CORPORATE SOCIAL **RESPONSIBILITY**

SUSTAINABILITY - RESOURCES - ETHICS - COMMITMENT - INCLUSION

Our commitment to the planet is unconditional. We know that we are part of an industry that emits a large quantity of CO_2, which is why we decided to compensate for 100% of our emissions in every country we operate. Every time you travel with Dottransfers you are supporting the tree plantation that Traslada Group has in the Yungas forest of Tucuman, in Argentina, where we have already planted a forest of 500 trees, and this year we are adding 500 more.

WE OFFSET OUR CARBON FOOTPRINT

Along with **SEAMOS BOSQUES** We have initiated the tree plantation programme in the Yungas forest of Tucuman to become a Carbon Neutral company.
