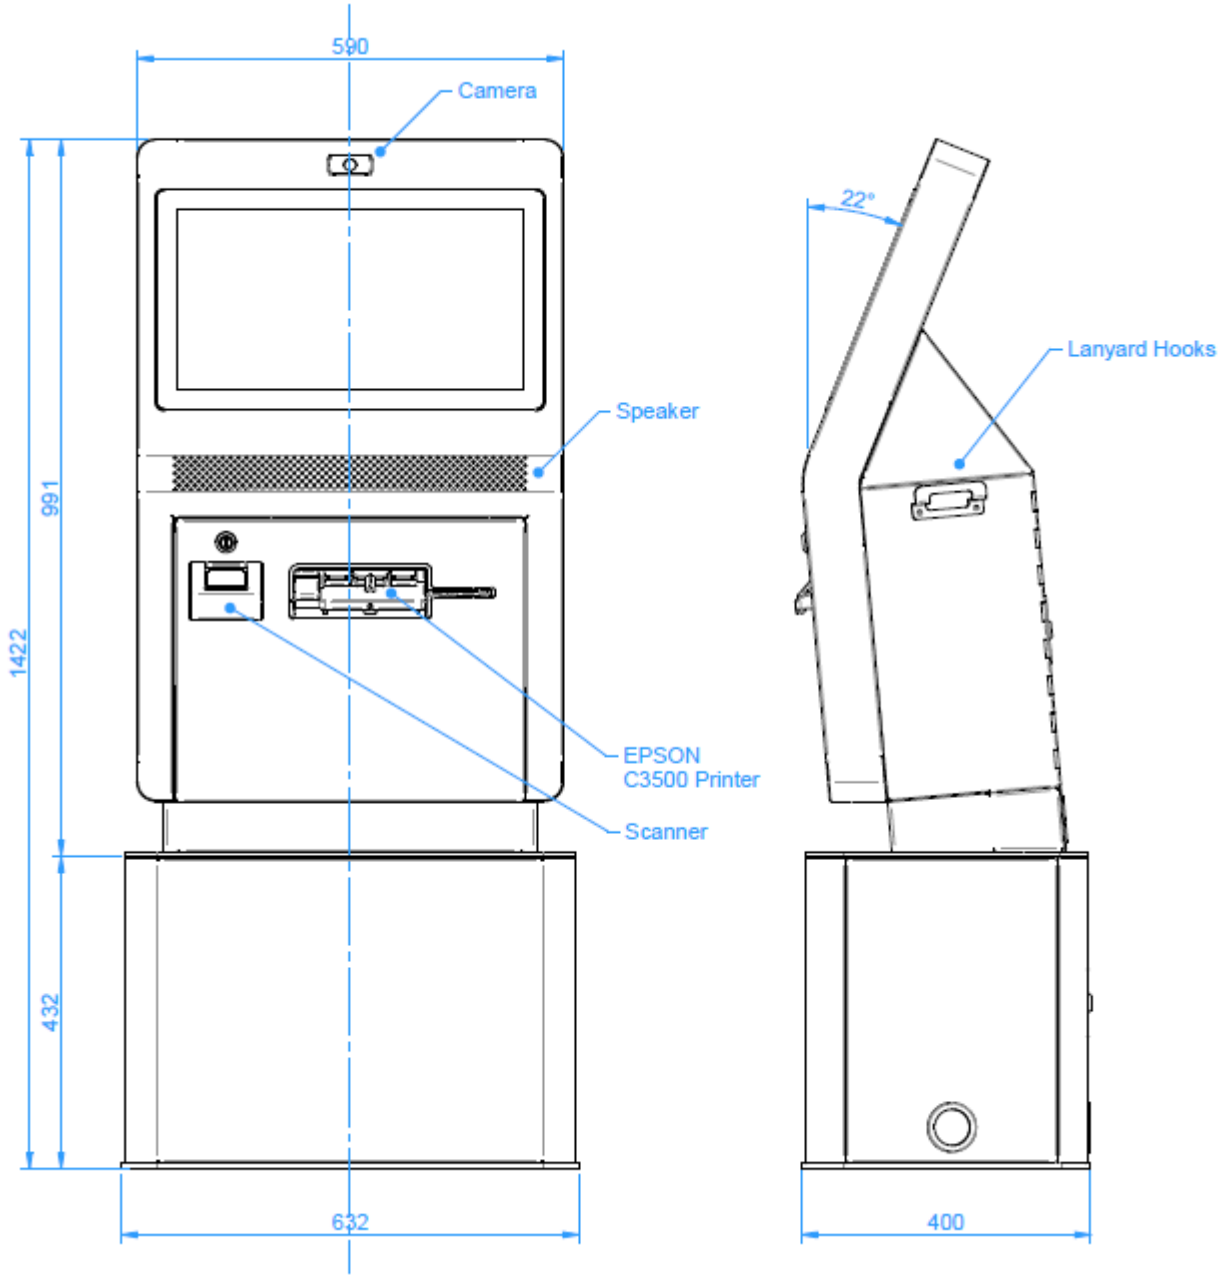

Kiosk Size: 1422mmH x 632mmW x 400mmD

Screen: Integrated 21.5 inch touch screen: 1920 x 1080 resolution. High clarity display with protective toughened glass. Multi-touch with gesture support and 5ms response time. Energy saving LED technology

Camera: Integrated Logitech camera. Hyper-fast HD 720p at 60fps. 3 mega pixel. Autofocus

Audio: Integrated Lenovo speaker/stereo soundbar.

Scanner: Integrated Datalogic barcode scanner: Highly visible 4-Dot aimer with center cross for targeted scanning. Omnidirectional reading. Reads bar codes down to 4mils

Tomorrow's event technology today

eMeeting

Products to power your events

Why eMeeting/Joyn

- Integrated CPD tracking.
- Integrated mobile events app: interaction, UI/look & feel.
