Elevate your brand during your flight through our detailed branding options:

- Customised headrest covers
- Bespoke in-flight entertainment
- Branded aircraft decals
- Aircraft amenity packs
- Branded catering options, cupcakes, chocolates or personalised drinks

Your dedicated Account Manager would be happy to discuss full details of branding options and help bring your ideas to life.

Coordinate your timings

Timing is everything, especially when planning for large groups. Whether it's a weekend incentive trip or a series of flights over an extended period, you can rely on our skilled logistics.

Often we assist companies with complex travel arrangements where groups may be coming from multiple destinations to arrive at the same time.

In action.

Secret to success

We organised flights for a special incentive trip for a leading corporate, flying 1,000 passengers. The client wished to keep the destination a secret to generate excitement and we assisted with our bespoke branding services.

We removed the destination information from the check-in screens, simply showing the client's logo and event name. Within the private terminal lounge we organised refreshments, where they enjoyed drinks and canapes before the flight. Onboard, the crew delivered a personalised welcome announcement to help build the anticipation.

We also provided branded headrest covers which hinted at the destination and the passengers enjoyed bespoke catering and an open bar.

AIR PARTNER
Carbon Offset

Taking responsibility.

Environmental concerns continue to present a significant challenge for the aviation industry and, as a business, we are on a journey to reduce our emissions through our Environmental, Social and Governance (ESG) Strategy. As such, for every flight you book with us, offsetting your carbon emissions is automatically included to allow for you or your business to reduce harm caused by flying.

+ Working with Climate and Sustainable Development experts Climate Impact Partners, with every flight booked with us, your emissions are offset and the funding is used to support projects that not only cut carbon, but also alleviate poverty and improve lives.

+ We know that our customers are increasingly aware of climate change, many of whom are being more mindful of their impact on their environment, and about when and how often they travel, whether for business or leisure.

+ The projects being supported have been selected to provide a combination of the highest quality emission reductions, whilst also delivering the most sustainable impact.

How it works.

For a full list of frequently asked questions visit www.airpartner.com/en/carbon-offsetting

1 When you book your flight

With every flight you book with us, offsetting your carbon emissions is included, to allow for you or your business to give back to the planet.

2 We'll do the calculation

Your dedicated Account Manager will calculate the emissions based on the variables of your flight – the duration and the aircraft category.

3 Seamless payment

Your carbon offsetting payment is included in the cost of your flight. This will be listed as "Carbon Offsetting".

4 You're ready to offset

Climate Impact Partners will then offset these emissions through projects that cut carbon and improve lives.
