MICE
International

It’s better to see something once than to hear about it a 1000 times…

Who we are.

MICE International is created by financial investors who offered extra-ordinary and unequalled “Meetings, Incentives, Conferences and Events” around the world to their clients.
Together with a few local MICE experts at unusual destinations, MICE International was born.
This is the main reason why MICE International is offering journey’s that most people have never seen or experienced before.
As we say, better to see something once than to hear about it a 1000 times…

MICE International