- Access to gradual real-time engagement data such as session attendance, time spent in sessions, downloads, Q&A, sponsored content and more.
- Support and quality of event delivery: onsite production services.
- Integration with eOrganiser/ePresenter/eSpeaker – saving hours of content management.

Hybrid and virtual event technology (eMeeting)

Enable speakers to deliver lectures & keynotes remotely.

Reach global audiences with no need for commute/travel.

You can easily measure attendance and engagement.

Conduct online conferences cost-effectively.

BENEFITS OF ONLINE CONFERENCES

Efficient use of time, cost savings and increased productivity.

Enable attendees to access the event on-the-go from any device.

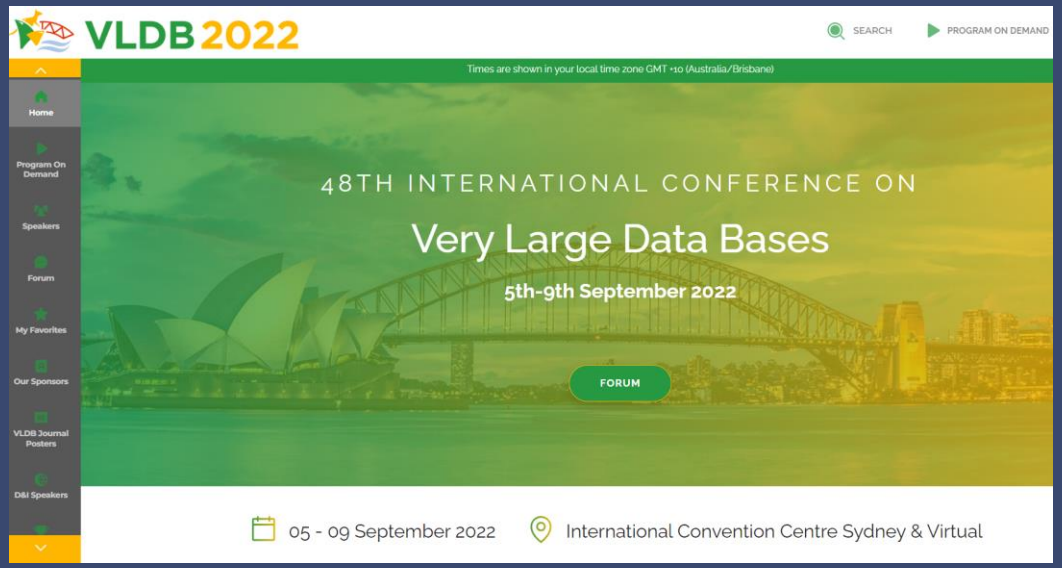

Speaker video provides a feeling and personalisation similar to being in the same meeting room.

