Por qué
COLOMBIA

AVENTURE COLOMBIA
agencia de viajes

- 16 years of experience
- 20 employees
- 2 main agencies (Bogotá, Medellín)
- More than 5000 travelers a year before the pandemic
- More than 50 destinations

Why
COLOMBIA?

Rich in its flora and fauna, breathtaking landscapes and welcoming people, Colombia has all the essential ingredients for providing a great trip.

1rst world

Birds & Orchids

Colombia has 20% of the total bird species in the world (1,909 species), and 4,270 species of orchids; 1,572 of which are unique in the world, and found nowhere else.

2nd world

Plants & Butterflies

Colombia has more than 3,250 species of butterflies, only 12 of which are threatened. In addition, there are almost 10,000 different species of plants in the country.

3rd world

Reptiles & Palm Trees

Although the wax palm tree is Colombia's national tree, it is only one of the 290 species of palm that live in the country. Colombia also has more than 330 different species of reptiles.

Something for **everyone**

Extraordinary landscapes and incredible beaches, Colombia also offers a panorama of colonial cities full of charm and history.

Easy **access**

With increasingly better infrastructure, means of transport and low-cost national flights, mobility within the country has become easier than ever.

2nd best **country to visit**

Thanks to its rich biodiversity, its vibrant culture and its incredibly welcoming people, Colombia becomes the 2nd best country to visit in 2017, according to the Lonely Planet ranking.

A MULTITUDE OF ACTIVITIES

SAFETY

Formerly considered to be dangerous, Colombia is experiencing a real renaissance. Former president Juan Manuel Santos, received a Nobel Peace Prize for pursuing a peace deal. This cultural and social step has given this fabulous country a second chance.

Even though Colombia suffered from its association to Pablo Escobar's cartel, it was able to rise above and recreate its image.

The country's efforts to recreate its image have paid off. Most travelers find Colombia to be generally safer than its closest neighbors - an incredible turnaround.

FLORA & FAUNA

The different climates and varied landscapes make Colombia an incredibly diverse country. Its Flora and Fauna make up a country rich in species, many of which are still unexploited.

Area: 440,800 mi^2 (2x Texas)

