After an early breakfast depart for an amazing game drive, head north of Serengeti for a game drive in the wilderness tracking the Great migration trails. Witness a million wildebeests, each one driven by the same ancient rhythm, fulfilling its instinctive role in the inescapable cycle of life: a frenzied three-week bout of territorial conquests and mating; survival of the fittest as 40km (25 miles) long columns plunge through crocodile-infested waters on the annual exodus north.
Accommodation: Lemala Kuria Hills Lodge

Day 06: North Serengeti
Serengeti National Park, Resident wildlife numbers are exceptionally high in the Wagakuria area, with prides of lion up to 30 strong, however, from July to October the area turns into a wildlife paradise. Spend a full day in north Serengeti mostly exploring the Migration (There's an option of doing a Hot Air Balloon at this area for an additional cost.)
The key feature is the Mara River and it is not uncommon to see the herds cross the Mara River north one day and then back south a few days later. Please take note - actually finding a crossing is very difficult and is sometimes a matter of luck.