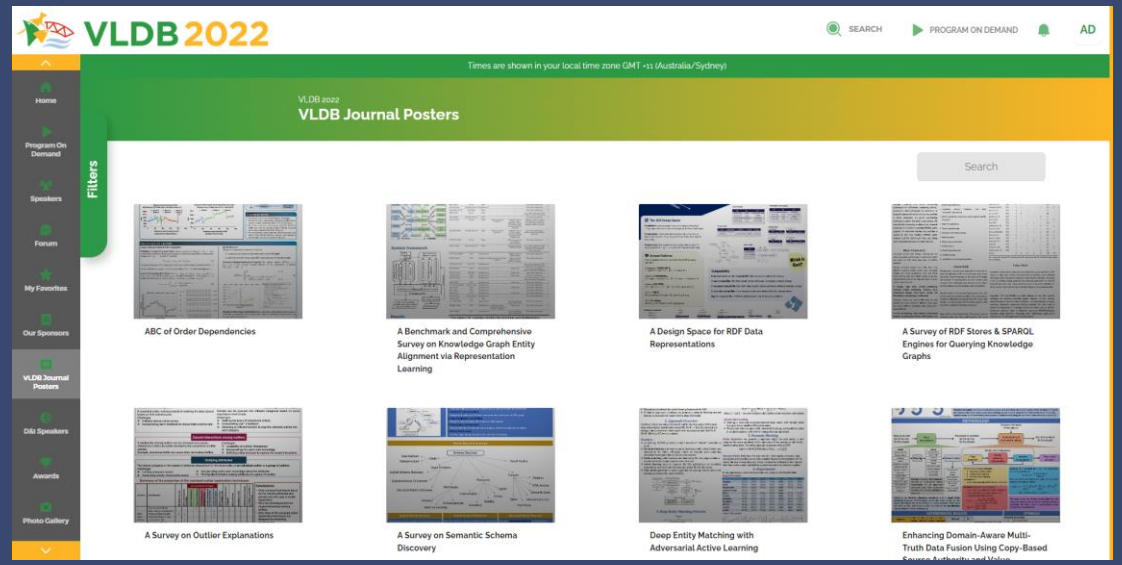

Engage participants in real-time using audio/video chat.

Virtual Events

eAccreditation

Products to power your events

Why eAccreditation

- eAccreditation provides a modern, smart and professional CPD solution for events.
- Session attendance data can be imported or automatically synced from session attendance tracking in eMobilise – eliminating the labour intensive process of collecting ambiguous attendance data.
- eAccreditation supports point calculations based on unique industry, accreditation body and delivery format requirements.
- Attendance data and CPD certificates accessible for anyone, anytime, anywhere and on any device (desktop, laptop, tablet and phone).
- eAccreditation can be embedded on the event website, the eMobilise mobile events app and virtual events platforms.
- CPD certificates can be customised for client's specific needs.

eAccreditation (CPD Point Management)

