

RhomTrip

The Infrastructure Layer for Global Ground Transportation

End-to-end ground **transportation** execution for high-stakes global events.

WHO WE ARE

Technology-driven ground transportation operations. Purpose-built to plan, coordinate, and execute complex movements at scale.

Global reach, local execution. One platform, one operations team, vetted local suppliers in 120+ countries.

Trusted by 5,000+ travel advisors & event planners. Used daily for groups, incentives, congresses, and high-compliance programs.

Built for MICE, pharma & multi-country itineraries, Not ride-hailing. Designed for real operational complexity.

Reliability · Safety · Zero-failure mindset. Licensed drivers, insured fleets, redundancy plans, and on-ground control.

RHOMTRIP

WHAT WE DO

End-to-end execution for private, group & event transportation. From simple transfers to multi-vehicle, multi-day operations.

Transparent, all-inclusive pricing built for professionals
No surprises, no small print, flexible cancellation when it matters.

Global network of vetted drivers & long-term local partners
Not a marketplace — trusted operators we know and manage.

Curated experiences integrated into the same workflow
Skip-the-line tickets, private tours, events & logistics under one roof.

24/7 real-human support for high-stakes and last-minute changes
Because execution matters more than automation when things go wrong.

Instant confirmation with real operational backing
Book fast — but with humans ready when plans change.

RHOMTRIP

Partners
Travel advisors & Meeting planners

OUR DESTINATIONS

Built through long-term partnerships, not marketplace aggregation.

RHOMTRIP

WHY RHOMTRIP

Specialized Focus
We are not a marketplace. We focus exclusively on ground transportation, allowing deep operational expertise, tighter control, and consistent execution.

Premium Service Model
A premium service model built around professional drivers, all-inclusive pricing, and flexible policies — prioritizing reliability over price competition.

Operational Control
Direct relationships with trusted local operators in each destination ensure consistent quality, accountability, and global service standards.

B2B-Centric Design
Platform designed specifically for travel advisors, meeting planners, agencies, and corporate travel teams managing complex, high-stakes itineraries.

Execution when it matters
Built to perform under pressure — delays, changes, multi-city movements, and last-minute decisions.

RHOMTRIP

WHERE RHOMTRIP WINS

RhomTrip sits between global scale and local execution — where complexity actually lives.

vs. General OTAs

Unlike general OTAs, RhomTrip operates a curated, B2B-first model focused on service quality, operational control, and long-term partner relationships — not consumer marketplace volume.

vs. Local Operators

We enable trusted local operators with global distribution, professional workflows, and access to international demand — without removing local control.

vs. Rideshare Platforms

RhomTrip delivers licensed professional drivers, fixed all-inclusive pricing, and human operational support — built for reliability, not on-demand matching.

vs. Legacy Systems

A modern, cloud-based platform with real-time booking, visibility, and reporting — replacing fragmented, manual, and email-driven workflows.

RHOMTRIP

REAL-WORLD CASES,
REAL EXECUTION

U.S.-Based Travel Advisor ★★★★★

"Best transfer partner we've ever worked with during an event week!"

Case: Paris Air Show Event — Coordinated multiple VIP transfers with premium sedans, meet-and-greet service, and multilingual drivers.
