IMMERSIVE EXPERIENCES

DISCOVER CHAMPAGNE REGION

Since 2015, the Coteaux, Maisons et Caves of Champagne region have been listed as a **UNESCO World Heritage Site in the "Living Cultural Landscapes" category**.

This category, created in 1922, refers to the combined work of Man and Nature. It therefore goes beyond the simple scale of a monument or site, and highlights the way in which human activity can give rise to new landscapes and a particular culture.

Beyond its historic and emblematic hillsides, covered with vineyards as far as the eye can see, Champagne is also renowned for its **historic towns and picturesque villages,** with a rich and varied heritage:

Reims, the city of cathedrals: Notre-Dame de Reims, where Clovis was baptized in 496 A.D. and where the kings of France were crowned until 1825, but also the underground chalk "cathedrals" or crayères, the cellars where the famous beverage is blended,

Epernay, with its Champagne Wine Museum and the famous Avenue de Champagne, housing iconic Champagne houses such as Moët & Chandon, Mercier, Boizel and others,

LOISIUM CHAMPAGNE ****

Set against the backdrop of the Montagne de Reims, overlooking the hills at an altitude of 240 meters, Loisium en Champagne hotel enjoys a privileged relationship with its surroundings.

An exception in the region's very classical decor, the hotel is resolutely contemporary, eco-responsible and built from natural materials: a rhythmic pattern of wood lines, set against a mineral base, imbued with the codes of the region.

The Patio, with its glass roof, houses the Reception, the bar and a vast fireplace-lounge opening onto the terrace. Extending from the Patio, the restaurant with the high bay windows, face the vine-streaked valleys.

The guest rooms have all been designed along the same lines, the general idea being to bring nature in. Muted colors, raw materials and large bay windows again magnify the vineyards and surrounding forest, as the four seasons unfold.

101 rooms incl. 6 suites
1 Restaurant & 1 Bar
Spa – Heated outdoor swimming-pool - Fitness

Each sequence is then followed by a **debriefing session** to enable the transposition of experience, and the **integration of knowledge, experience and practical tools.**

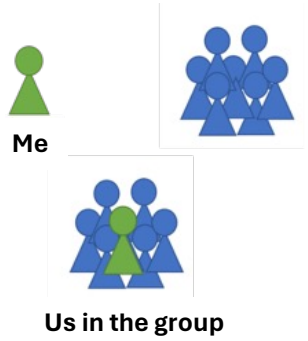

The 3 levels involved in a relationship between 2 persons:

- Learning about oneself,
- Seeing and understanding what the other is going through,
- Learning about "us" together.

The 3 levels involved in a group or team relationship:

- Seeing and understanding the group systemic,
- How I can influence and facilitate the team's progress.

EXPERIENTIAL EDUCATIONAL WORKSHOPS

STEP 1: Identify needs

Prior to the seminar, the coaches work with the management team to define the needs and issues to be addressed. **A key question should emerge**, to optimize the organization and functioning of the team, for example:

- How can we engage and unite the team around shared priorities?
- How can we better organize and prioritize in an emergency?
- What individual and collective processes need to be transformed?

STEP 2: Define seminar objectives

- Create moments of fun and laughter together, to strengthen bonds.
- Foster team cohesion and mutual understanding between colleagues.

STEP 3: Choose the type of workshop:

Option A: Fun team-building workshop:

One support session of one to two hours, during the day or evening: various activities to choose from (please contact us).
