TREASURE CHEST „BALKANS“

Islam came into Europe through the Balkans…

The Balkans are the eternal crossroad for people, cultures, armies, religions. The road from East to West and the connection between Europe and Asia. Every civilization, which passed through the Balkans over the centuries, left a piece of its own culture, customs and beliefs. And we kept them all for the world to see...
The Balkans conceal the secrets of Orpheus, the gold of the Thracian kings, the coins of the Roman emperors and the mosques of the Ottoman sultans. Be the one to explore this treasure chest full of cultural and natural wonders, which can be found only here. Live the mystery and enjoy the shared and peaceful living of Muslims and Christians for centuries. Follow the European conquests of the Ottoman Empire from Vienna back to Istanbul and taste the exquisite Balkan delights.
