Our Allocation Process

Once the Customer decides to on-board IT specialist from GP Solutions, we launch our allocation procedure typically going though a set of standard phases.

If the right specialist is not on our staff yet, we engage our HR department to find the one you need.

Our IT specialists can be allocated on your project as a team or individually with full- or part-time engagement.

We are flexible and agile

Immediate Access to Expert Developers

We have instant access to qualified resources with necessary technical and domain knowledge;

Transparent Team Rotation and Extension

We have resources available for team rotation and rapid team extension. Even if started with just one developer, the team can promptly be expanded

Access to All Major Technologies

We are able to create a team with a custom composition of specific skills and experience

Better Staff Management

We provide both part-time and full time allocations depending on your requirements.

These are just some of the benefits you'll enjoy partnering with GP Solutions.