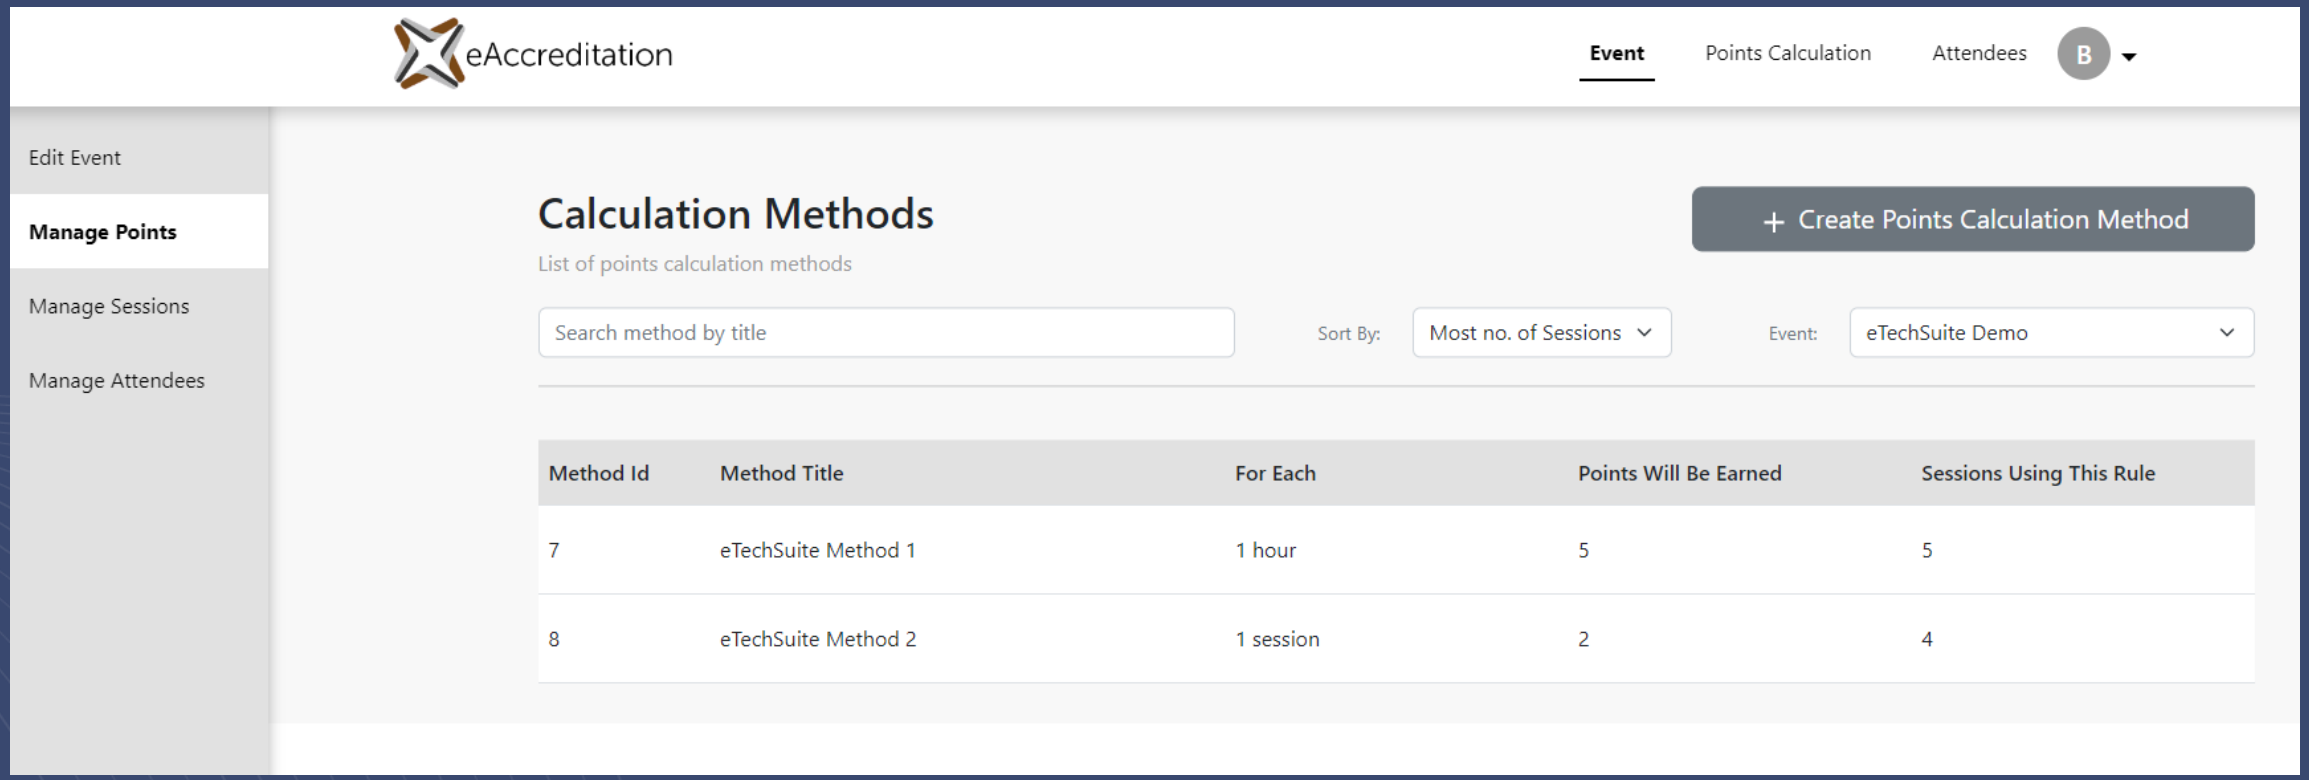

CPD points managed with ease

- First event technology available to calculate accreditation data
- Fast and secure
- Build intuitive portal in minutes
- Imports data from multiple sources
- Customised point calculations
- Ongoing support from experienced experts
- Real-time session attendance reporting

