The Premium Version

Content Moderation

We have set up an algorithm that automatically censors inappropriate pictures

Live Show Eventer

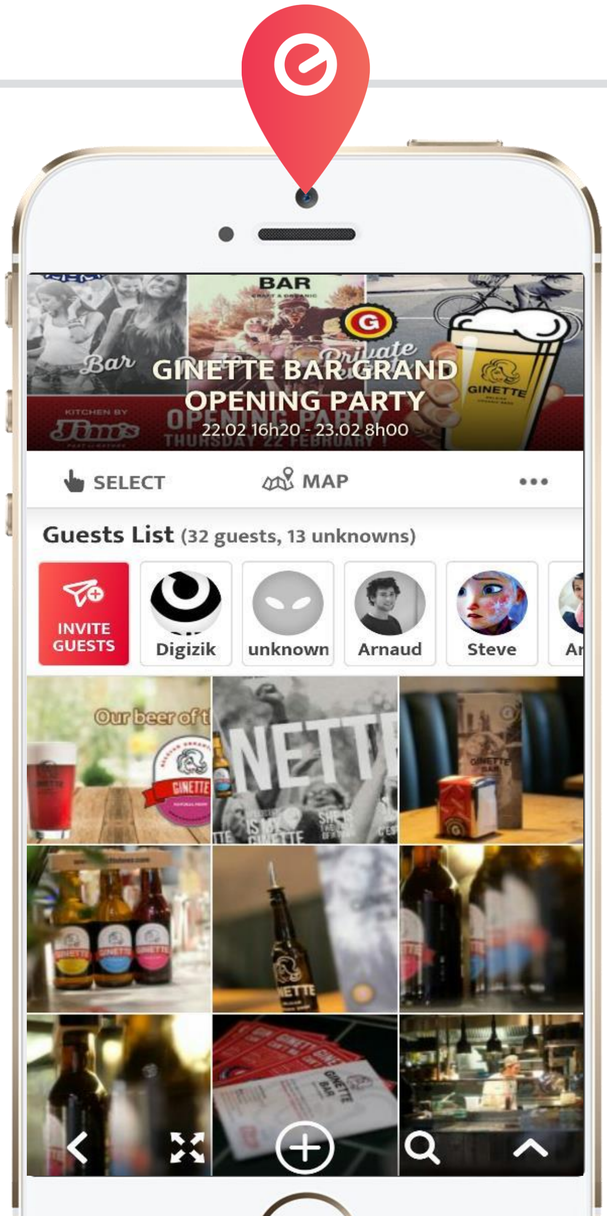

Our live system allows you to display all your pictures on screens with a personalized background.

Communicate after the Event

The Eventer software also includes an emailing system that simplifies sending the event's pictures to all the participants

Live Communication

Every picture shared via the application will get a layout with Logo and Name of the event. Or logo of the event.

Public & Exclusive Event

Public option provides a referencee for all the Eventer's users on a radius of 30km(48h before/24h after) from the event, and makes it exclusive

