CLIENT FEEDBACK

At the initial enquiry phase Rasa and her team were enthusiastic, quick to respond and provided numerous creative suggestions which enabled us to confidently propose Copenhagen as the most suitable destination for the event.

Due to the multitude of off-site activities during the event, we conducted two site visits and were supported superbly well by DMC Denmark throughout.

On site at the event, the DMC Denmark team worked alongside and in partnership with our team and we could not have been better supported.

DMC Denmark operates to the highest level of professionalism and added significantly to the success of this event. Their supportive approach, done with kindness and without fuss, was backed up by delivering airport transfers, off-site dinners and complex pre-meeting and post-meeting extra curricular activities to the highest standards.

We highly recommend this company to other organizations and look forward to working with them again.

CLIENT FEEDBACK

“I have had the great pleasure of collaborating with DMC Nordic Denmark in connection with. a larger event for just over 200 people in Copenhagen. They have had a highly professional, accommodating and structured approach to the task. In the collaboration, DMC has come up with relevant "customized" solutions and proposals. They quickly understood what this particular group would appreciate. There has been control of the details (both before and during the event), and the ongoing communication and "control" with suppliers has had great focus. As the person in charge of the event, I have felt in very safe hands, and I can only give DMC Nordic Denmark my very warmest recommendation.!