Population : 51,6 million people

Capital : Bogotá

Official Language: Spanish

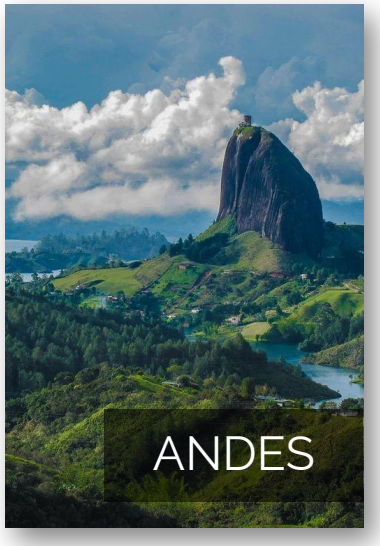

Politics: Democratic republic

Religion : 90% catholic

Electricity: 110 volts

Time zone: -1h in summer otherwise EST

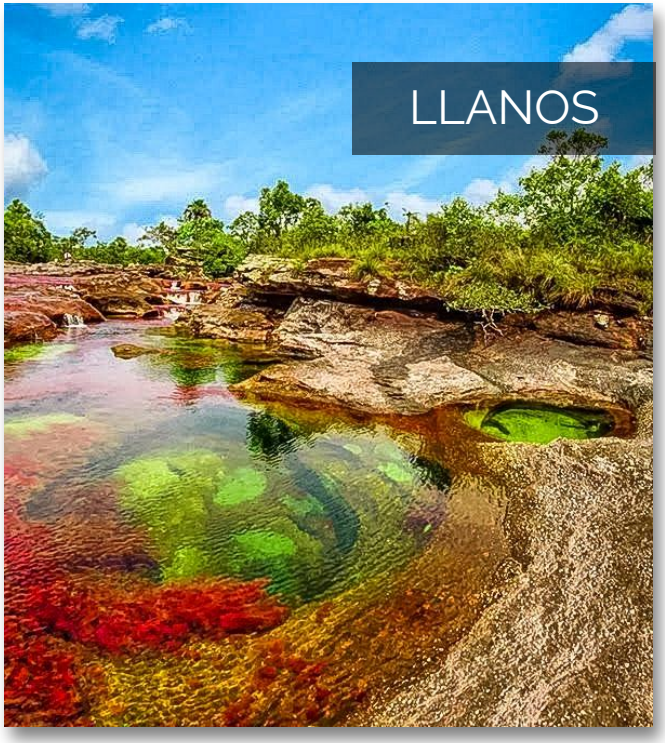

Money: Colombian Pesos (COP)

CARIBBEAN

LLANOS

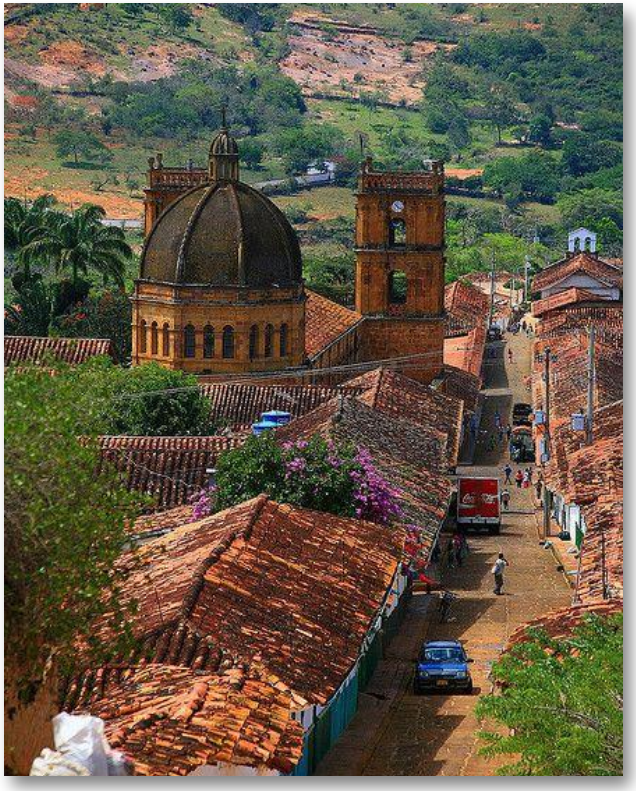

COLONIAL TOWNS

The Caribbean region was the gateway for Spaniards in Colombia, in addition to its exit route, especially for the wealth that was extracted from the lands and brought back to Europe.

