History

It all started in 1972 when a respected Egyptian family business created a tourism portal … that is when Sakkara Tours was born to be the cornerstone of Sakkara Group International (SGI).

On The Rise

Subsequently, SGI expanded its portfolio with hotel developments. In 1981, the group launched its first urban hotel, Sonesta Cairo, managed at the time by Hyatt Hotels.

On the international level, Sakkara Tours diversified its market reach to include several countries, including France, Belgium, Japan, China, USA, UK, India and Russia.

The company started to experience an immense upsurge in travelers from France, prompting SGI to further expand its scope. As the next step in SGI's development, the company created a transportation department and increased its staff to handle the extensive new business generated by its French partners.

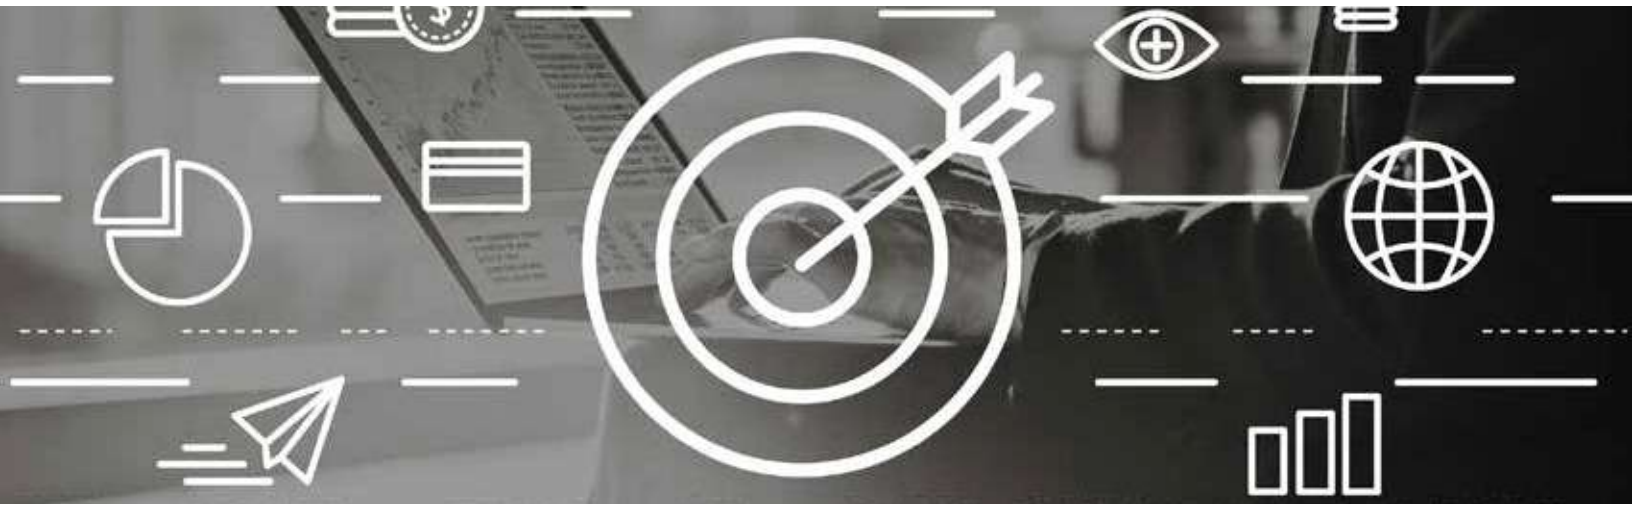

Spreading Out

In 1989, SGI launched its first Nile cruiser, Nile Goddess, followed by Nile Dream and Lady Diana in 1992.

STI Travel USA was launched in 2004 followed by STI UK, STI India in 2007, Central Holidays in 2012 and Mosaic Holidays, its most recent acquisition in 2014.

Our Strategy

Since its inception, SGI has been built on the concept of providing unsurpassed quality service and a friendly and time-tested approach to business.
The company and its subsidiaries have strictly abided by this ideology, striving for nothing less than perfection. Taking this ideology to heart, SGI's strategy is focused on further developing strengths, resolving weaknesses, making the most of opportunities and steering clear of threats.
SGI prides itself on its slow and strategic growth - always testing every move cautiously and analyzing every step thoroughly. Each addition to the group is serving its carefully planned purpose and fitting impeccably in its designed place.

SGI's long-term business strategy includes further expansion nationally and internationally. Internationally, the group plans to enter booming emerging tourism markets with future development plans in China and Eastern Europe.

Our Mission

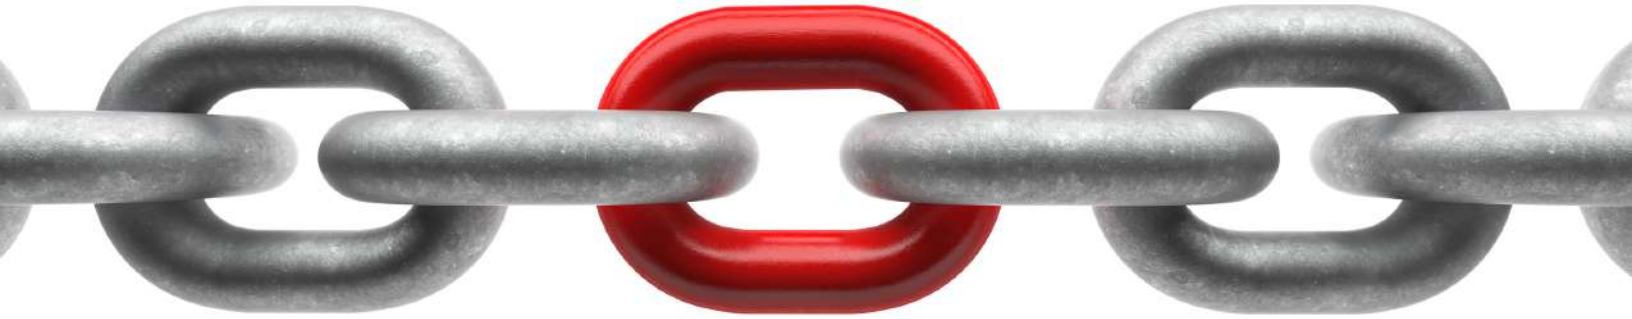

Our main goal is to provide our customers with the best quality of service. Our extended businesses serve one another to ensure smoother operations and secure a premium level of service that meet with our highly set standards.
At SGI, we ensure the utmost employment of our resources to attend to our clients' desires and preferences. We hire top professionals and utilize them in their areas of expertise to guarantee an efficient progress and a consistent professional atmosphere.

Our Vision

We aspire to expand around the globe and become one of the world leaders in the tourism and development business.
Through our steady and continuous endeavors, we will satisfy our customers preferences and needs, walk that extra mile to exceed their expectations, gain their trust and loyalty, and become the partner of choice.

Our Strengths

At SGI, we enjoy a number of key competitive advantages, which have helped us maintain our position as one of the leading groups in the world.

We have a time-honored 53 years of success in the Tourism industry, providing us with the skills and know-how in this field. Over the years, we have developed long-term customer relationships and maintain an impressive reputation for quality.

In addition, we have a proven track record of enhancing and modernizing our products consistently to provide innovative offerings for our clients.

Our multi-lingual and highly motivated staff of 2000 employees with unparalleled knowledge and experience are dedicated to serving our clientele across the globe and working together to ensure their utmost satisfaction is met.

We successfully promote a variety of travel segments including recreational, business and medical.

Our different offices are promoting Egypt as their first and most significant destination for tourists from all over the world varying from high-end, elite to mid-range tourist class.
