Why Trophies ?

in cultures of **recognition, trophies put people at the center,** instilling **values** and fostering a sense of **belonging** while generating **well-being.**

trophies provide tangible incentives that help **making values and achievements visible** while **strengthening human and commercial bonds.**

1

Why SustainAwards ?

Legacy Trophies are **not suitable** for **corporate & institutional events** for **aesthetic, service and environmental** reasons.

Founded in **Barcelona in 2015** with the aim of providing **high quality, design-led and sustainable trophies** for corporate, institutional and elite sporting competitions and events **with a highly service-oriented team.**

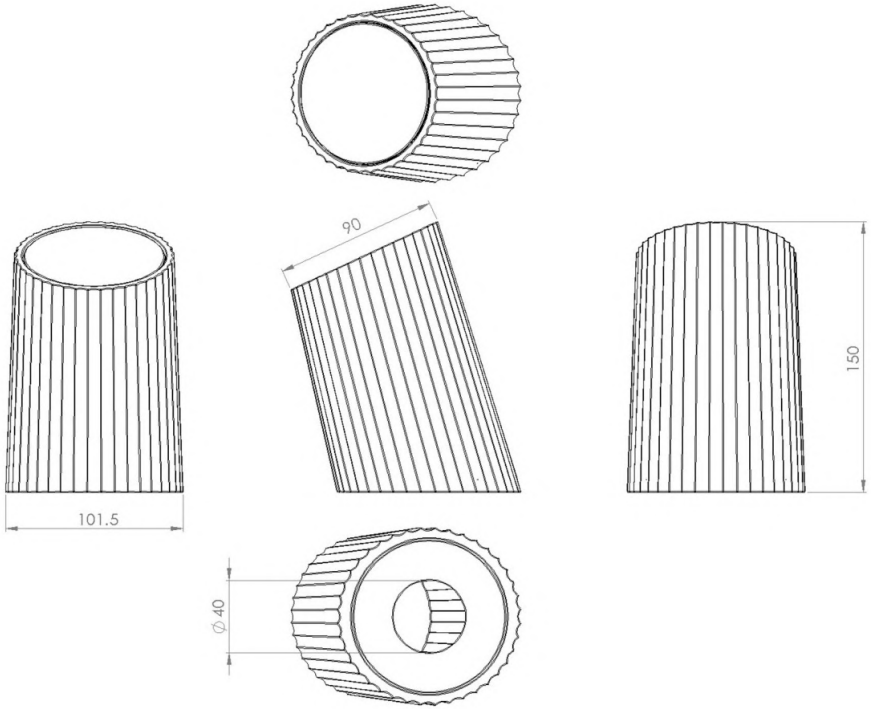

10 years of experience designing and delivering for **Google, Hilton, DHL, SAP, Bayer, Lufthansa, Deloitte, Hugo Boss, Hyundai** and many others.

Building a **reputation for custom trophies for elite sports** events such as the EHF Champions League.

Sustainable, recycled and **organic materials** with a **sound design process** to bring you the **#1 Corporate Trophy Boutique** **in the world.**