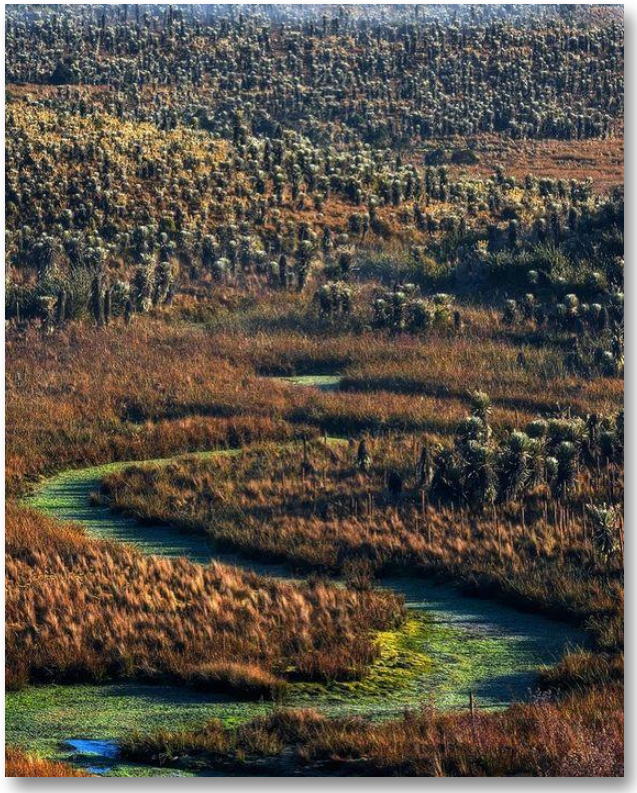

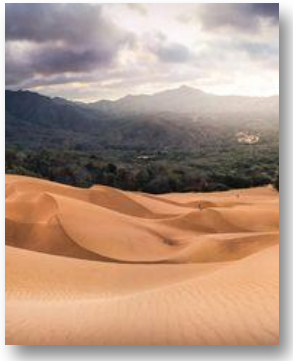

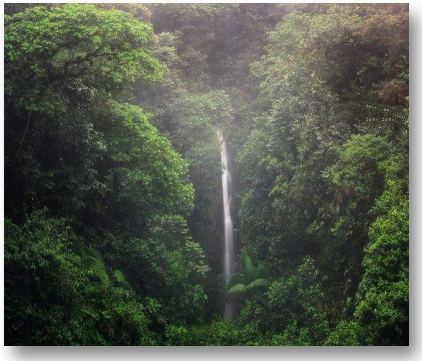

NATURE

Beyond its access to the sea, marshes and a desert, the Caribbean region is also home to the Sierra Nevada de Santa Marta, the highest coastal mountain range in the world.

This diversity of ecosystems allows for a large number of animal and plant life to survive in an exceptional environment.

LOCAL **COMMUNITIES**

The history of the Colombian Caribbean is intimately linked to the mixing of its cultures, ultimately giving birth to a richer culture of diverse traditions and customs.

The Sierra Nevada has served as a home to the descendants of the Tayronas, an indigenous people who still live here in accordance with their thousand-year-old traditions. For the Wayúu people of Guajira, it is the desert has helped define their character.

