EAVAR DREAMS TRAVEL
EDUCATIONAL TOURS PORTFOLIO

ABOUT US

Eavar Dreams Travel is a Turkey-based Destination Management Company (DMC) with over 20 years of experience in organizing high-quality group programs. While widely recognized for our expertise in MICE and corporate events, we also specialize in designing and operating educational tours that combine academic value with immersive cultural experiences.

Our educational tours are designed for universities, colleges, high schools, and professional institutions seeking enriching programs beyond sightseeing.

OUR APPROACH TO EDUCATIONAL TOURS

- Tailor-made Itinerary Design:

Crafting academic and cultural programs based on the group's field of study, learning objectives, and schedule.

- Academic Partnerships:

Coordinating with local universities, hospitals, research institutes, NGOs, and industry partners to arrange lectures, site visits, and workshops.

- Logistics & Operations:

Managing all travel logistics including accommodation, transfers, guides, meals, venue bookings, and technical support.

- Content Integration:

Preparing background information, pre-reading materials, and assigning local experts or professors for on-site explanations.

- Support & Flexibility:

Offering full support before and during the trip, adapting itineraries based on learning needs or on-ground realities.

- Meetings, Event & Seminars:

Organizing tailor made seminars and events to enrich the knowledge considering the theme of the tour.

MARKETS WE WORK WITH

- United States – Medical schools, business schools, sustainability-focused institutions

- Europe – Germany, France, UK educational travel planners

- Canada – University programs and faculty-led groups

- Expanding interest from Asia and the Middle East

FIELDS AND MAJORS WE COVER

- Medical & Healthcare: Hospital visits, public health workshops, medical universities

- Business & MBA: Corporate visits, start-up ecosystems, logistics hubs, guest lectures

- Sustainability & Environment: Renewable energy plants, recycling facilities, coastal/ marine conservation, sustainable agriculture

- Engineering & Technology: Manufacturing sites, R&D centers, infrastructure projects

- Cultural Studies, History & Archaeology: Guided visits with historians, behind-the-scenes museum experiences

- Hospitality & Tourism: Hotel and airline operations, destination management organizations

- Education & Social Sciences: School visits, NGOs, community-based projects

And any other fields of study!
