SERVICES WE OFFER

Aircraft Charter:

- ASSL provides multiple options in aircraft chartering to any desired location within Pakistan.
- With ASSL, air travel has never been more convenient. We provide on time flights that are based on client schedules.
- Our flight crew are highly trained to provide first class service every time you fly with us.

Medevac Charter:

- ASSL is fully geared up to provid medevac services to its clients for the timely movement of wounded personnel or patients who require immediate medical attention.

Aircraft Maintenance:

- Our hangar and location is the ideal place for aircraft parking, handling and maintenance in Pakistan. We have highly trained and qualified B1/B2 licensed engineers to deliver a high standard of maintenance.
- ASSL is the first in Pakistan in general aviation to obtain the ANO-145 maintenance organization approval.

Aircraft Management:

- ASSL has a state of the art office and facilities including its own hanger, spare part shop, training center, operations room and general aviation maintenance shop.
- We also offer short maintenance cycles including periodical/regular checks. Our technical services are cost effective, efficient and of the highest standards.
- Benefit from some of the lowest cost in the country on fuel, repair works and Aircraft on Ground (AOG) services.

ACMI Charter:

- ASSL's niche is its valuable customer centric service. ASSL offers a hybird ACMI from which the client can choose a solution that best fits their need.
- From the most complete ACMI solution to the simplest dry lease aircraft offers; the power lies with the customer.

Airfreight Charter:

- We offer cargo freight services to various courier companies which include moving cargo to the designated locations.
- Additional land arrangements for the cargo can be made such as pick up and destination delivery service including custom clearance and off loading at destination.

Battery Shop:

- We offer inspection testing of Ni CAD and lead batteries (Saft, Marathon, Gill dry, Concord RG) as per current Component Maintenance Manuals.
- We also offer the option of a well coordinated logistic pick-up and delivery service for your batteries.