3

Design

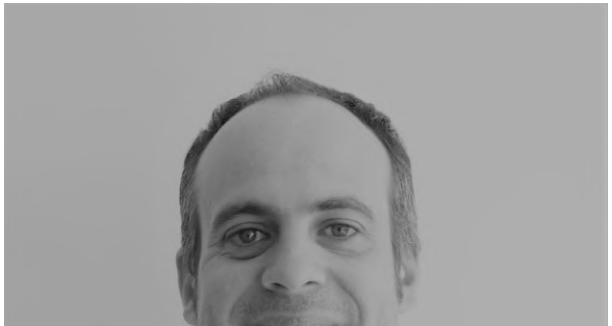

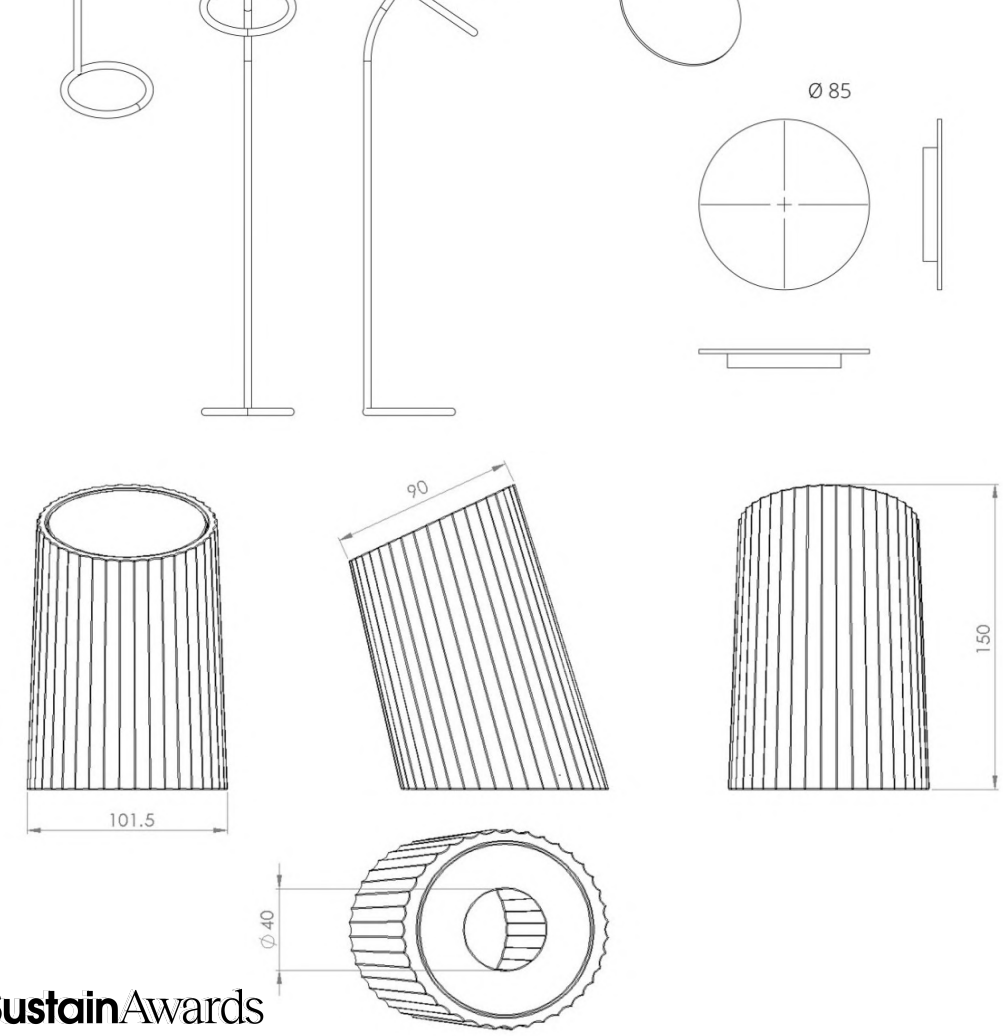

We curate the **best design talent** from the vibrant academic and industrial scene in the Barcelona region serving the historic **high-end furniture and lighting industry cluster.**

Mixing materials, shapes and manufacturing techniques in a **quiet, sober and minimalist style** to let your brand shine through.

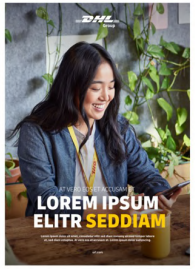

EDITORIAL

BROCHURES AND FACT SHEETS

Brochures and fact sheets are used to communicate information in a clear, concise and appealing way. In this guide, you'll learn how to build impressive layouts to achieve that goal. Several downloadable templates are available at the end.

Build a **solid brand experience at your event** by incorporating your **brand guidelines into your trophies.**

4

Sustainability

Environmental Information

sustainawards.com

Cup	D 21 x 10 x 10 cm	W 0,11 Kg
1,5 Kg Co2	**Life Cycle Analysis** **Carbon Footprint** (IPCC 2007 GWP 100a)	
64%	**Materials** Mixed Plastic (100-R post-consumption) rolled steel 0,26 kg (80-R post and pre-consumption) Epoxy Paint 0,01 Kg	
23%	**Manufacturing** Laser Cutting (1500 W) 7s Laser Engraving (60 W) 15s	
23%	**Packaging** Cardboard 0.05 kg (80-R post-consumption) Euro Pallet (1%)	
23%	**Transport** Truck 16 Tm 3000 Km (0,6 Tkm) Van 3,5 Tm 150 Km (0,026 Tkm) Final transport (undefined).	

IMPACT REDUCTION – 57%
Avoided emissions compared to an equivalent design made from conventional materials such as anodized aluminum (30-R) weighing 0.13 kg and a polished marble base weighing 0.8 kg. Transport and packaging are not included.

RECYCLED CONTENT – 90%
The use of recycled materials has been maximized. Such as 100% recycled plastic from residual packaging and iron with a content of between 50 and 75% recycled material.

NON-TOXIC
The materials used do not contain heavy metals or other hazardous substances. The paint is water-based, non-toxic during use, and suitable for food contact.

Environmental impact analysis carried out by OiKo using the ISO14040 methodology and according to the environmental inventories from the Ecoinvent 3.0 database (2013).
