BEFORE THE EVENT

At this stage, you'll want an easy way to manage Call for Papers, Speakers and Agenda for your conference. Your focus will be on creating an agenda that is accessible from any device and exposed on the channels that your attendees use the most.

With **Sava platform** you can:

- Add a Call for Papers to your website
- Evaluate CFP submissions
- Create and publish your conference agenda
- Manage speakers and include rich profiles and session descriptions
- Manage and display sponsored content
- Deliver relevant pre-event information to attendees.

DURING THE EVENT

Asking Questions

Via web, mobile or chat

Moderators get widgets to sort the questions, widgets are available to be used by speakers to show on screen as well.

On-screen Announcements

Announcements are delivered via all channels (mobile and chat) and as well can be shown on the screens in the rooms.

Upcoming Sessions Widget on the Screen

During breaks users can see info about the upcoming sessions and plan the day ahead. This is a perfect spot to show speaker ratings as well.

Rating

Via web, mobile or chat

Full/room Agenda Outside

Display full day agenda on the walls or use the widgets on display in front of the rooms to show what is next in that particular room.

Best Rated Talks with Social Engagement Wall

Showcase best talks, engage users, show the social stream and use the panel to show important updates, all delivered through the central dashboards.

AFTER THE EVENT

Post Event Evaluation & Analytics

Measure your event's success with Sava Platform's post-event reports. Access attendee behavior analytics and get insights into how people engaged during your event.

Metrics you can track with Sava platform to improve attendee experience at your next event include:

- Total app and chatbot users
- Number of people who use the app per platform
- Number of users who rated
- Top-rated speakers and sessions
- Number and type of chatbot conversations.

This data will show you how well you engaged your participants and if you managed to deliver a meaningful experience.

All-in-one event management and attendee engagement platform, chatbot first.

DRIVE CONTINUED ENGAGEMENT

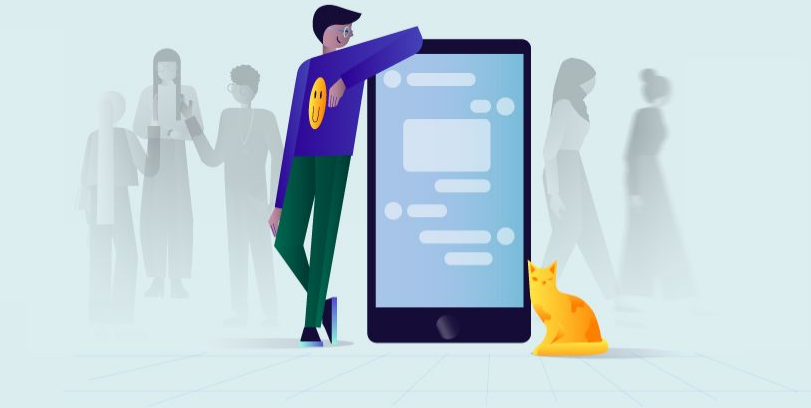

Even after your event, Sava helps you stay in touch with participants. You can continue to push out messages through the app long after your event is over. But that is not all. With the right context at your fingertips, you can send highly relevant and personalized messages via your event chatbot.

Event chatbot is a strong communication channel that enables you to:

- Send content recommendations (e.g recorded sessions) based on the sessions they attended/rated highly. This is enabled by machine-learning technology that powers Sava chatbot.
- Send out messages to update attendees with details about your next event.
- Collect post-event surveys and further engage your attendees.

Solve all your event management problems.
