FULL DAY TOUR OF MOSTA, MEDIAVAL MDINA & RABAT & CRAFTS VILLAGE!

Guests will start their day with a visit to the Mosta Dome, which is said to be the fourth largest dome in the world, and the third largest in Europe. It was built during the 19th century on the site of a previous church.

The Mosta Dome is famous for an incident that took place during the second World War; on April 9th 1942, during an air-raid, a bomb pierced the dome and fell among a congregation of over 300 people, slid across the floor without exploding and all were spared. The bomb did not explode.

Then on to our former capital city. Mdina has had different names and titles depending on its rulers and its role but its medieval name describes it best – 'Citta' Notabile': the noble city. It was home then, as now, to Malta's noble families; some are descendants of the Norman, Sicilian and Spanish overlords who made Mdina their home from the 12th century onwards. Impressive palaces line its narrow, shady streets. Mdina is one of Europe's finest examples of an ancient walled city and extraordinary in its mix of Medieval and Baroque architecture.

The visit will include the highlights of the two localities, including the bastions of Mdina where one can admire the extensive views of Malta from on of the highest points on the island, the Medieval Palazzo Falson, one of the imposing Palazzi built by the Sicilian, Spanish and local nobility in Mdina, the Roman Villa and museum of Roman Antiquities.

Last stop would be at crafts village for some shopping and memories to take back home. Here, different kinds of **crafts and beautiful artefacts** are sold created by local experts.

You can watch the craftsmen **blowing and forming glass**, visit the goldsmiths filigree and beautiful jewelry and have a look at the beautiful **sculptures and lace**.

BATTLE OF THE SEAS – who will conquer the Maltese Islands ?

This action-packed day challenges teamwork and creativity, with a strong element of competition. The guests are going to be divided into 2 teams, turks and knights, and transferred by speedboat to twin-mast gullets. **This activity represents the Great Siege, a battle fought between the Ottoman empire who tried to conquer the islands instead of the Knights of Malta**!

Once guests board their gullets, they will be greeted by the crew and will respectively be given props and costumes. Before setting sail, the teams will be debriefed by the captain.

The gullets will start cruising towards the idyllic Comino lagoon (sea conditions permitting – otherwise they will cruise towards The Grand Harbour), and on their way, the teams have various tasks to carry out. Points gained from these tasks will act as money to purchase ammunition and targets for the battle, such as water pistols, water cannons, buckets and equipment to build targets for their boat. The targets will be created by team members with hula hoops, sheets of paper and masking tape. The targets will have to be positioned in visible places around the gullet.

The Knights and Turks must listen out for the horn to signal the start of the battle.

The teams must use their cannons and water guns to destroy the opposing team's targets and thus 'sink' their vessel.

Once the battle is won, the gullets will sail to Gozo's harbour for lunch – this is a wonderful opportunity to have lunch in Gozo, Malta's sister island, with amazing views. Sailing back through a beautiful bay where the guests will relax and enjoy the picturesque harbour views and then return back to Grand Excelsior hotel

AN AQUATIC DAY

A challenging and fun activity around the Maltese Islands, and time filled with power and adrenaline. Prior to the start of the event, the group will be briefed on the activity and on the safety procedures. The group will depart on a gullet, from hotel's jetty (and a professional crew on board).

Built for cruising, the gullet is the best way to **enjoy a relaxing day at sea**, sailing to the most scenic bays in Malta, Gozo and Comino. Short breaks will be given, so that guests will have the opportunity to discover inlets and beaches as they sail around the island, weather permitting.

Upon arrival in Comino, guests can relax and have lunch on board. Discover the popular **blue lagoon**, well-known for its crystal waters! Close by is Crystal Bay, where the more energetic can indulge in a variety of water sport.

Fun and excitement are guaranteed with Watersports!!! For this time of year we recommend crazy sofa, cave tours , jet ski. which the group can indulge in. Parasailing would be offered upon client's request

Should anyone would like to control water temperature, we recommend wetsuits

Expertise, coupled with our positive and flexible attitude, enables us to understand and meet our clients' evolving needs, providing a unique advantage in providing high end, creative and dedicated event solutions for international event organisers.

Our small team of core staff are supported by collaboration with local suppliers, who we select for their quality and reliability, and with whom we have developed a close relationship over the past years.

"Inspiration exists… but it must find you working…" Pablo Picasso
