Few countries can offer the visitor so much: natural attractions, adventure, sports, historic cities, culture, popular festivals, gastronomy and hospitable people. There's a world to be discovered just in this one country.

Apart from this, Brazil offers a broad choice of venues for special events, incentives, company team building, and all your corporate customers can wish for to spoil their sales team of the year, or best performing executive.

We also have about one commercial trade fair every day in cities like Sao Paulo, Rio de Janeiro and Belo Horizonte.

And isn't it about anyone's dream to set foot ashore this mythical country?

Our team is ready for you!

Brazil a **plural country.** This country is big in numbers: fifth largest country of the world in size and population, bordering 10 countries and covering half of South America, 9 thousand km of coast along the Atlantic ocean and home to the largest rainforest in the world; the Amazon forest and the Pantanal; the largest wetlands, Sao Paulo is also South America's biggest city with over 20 million inhabitants, that's twice the population of Belgium.

In order to offer a clear view on this enormous country we have represented the different regions of Brazil and will use this at every destination that we mention so that you can localize them on the map. Furthermore we will now organize the different segments as follows: Sun and Beaches, Ecotourism, Culture & Festivals, Sports, Business and events. **Our team is ready for you!**

Culture & Festivals

Brazil's most important asset is without any doubt it's **people.** Brazilians are a colorful bunch, always ready for a chat. Happy and hospitable, they are an amalgam of people from all over the planet, who came to the New World in search of opportunities. As a consequence, a wide variety of ethnicities, unique racial and religious tolerance, food form all corners of the planet and historic and architectural influences co-exist. Each region is different with its own peculiarities. The charm and the warmth of Brazilians is unique and if you treat them with respect you will get more than your change in return.