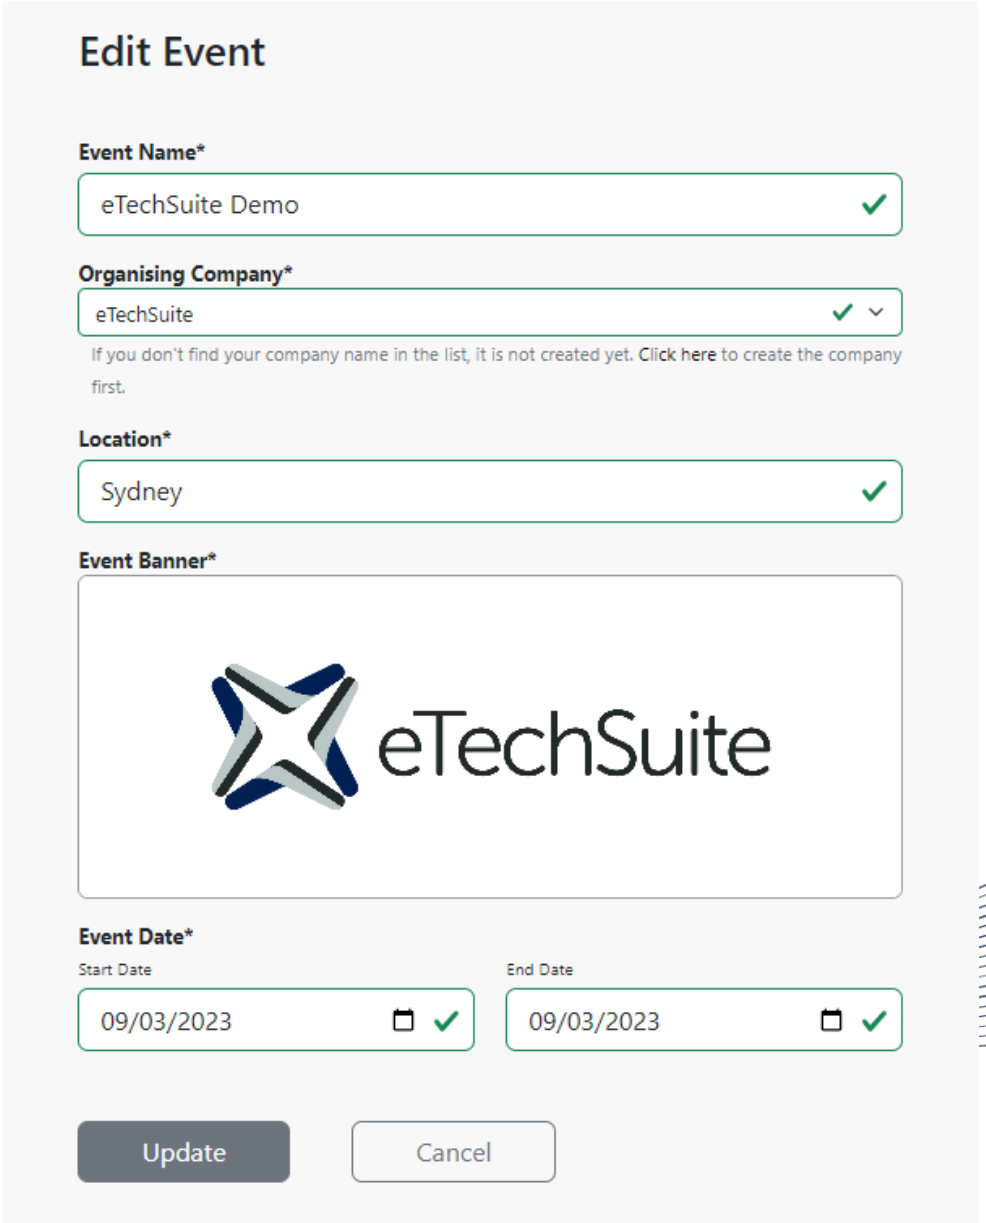

eAccreditation

eAccreditation (CPD Point Management)

