WINTER DESTINATION - MONTENEGRO

There are many reasons why you'd want to visit Montenegro. The country's beauty can become a bit addictive and the best places to stay in Montenegro take advantage of that.

Romantic and beautiful Montenegro is an old charmer with one of the world's most beautiful coastlines. Here the mountains rear up to meet the sea and there's only a narrow band of land between them and in some places there's nothing but sheer cliffs. To this narrow strip cling ancient walled towns, while the interior is rugged, under-explored and untouched.

Montenegro occupies a fascinating global position, between east and west, and its history has been dramatic, as well as devastating. This convergence of eastern and western cultures has lead to a richly layered national identity and culture. There is a profusion of catholic spires, richly decorated Orthodox churches, minarets from Mosques and even the odd Roman villa here or there in every town or village .
