THE INSPIRATION

An immersive setting, architecturally drawn by the reflection of absolute beauty found in the myth of Narcissus and depicted in multiple forms as an essential element throughout the hotel's premises. The design not only captivates the beauty of the destination, but also marks our guests' reflections in the surroundings, embracing self-admiration and revealing a heightened sense of identity.

Delos lends its aura to our hotel. On this tiny uninhabited island next to Mykonos, 9 stone lions are faced East towards the Sacred Lake of Delos, where it is believed Apollo, the ancient god of sun and ideal beauty, had been born. The lions had been placed in a position to symbolically guard the site and to inspire a sense of divine power to travelers on their way to Apollo's shrine. This majestic landmark, symbolizing strength and reflecting an extraordinary notion of divinity, serves as an a key inspiration.