Customisable Portal

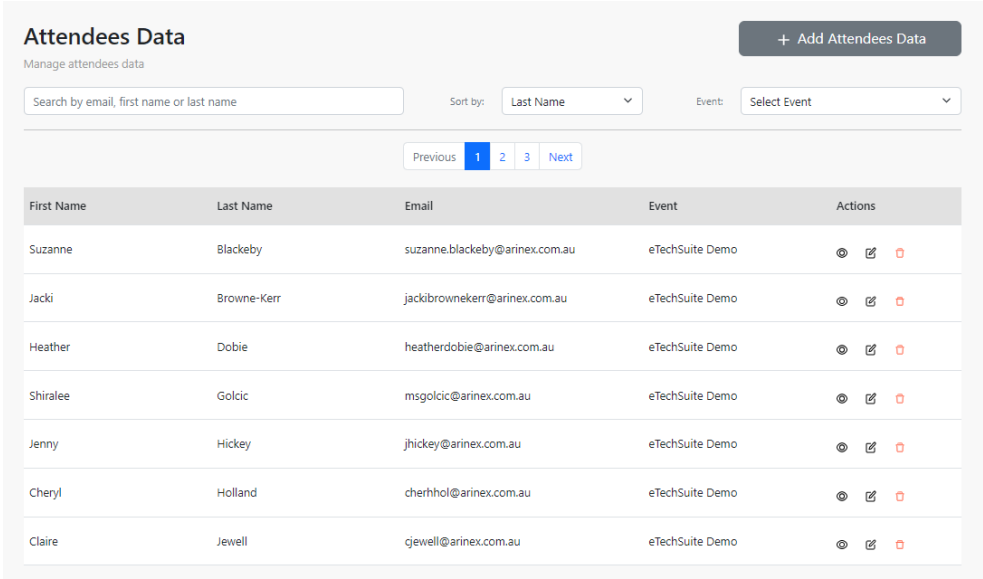

- Allows custom branding – including event and sponsorship branding.
- Create user roles with different access levels for administrators, committee members and delegates.
- Supports point calculations based on industry, accreditation body and format requirements.
- Create custom CPD certificates for attendees.

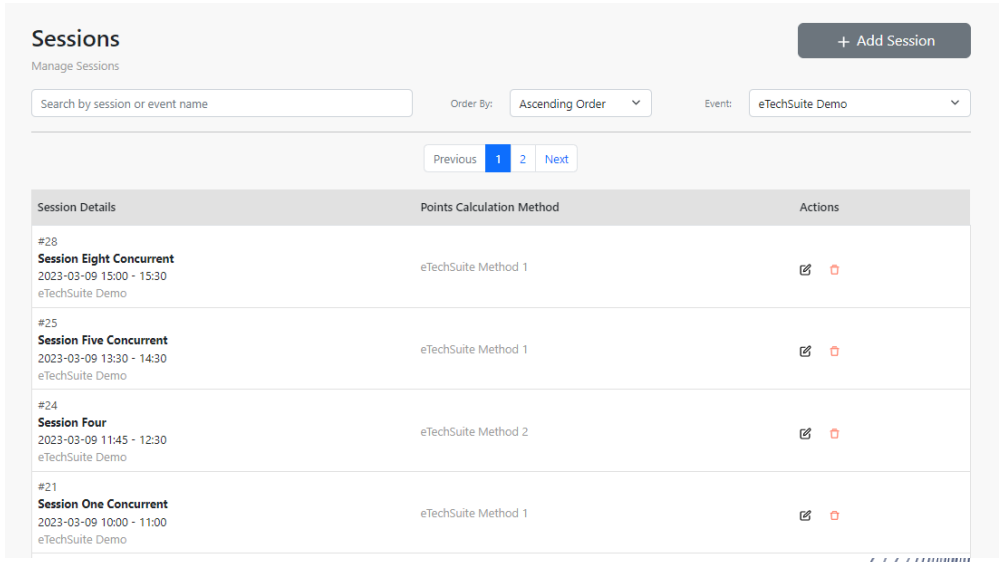

eAccreditation

Efficient Experience

- Session data can be automatically synced from multiple session attendance tracking tools – eliminating the labour intensive process of collecting data.
- No more hours spent designing and individually distributing personalised attendance or CPD certificates.
- Attendance data and CPD certificates accessible for anyone, anytime, anywhere and on any device.
- Embed on event websites, the eMobilise event app and virtual event platforms.