Advertise

Place an URL at the entrance of the event in Eventer

Facebook Connected

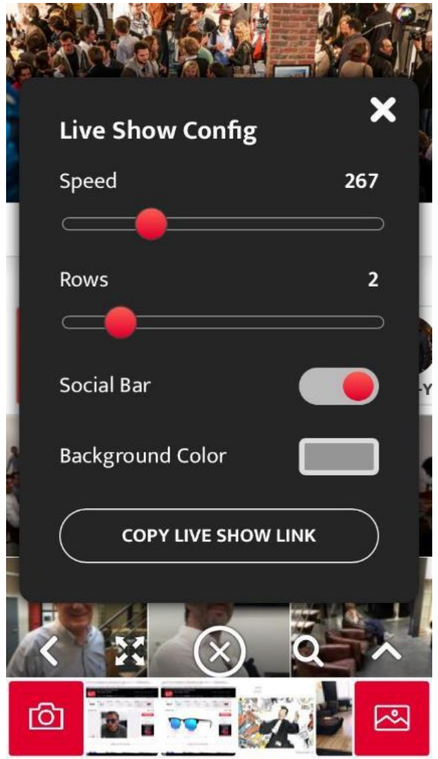

Community Management tool to create album directly on Facebook from the app

Live Show

Animate you event with our Live Show

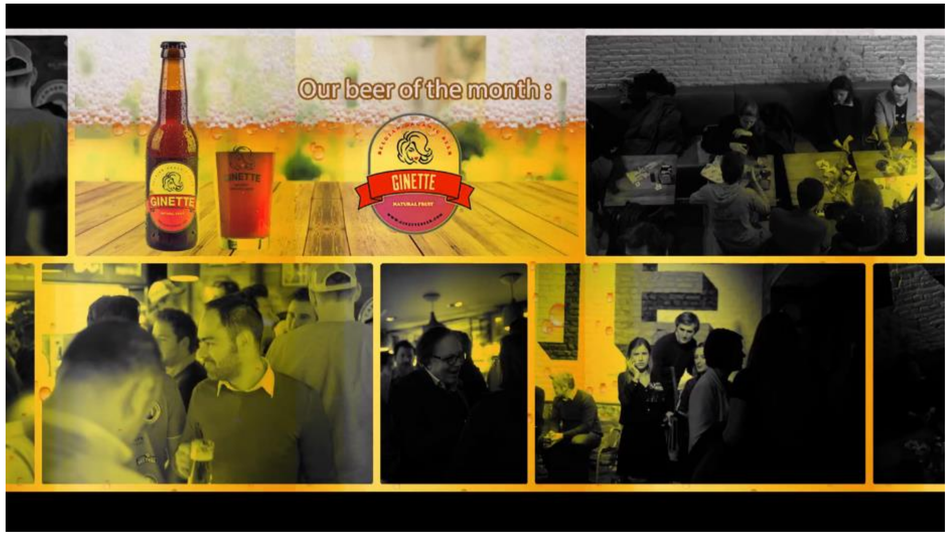

Smartphone

Change the settings of your Live Show directly from your smartphone

Personalization and simplicity

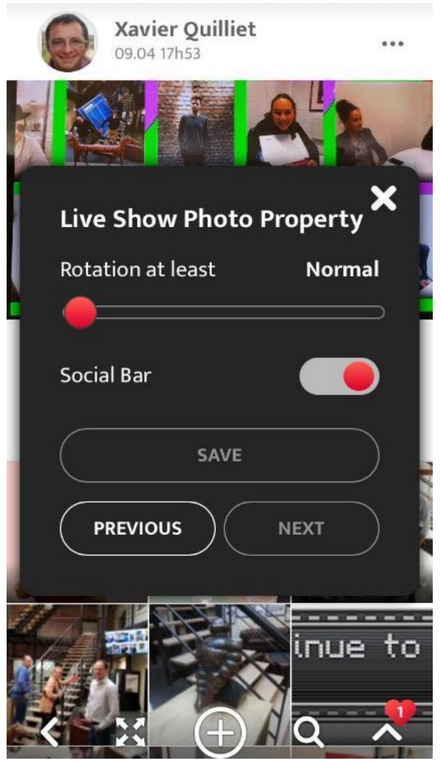

Personalize your Live Show based on your theme
Paste the URL on internet and you're done!

