Day	Location	Remarks
DAY 1 **Arrival**	Our airport representative will welcome you with a paging board with your name and assist you to the vehicle. After the welcoming, we will drop you off to your designated hotel for check-in.	
DAY 2 **Full-day Jebel Safari East**	Drive towards the east of Dhofar to **Ain Razat**, a collection of natural springs, some of which are perennial, while others are seasonal and only appear during Khareef (monsoon season). This location is also popular all year round and serves as one of Salalah's primary water sources. Following that, we will travel to **Taqah**, a coastal town in Dhofar Governorate. Taqah is an old town and fishing village with an interesting castle. The castle is surrounded by watchtowers and stone houses. The room inside the castle is filled with ancient pieces of jewelry, weapons, furniture, paintings, and everyday items that make the castle inhabitable. After stopping at Taqah, we will drive to the most unexpected location in Dhofar, **Wadi Darbat**. It is hidden in the mountains overlooking Khor Rori, just after the Taqah coast. The Wadi is a natural park with breathtaking views of waterfalls, a large number of camels, lakes, mountains, caves, and lush green vegetation. During the Khareef season (monsoon), water from the mountains replenished the Wadi, creating magnificent waterfalls gushing from 30 meters (100 ft.) and cave chambers. Visitors can also enjoy a large picnic area. Continue your exploration of the **Tawi Ateer**, also known as the "Birds Well" and one of the most famous and dramatic sinkholes in the Salalah Mountains' porous limestone. You can descend a rocky path to the bottom with the help of a local guide. Visitors can visit the **Teeq Sinkhole/ Cave** about 14 km from Tawi Ateer. The depth of this massive cavity is 211 meters (692 ft) and its plunges range from 130 meters (427 ft.) to 150 m (492 ft). Continue to one of the major mountain ranges of **Jebel Samhan**, a breathtaking plateau with the highest peak of around 2100 meters and an area of 4500 sq. km (1700 sq. mi). On the way, stop for a photo in a **Babul tree (Baobab**) and drive to Salalah **Anti-Gravity Point** to see their cars climbing the hill in Neutral gear (without any acceleration). This is an incredible experience and a one-of-a-kind trip because the car can travel at speeds ranging from 40 to 60 km/hr. without requiring any acceleration. End of the trip. (This tour involves walking over uneven and slanted terrain, please wear comfortable steady, or walking shoes.) **Highlights:** *Ain Razat | Taqah | Wadi Darbat | Tawi Ateer | Teeq Cave | Jebel Samhan | Baobab Trees | Anti-Gravity Point*	Supplementary: Taqah Castle = OMR 2 per person Taqah Fort “Burj Al Askar” = OMR 2 per person Lunch at a local restaurant = OMR 5 per person

4D3N - Jebel Adventure Getaway IN SALALAH

Marhaba Dhofar

Day	Location	Remarks
DAY 3 **Full-day Jebel Safari West**	The first place to go is **Ain Garziz**, which was one of the springs in the Dhofar region. Drive to the mountains next to see **Nabi Ayoub (Prophet Jobs Tomb)**, which can be seen from a high point in the Jebel (mountain). Because of its historical significance, this location is also one of the most visited in Salalah. He is referred to as Nabi Ayoub in the Quran and Prophet Job in the Bible. Also, we will go for a photo stop at the **viewpoint** near the Nabi Ayoub location where they can see beautiful landscapes and mountains. Following our visit to the historical site, we will travel to **Al Mughsail Beach**, which is known for its **blowholes**. Al Mughsail Beach is a must-see in the Dhofar Region. Seawater rushes with high pressure through an underground channel and shoots out in a geyser-like eruption on the cliff. The spout can reach heights of several meters in response to the forces of the waves. We'll make a photo stop at Mughsail Lagoon, which is home to migratory birds. (Please bring your towels and change of clothes if you plan on swimming on the beach.) The sights are magnificent due to the heights involved on the **Zigzag Road**, which is around 10 to 15 km. The stark shape of the leafless **Frankincense Tree** adorns the countryside as you reroute. Dhofar's frankincense is regarded as the best in the world. After that, drive to **Fizaya Beach**, which has pristine turquoise waters in the Indian Ocean, along the hairpin bend road near Oman's western border. Spend some time relaxing and taking in the scenery. (The current is very strong, and the coast is rocky, therefore swimming is not recommended). End of the trip. (This tour involves walking over uneven and slanted terrain, please wear comfortable steady, or walking shoes.) **Highlights:** *Ain Garziz | Nabi Ayoub Prophet Job's Tomb | Viewpoint | Al Mughsail Beach & blowholes | Zigzag Road | Frankincense Trees | Fizaya Beach*	Supplementary: Lunch at a local restaurant = OMR 5 per person No Entrance Fee

The spout can reach heights of several meters in response to the forces of the waves. We'll make a photo stop at Mughsail Lagoon, which is home to migratory birds. (Please bring your towels and change of clothes if you plan on swimming on the beach.) The sights are magnificent due to the heights involved on the **Zigzag Road**, which is around 10 to 15 km. The stark shape of the leafless **Frankincense Tree** adorns the countryside as you reroute. Dhofar's frankincense is regarded as the best in the world. After that, drive to **Fizaya Beach**, which has pristine turquoise waters in the Indian Ocean, along the hairpin bend road near Oman's western border. Spend some time relaxing and taking in the scenery. (The current is very strong, and the coast is rocky, therefore swimming is not recommended). End of the trip. (This tour involves walking over uneven and slanted terrain, please wear comfortable steady, or walking shoes.) **Highlights:** *Ain Garziz | Nabi Ayoub Prophet Job's Tomb | Viewpoint | Al Mughsail Beach & blowholes | Zigzag Road | Frankincense Trees | Fizaya Beach*	Supplementary: Lunch at a local restaurant = OMR 5 per person No Entrance Fee

Day	Location	Remarks
DAY 4 **Desert Safari to the Lost City and Empty Quarter**	At 09:00 pick up from the hotel and drive to **Wadi Dawka (UNESCO World Heritage site)**, also known as the "Frankincense trees," which has the largest collection of naturally grown Frankincense trees in the region. Discover the history of Frankincense as well as its applications in the modern world. Visit **'Lost the City of Ubar' (UNESCO World Heritage Site)**, one of the ancient sites in the Dhofar region where archaeologists using remote sensing equipment discovered the city's remains in 1992. Ubar is thought to have been inhabited from approximately 2800 B.C. to approximately 300 A.D. and was an important trading center for frankincense before being buried in the rising dunes. At the site, there is a small museum displaying archaeological discoveries. The bleak, arid desert of **Rub al Khali**, also known as the **Empty Quarter**, stretches from the mountain's foothills to an enormous sandy plain that covers the majority of the area. The area is well-known for its archaeological sites. On your way back, you'll have to stop at Thumrait for some refreshments. End of the trip. **Highlights:** *Wadi Dawka & Frankincense trees | Ubar | Rub Al Khali*	Supplementary: Ubar Entrance Fee = OMR 3 per person Lunch at a local restaurant = OMR 5 per person