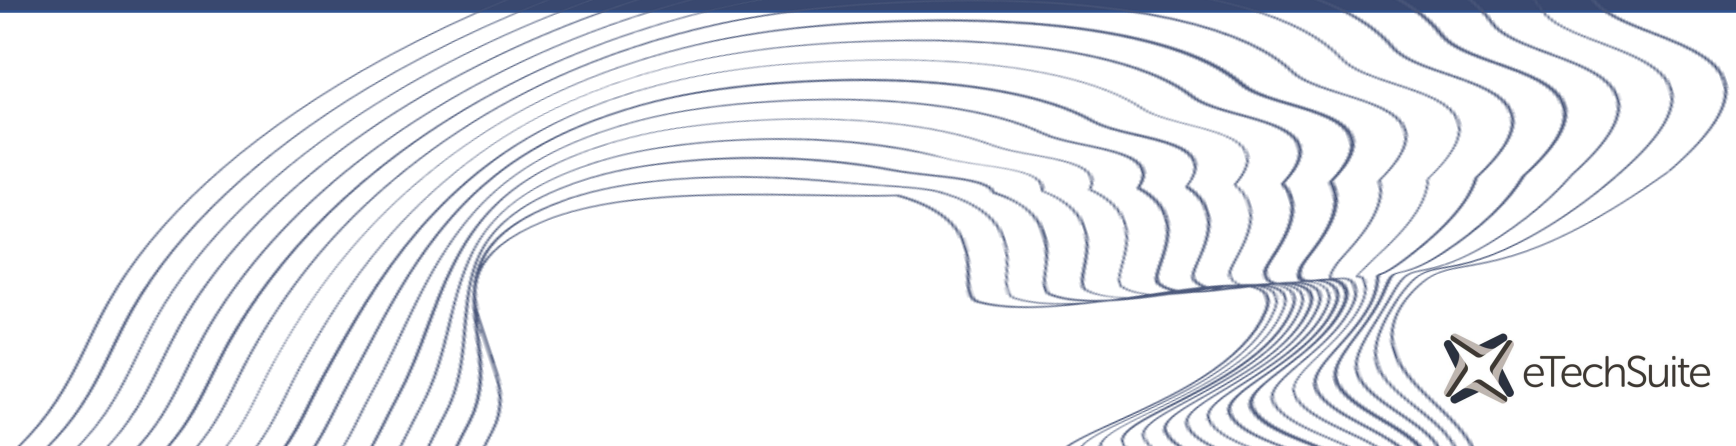

eAccreditation

Client Testimonial ePresenter and eSpeaker

> ISUOG has used ePresenter and eSpeaker since 2018, for both onsite and virtual Congresses, to successfully manage our poster, abstract and invited speaker presentations. We enjoy working with the eTechSuite team and greatly value their cooperation to problem-solve with us and their dedication, patience and professionalism to supporting all our presenters throughout the process.

Saskia Dean, Senior Events Manager, ISUOG

eTechSuite

Client Testimonial eOrganiser

> We ran the World Engineers Convention (WEC) in 2019 and had more than 600 abstracts submitted, without e-Organiser we're not sure how well we would have coped! It makes the abstract submission process a breeze and its capability for mass speaker communications is particularly handy.

Nicole Appleby, General Manager, Professional Development, Engineers Australia
User of eOrganiser since 2019

eTechSuite

Client Testimonial eOrganiser

> We have been users of eOrganiser since 2014 and very pleased with it. In particular, the support given is outstanding. eOrganiser is always our first recommendation to clients for a comprehensive online abstract/paper portal.

Marg Craig, Director, The Conference Team

eTechSuite

Client Testimonial eSpeaker

> Ability to ‘think outside the box’ providing innovative event technology and digital solutions, differentiates them from others.