Personalization on request

Brand promotion

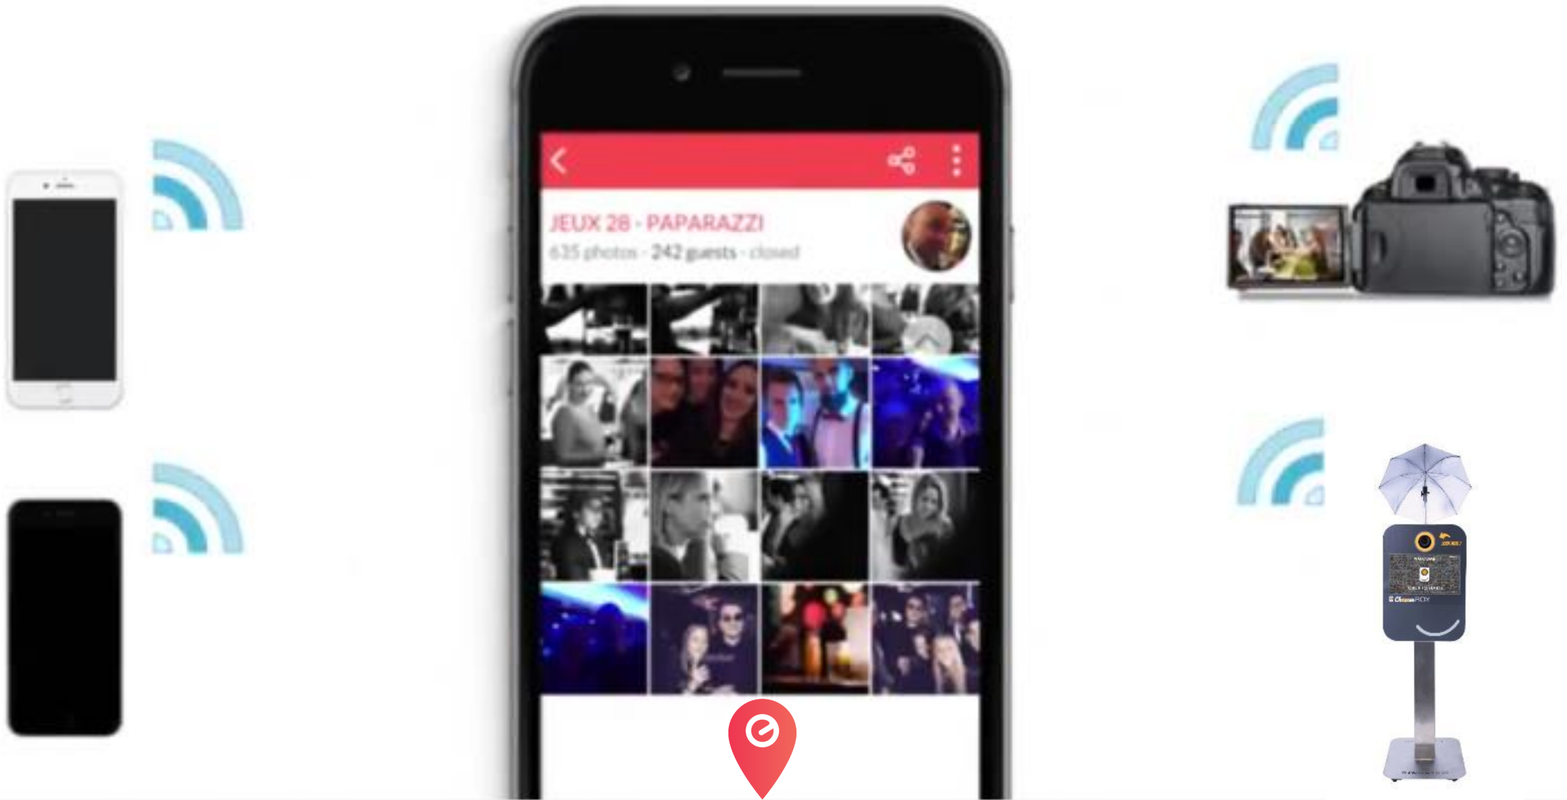

Change the number of times a certain photo appears and promote your brand, your sponsors and your partners!

One App to Collect All Pictures Easily

Every Picture is shared Live in Eventer and creates a chronological album

Each connected guests, official photographers and connected devices share one online album

Testimonial

Paola Capaldi, Head of Proximus Group Events

“The App is very efficient and really fits with event organisers professional needs, and the team anticipates and understands the issues involved
by listening to its clients and contributing to their development on a daily basis.”