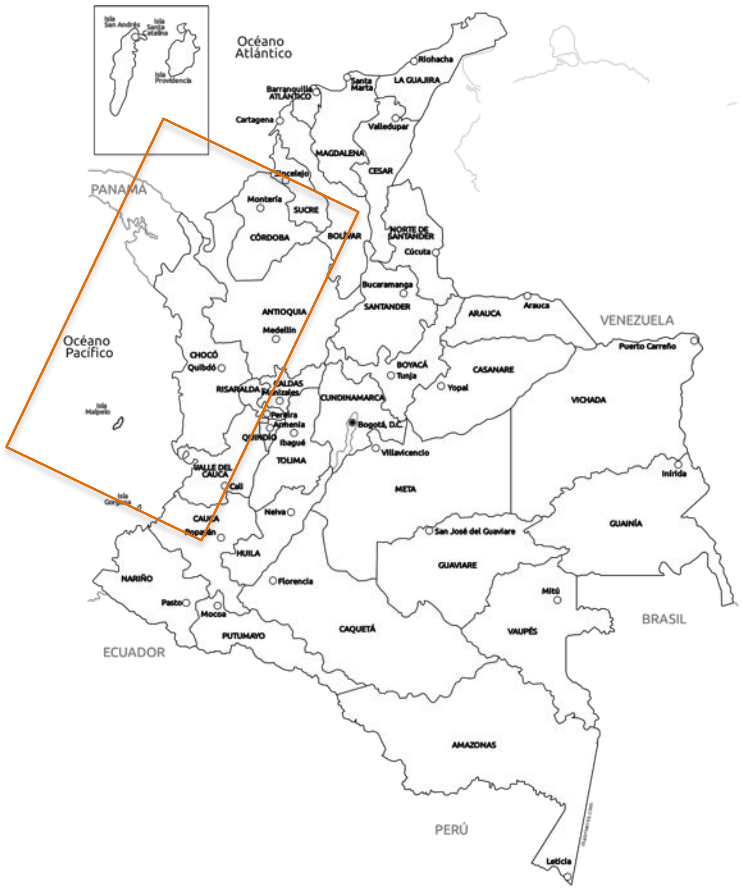

PACIFIC COAST

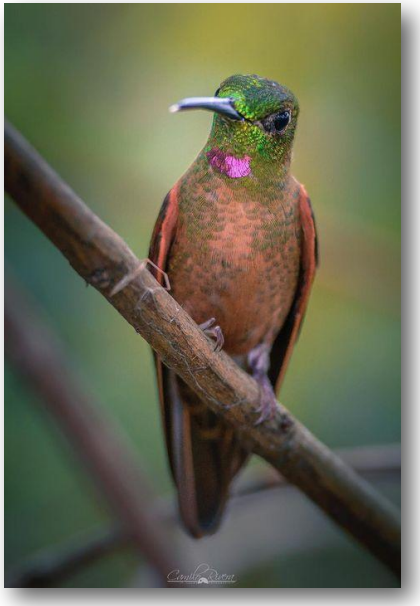

Tropical rainforests, deserted beaches, mangroves, whale watching (from June to September), scuba diving, afro-culture and salsa music.

