We customize our tours according to your budget, your time, your requirements and your interests. Our special tours are perfect for travelers who want to be more than just tourists. We invite you to get to know the city and its inhabitants in a particular kind of way.

### Discover one of the most beautiful cities of the Colombian Caribbean

Cartagena de Indias is one of Latin America's most popular colonial cities. The historical center was declared National Heritage in 1959 and became UNESCO World Heritage Site in 1984. The historical center features Spanish colonial architecture and republican style. Besides the cultural and gastronomic delights, Cartagena also offers beautiful landscapes and possibilities to do various types of nautical sports. The Natural National Park Corales del Rosario is located right in front of the bay of Cartagena.

### Tours in and around the city

Our wide variety of specialized tours is one of our main characteristics. We always strive for innovations and for new tours. Our tours will lead you away from traditional tourist sites and give you the possibility to discover the extraordinary. With us, you will have the opportunity to visit social and environmental projects. For example, you can go fishing with the locals, participate in a Caribbean cooking class, do mountainbiking on off-beaten tracks or go horseback riding in the sunset.

### We make your stay in Cartagena an unforgettable experience.

## 4) Graffiti Tour

Our Street Art & Graffiti tour gives you deeper insight towards Cartagena focused on the alternative and cultural quarter and coolest barrio: Getsemani. The stories are told with present graffiti paintings with images of tropical scenes, palenqueras, and local flora and fauna. In Getsemani the individuality and spirit of the neighborhood remains intact. You can come as a tourist but you leave as a local understanding what makes the barrio so special engaging with the people to ensure that it preserves its particular charm. This neighborhood has shaken off the gritty reputation, and turned to street-art as a way of incorporating the voice of local residents and artists into the fabric and the narrative of the city streets. Graffitis transformed this neighborhood in the last years, after the first Graffiti Festival in Getsemani that took place in December 2013

Our fully qualified guide offers a complete knowledge of the impressive history of Getsemani starting at the clock tower, from there, we go to the street of La Sierpe (where all the murals are) and Trinidad plaza, which has an historical, cultural and national value. We will also walk on top of the city wall.

## 10) Coconut workshop

Craft your own souvenir and support a good purpose.

Coconuts are not only used for drinks but also to create accessories or decoration.

The project DAMARTES (Damas y Madres del Arte – 'Women and Mothers of Art') began with the name Madres – Cabeza de Familia y sus Cocos ('Mothers – head of the family and their coconuts') and is an association composed of seven women. In 2008, they took part in a craft class sponsored by the foundation ProBoquilla. Nowadays, they produce jewelry, containers, vases, belts and accessories and are the first women of La Boquilla that purchase their own income. The life of the DAMARTES is very impressive. All of them are mothers and most of them already grandmothers with interesting life stories that they like to share with us. The association is a working group of great women that are able to craft amazing things out of simple objects.
We will go to La Boquilla, where the ladies will invite us to a very special workshop. Every participant can make his own souvenir out of coconut. ## 11) Fishing with the locals

Every morning, 365 days a year, the people of the village La Boquilla, get up to go fishing.

La Boquilla is the home to many families with African origins whose principal source of income is fishing.

There are two big lagoons: the Cienaga de Juan Polo and the Cienaga de la Virgen. Different species of fish can be caught in these lagoons and the fishermen use their own traditional technique of fishing. They catch sea bass (*róbalo*), shad (*sábalo*), common two-banded sea bream (*mojarra*), ocean-bass (*pargo negro*), mullet (*lebranche*), as well as sea snails, clams, shrimp, crawfish and lobster. Three common techniques are generally used: fishing line, nets and traps.

The fishermen will wait for us in La Boquilla to take us to the lagoon in their canoes. The tour guide will help us communicate with the fishermen. For about 2-3 hours, we will fish in the lagoon (don't forget to bring a hat, sunscreen and mosquito repellent!). The fishermen will explain how to use the fishing line, how to throw the fishing net and how to position the traps in order to catch shrimp and crawfish. You can keep your catch! A corner of Africa in America! Benkos Bioho, a runaway slave who, accompanied by 36 other male and female slaves, hid in the area found what is now known as San Basilio de Palenque, the first slavery-free town in Colombia. Their palenquera language and traditions and rituals remained intact since they had no connection with the main road and the city and remained isolated until the seventies when the famous boxer "Kid Pambelé" placed this settlement on the map and brought with him access roads to the village.

Located an hour and a half's drive from Cartagena by road, this African corner, declared by UNESCO as intangible cultural heritage of humanity, offers to visitors a window on Afro-descendant history in Colombia and America.

A guide and private vehicle will pick you up at your hotel and take you comfortably to San Basilio de Palenque, where a local guide will receive us and we will learn a little of the Palenquero dialect, history and culture of this great town. Through craft arts such as the work of the Spinners, who with their strong movement prepare the corn to feed their families, and the beautiful art of weaving through the hands of artisans who tell their stories through their handicraft we get even closer to the culture. # 16) Champetour with Charles King

**Do you know what Champeta is?**

It's the music of Cartagena! That has lived and suffered like the city different revolutions during the history so moved of the city of Cartagena de Indias.

This musical genre was born in the afrodescendant zones of Cartagena, influenced by African and Antillean rhythms, linked to the tradition and cultural heritage of San Basilio de Palenque, which in its beginnings was marginalized and frowned upon among the highest social strata of the city; as a lifestyle, it has transcended borders and has become a musical, social and cultural phenomenon that every day gains more followers from the poorest and most popular communities to the most famous.
