

Neokoncepts is a full service event design, planning and production company that elevates ordinary events to extraordinary experiences with **IMAGINATIVE ORGANIZING**

ABOUT NEO

NEOKONCEPTS is a team of Communicators, Designers, Event Managers and Producers that specializes in articulating strategies for the organization of professional meetings, conferences, incentives and events.

CREATIVE EXPERIENCES

In Neokoncepts we offer our clients the guarantee of being in the hands of a senior team with considerable expertise, technical capabilities and solvency. Professionals who listen, are reliable, understand the event's needs and make each piece fit. The result is that the client receives full support and achieves its objectives.

NEO SERVICES

CONFERENCES

Over the last few years, conferences and conventions have become events in which the form has to be as important as the content in order to do them justice. Conference participants are much more demanding because, to a certain extent, they have become experts themselves. It is therefore essential to be familiar with the latest trends and demands in this area of communication & knowledge.

INCENTIVES

Trademarks require much more than communication; they fundamentally need identification & recognition by stakeholders. Incentives are a way to foster this empathy through a unique event, designed to generate connections and sympathy and strengthen teams.

Neokoncepts ensures the success of such events by paying close attention to detail

PRODUCTION

The ability to generate resources and find solutions for each requirement is what we call production. Many of the events that we organize involve a high degree of production work, because they have numerous elements that range from designing the space to people management.

Spectacularity & consistency are the two values that Neokoncepts aims to foster at all its events

CREATIVITY

Ideas are always the basis, unerring concepts that support the design of the event. They are also the differential factor that makes for special events. These ideas find their visual and physical form through artistic management that seeks impact and communicative efficacy.
