ITINERARY

Departure point

Any place in the province of Malaga
(other destinations available upon quotation)

Visit to a 300-year-old mill

We will travel to an approximately 300-year-old oil and flour mill, a spectacular place surrounded by nature, where centuries ago olive oil and flour were produced using an animal-driven mill. Today, electricity is used for its operation.

The journey from Málaga takes about 50 minutes by bus.

Reception and breakfast

Upon arrival, the group will be greeted with a 100% organic breakfast prepared with local products: homemade bread, high-quality extra virgin olive oil, fresh tomato, eggs from the on-site chickens, coffee, and natural juices.

A very special guide

The owner of the mill, passed down through several generations of family tradition, will guide the group through the olive grove, explaining the cultivation techniques, the different varieties, and his projects. His passion when discussing it and his knowledge make this visit one of the highlights of the tour.

Oil production and tasting

The group will participate in producing their own olive oil, from harvesting the olives to the extraction process (whenever possible). Afterwards, we will conduct a guided tasting of three different oil varieties, learning to identify their differences. The experience culminates with a homemade meal prepared with seasonal local products.

COMPLETE AND FLEXIBLE MANAGEMENT

Traditional mill in a unique setting

This tour offers a complete immersion in tradition and the natural environment.It is an authentic and unique place, far removed from the usual routes, where the group will learn about olive oil production while enjoying an atmosphere of nature, fresh air, and delicious local products.

After this experience, they will view olive oil in a new light, forever appreciating its essence and tradition.
