MANGUSTEEN
EXPERIENCE

COMPANY PROFILE

WHAT W E DO

Through creative design, flawless production, and meticulous management, we create brand experiences that will set you apart and leave your audience with an everlasting memory.

We believe that a great brand experience starts with us working closely together so we can put our expertise and creativity to work for your goals.

We are true believers in the power of connecting people to create value through events, which is why we invested and continue to invest in creating business events that fosters meaningful connections and boosts economic growth.

WHAT WE DO

CONSULTATION

We'll sit down with you to understand your vision and goals.

CREATIVE CONCEPT

Our team will come up with a concept that captures your vision and sets the tone for the event.

DESIGN AND PRODUCTION

We'll bring the concept to life with stunning design and flawless execution.

EVENT MANAGEMENT

Our team will handle all details of the project from the brief to last details on the day of the event, leaving you free to enjoy the show and focus on your business.

SUSTAINABLE APPROACH

At Mangusteen, we are committed to planning and executing our events with minimal impact on the environment, while promoting sustainability among attendees (where possible) and encouraging this approach within our agency as well. We achieve this by primarily focusing on certain measures:

Venue Selection

Partnering and recommending venues with certifications such as LEED and use renewable energy sources while having energy efficient HVAC systems.

Digital Solutions

Encouraging digital marketing, invitations, apps (program & schedule) as well as paperless modes of information sharing (QR code) etc.

Carbon Offset

Providing a calculation of the carbon footprint of the event and encouraging offsetting these through investments & donations to projects across the world aimed at neutralizing emissions.

Sustainable Suppliers

Working with suppliers that specialize in eco-friendly products for giveaways, registration badges and other services. Preference is given to suppliers that show a commitment to sustainability.

Waste Management

Providing designated spaces for recyclable materials during event set-up and dismantle. Using reusable materials for signage, décor and tableware (where possible).

Energy Use

Using energy efficient LED lighting in all our build elements (where possible). Encouraging the use of venue power, to curb usage of diesel / petrol generators.

RECOGNITION

MANGUSTEEN Experience is proud to be recognized with multiple Awards in 3 consecutive years by **Eventex Global Awards**, the world's leading recognition for creativity and innovation in the events industry.

- **2023** – Winner at the 13th Edition of Eventex Awards.
- **2024** – Winner at the 14th Edition of Eventex Awards.
- **2025** – Winner at the 15th Edition of Eventex Awards.

These are not just awards — but a reminder of our mission to go **beyond expectations** and redefine what's possible in events. It also reflect our relentless commitment to creating extraordinary experiences and pushing the boundaries of event innovation in the GCC and beyond.
