About Exo Tourist

- **Exo Tourist** is in the business of handling both incoming and outgoing tourist traffic specially in Asian Destinations and particularly in Pakistan
- **We** therefore, offer wisely designed itineraries to make your trip a unique and unforgettable experience and same time the best in services expediencies the area can offer. Our destinations are indeed the most mesmerizing regions in terms of what they reflect for their history, nature, culture and adventure. However the scenic beauty in the Northern Part of Pakistan is simply breathtaking, and country's Southern region is equally interesting. For centuries historians have written about its ancient civilization that has stood the test of time.
- Since the induction on the map of world tourism Northern Areas has earned a reputation of being a paradise for mountaineers, climber, trekkers and hikers. Offering a rendezvous to the world's three famous mountain ranges – the Himalayas, the Karakorams and the Hindukush, the region's exotic grandeur is unparalleled in its serenely transparent beauty. Pakistan's physical and cultural diversity spans the most fantastic thrills and would itself be regarded as the highlight of the visit. Our adventure packages are based on some recent route discoveries and the cultural, archeological and sports tours are specialized in their own areas of interest.