#Cali #Malpelo Island #Utria Park #Bahia Solano #Nuqui

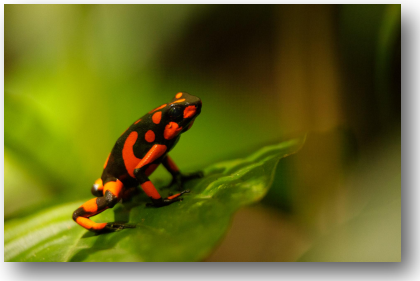

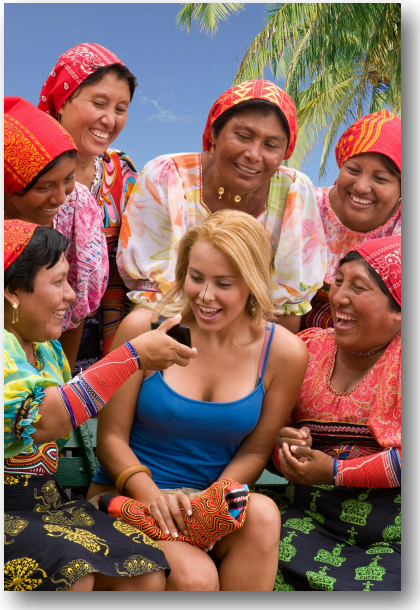

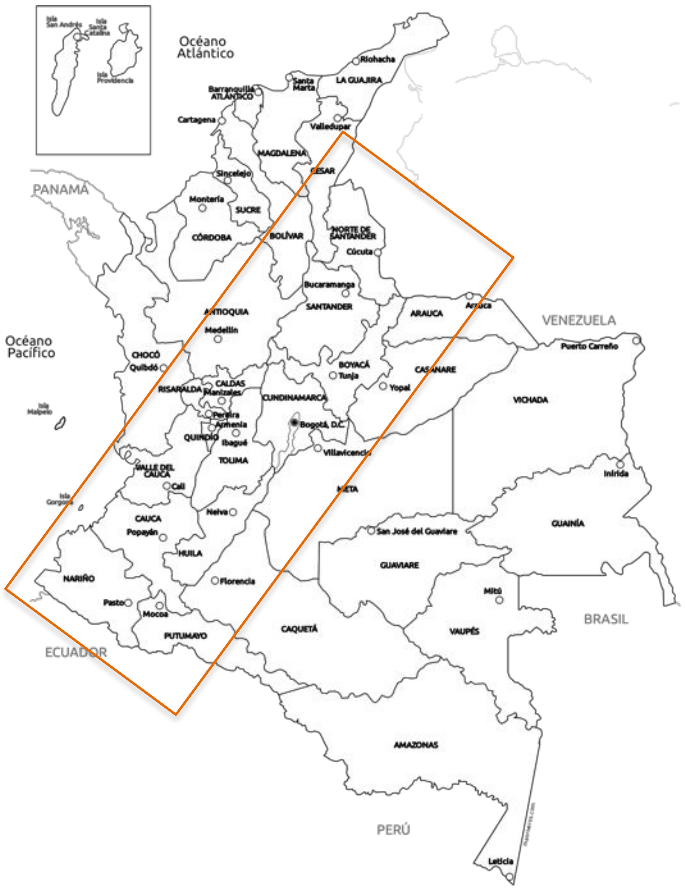

THE ANDES

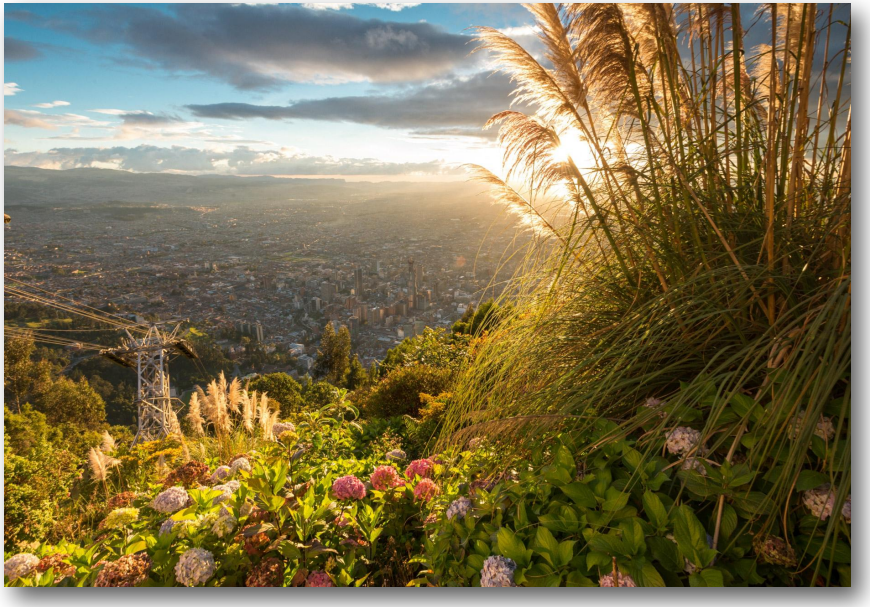

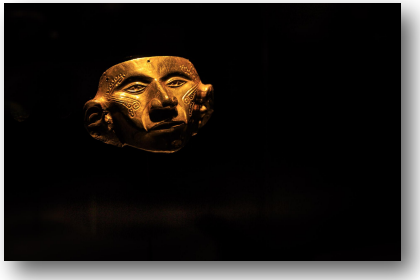

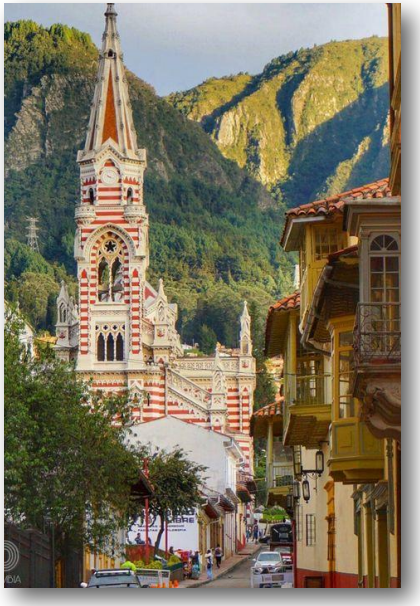

Modern cities (Bogota and Medellin), colonial villages, archaeological treasures (San Agustín), coffee haciendas, volcanoes, lagoons and snow-capped peaks, extreme sports (paragliding, canyoning, rafting) and treks.
