About Us

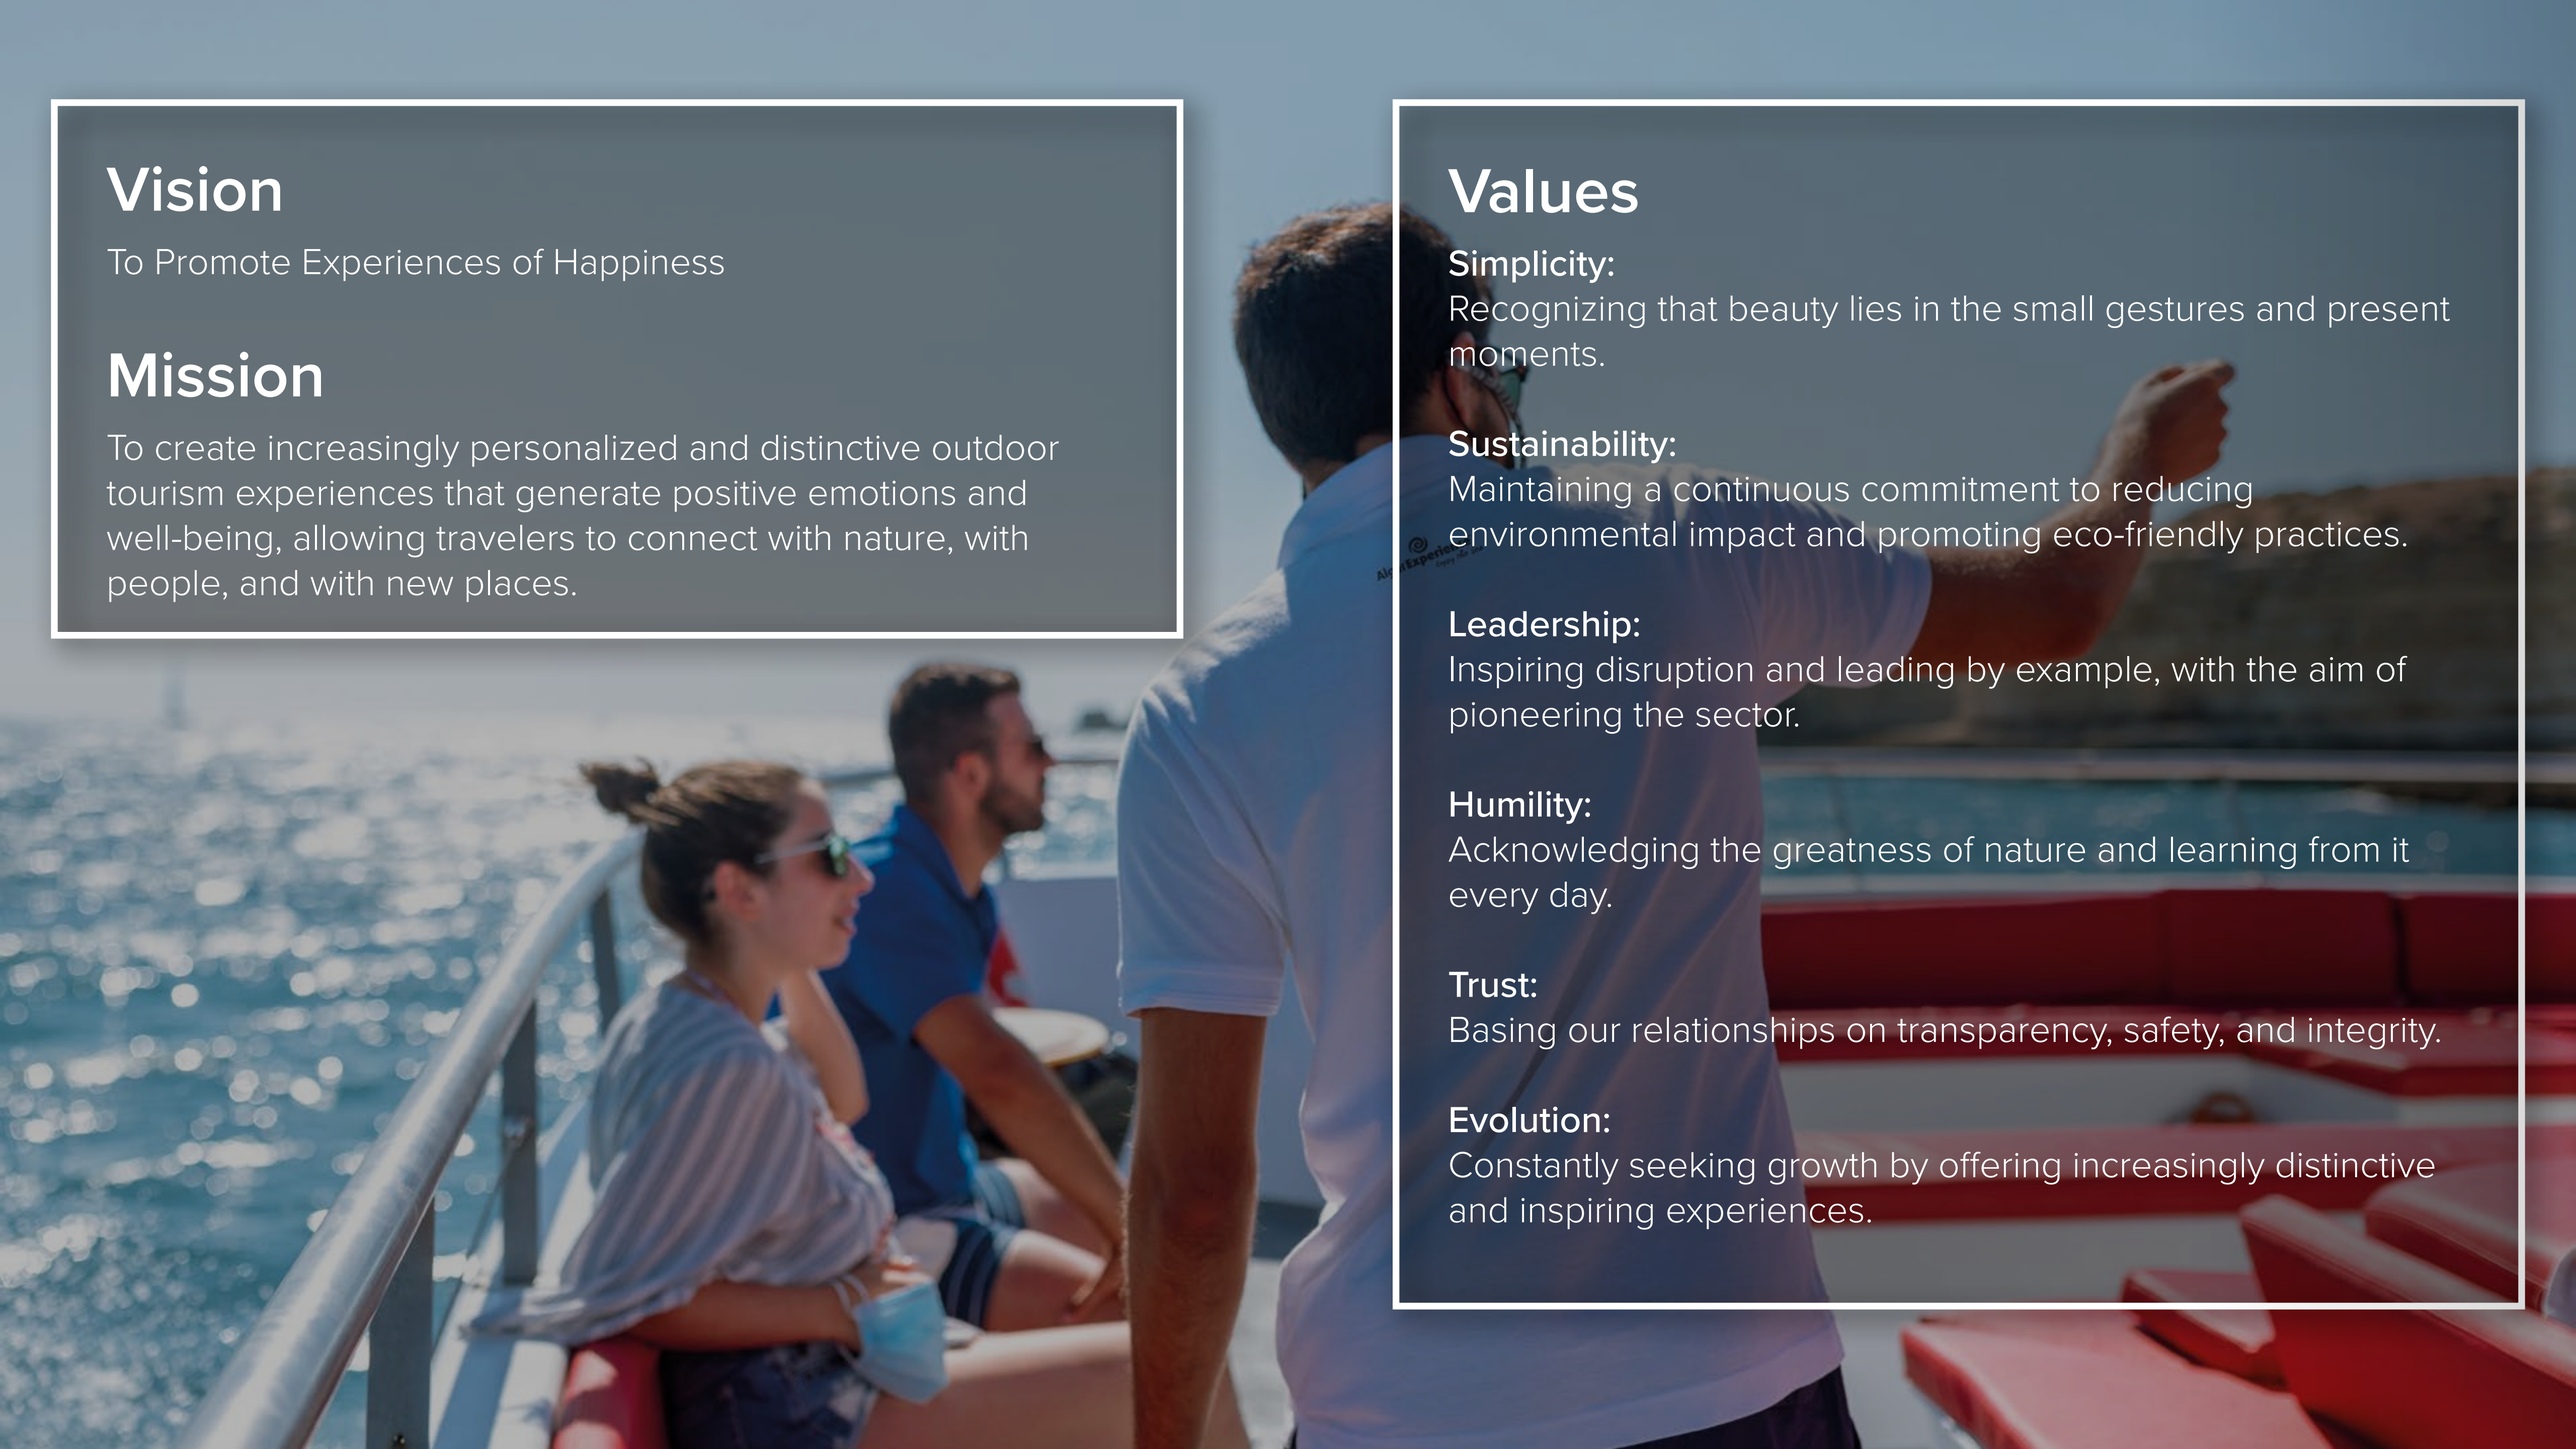

Founded in 2006, AlgarExperience was born out of the founders' passion for the sea and nautical activities.

At the time, with only one boat, the company began offering cave and coastline tours, dolphin watching, parasailing, and private rentals — always focused on quality service and customer satisfaction.

More than a decade later, here we are, driven by the same passion and ambition that have always fueled the company's continuous growth.

Today, with the goal of sharing the secrets and natural beauty of the stunning Algarve coastline, we offer a wide range of experiences.

With a fleet of ten main vessels and five support boats, we operate from Albufeira Marina and Vilamoura.
