North Region

A visit to the North of Portugal is a travel in time where you'll find the beginning of the nation. Celtic influences, medieval castles and lots of stories and legends. Green mountains and rivers offers a natural enchantment to this region, involved by tradition and a genuine and enthusiastic people. The North of Portugal is ready to welcome you.

Central Region

This is a region made of contrasts. You'll find the sea as well as the mountains, a big diversity of landscapes and different points of interest, where it is possible to find many roots of our history and culture. Amusement is guaranteed, are you ready for the next step?

Alentejo

The vastness of plains compose the landscape in the interior of the country, dotted with cork oaks and olive trees that withstand time. The sky is truly bright here and ancient dolmen recall the magic of the place.
Around the hills, low, whitewashed houses stand on small knolls, castles evoke battles and conquests and the yards and gardens are witness to the Arab influences which shaped the people and nature. But you may also explore the coast. The landscape here is hilly and rugged, with small sheltered coves between the cliffs.
Indeed, the entire Alentejo lives according to the rhythm of the earth.

Algarve

With a strong Moorish influence, this was the last part of the country to be conquered and be integrated in which are the continental borders of Portugal. That omnipresence is still felt nowadays, present in the different culture expressions, such as architecture, gastronomy or even in the stories or expressions used by people. The sunny weather and a coast that embraces the Mediterranean sea, in the majority of its extension, welcome everyone that is looking for beautiful secret beaches, nice people, good food and several reasons to smile that you will have to discover by yourself!

SUSTAINABLE EVENTS

WE PRIORITIZE SUPPLIERS THAT HAVE IMPLEMENTED SUSTAINABILITY PRACTICES

Forum d'Ideias is pleased to announce to have been admitted into the EU-funded SUSTOUR project that supports over 600 small and medium-sized tour operators and travel agents from 35 European countries in improving their sustainability performance.
Sustainability is a core value of the events we provide for our clients.
Therefore, we are happy to participate in this one-year support programme running from mid 2022 to mid 2023 and we commit to using this opportunity and actively improving our sustainability management and performance.
It is imperative that companies integrate sustainability into their decision-making and that they contribute towards a more sustainable and inclusive future. Have you thought about how you can contribute to a more sustainable world? Are your events already more sustainable?
In our **website** you can find a list with some measures taken by us and our partners for sustainable events. The measures will be adjusted and adapted according to the specificity of each event.