General Manager, Microhire

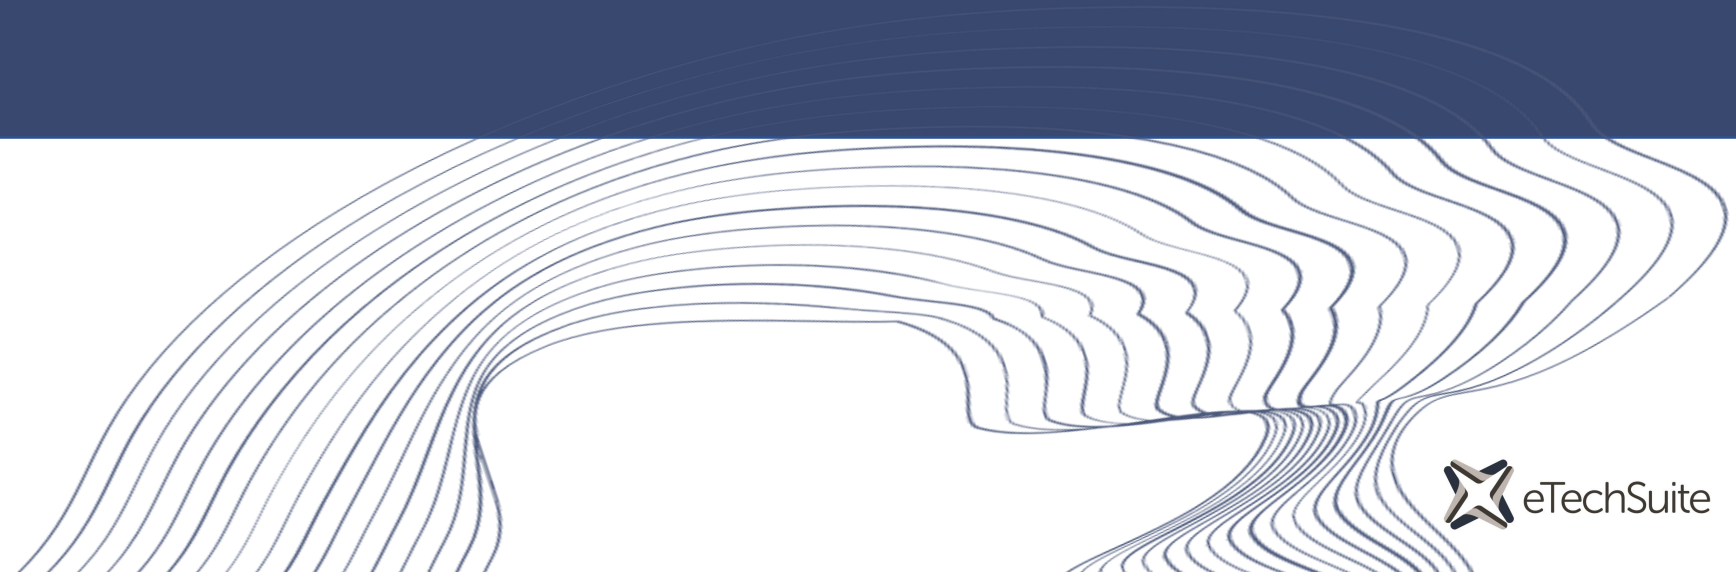

eTechSuite

Client Testimonial eMobilise

> We were wrapped with eMobilise and services provided by eTechSuite.

Spokesperson, Whisky, Wine and Fire 2019

eTechSuite

Client Testimonial eMeeting

> It was wonderful to have the technical support staff of eTechSuite providing the planning, set up, structure and integration of systems to ensure the success of our LIVE event. Immediate analytics provided opportunities to change and update content that presented extra benefits to our young oncologists.

Flavia Portela, Marketing and Office Manager, MOGA

eTechSuite

Client Testimonial ePresenter

> ePresenter increased interaction between attendees and facilitated a unique way of presenting scientific posters

Committee Member, 6th World Congress on Pediatric Critical Care

eTechSuite

Client Testimonial eOrganiser

> eOrganiser provided flexibility and was responsive to changes in the lead up to the final program

Dr Graeme Horton, School of Medicine and Public Health
