Country and mountain hotels

STAFF INTEGRATION

Mi Tierra Verde strives to satisfy the needs of businesses and government, so it has decided to include Staff Integration services.

This service works on opportunities of improvement that these institutions' employees have, or simply that they feel there is a need to identify about their daily tasks. For this, we provide coaches and / or motivational speakers, who will allow the staff to identify itself more with the company, thus helping them feel more motivated to do a better job.

SOCIAL RESPONSABILITY

Mi Tierra Verde is characterized by supporting the environment and looking for different places in the country where we can contribute our grain of sand with human values. Because, It is important to keep our clients active so that they support these types of activities.

In this way, our customers will not have to worry about what the place to reforest, or the coast to be cleaned will be, because we handle different packages so that they can go with your organization.

MICE

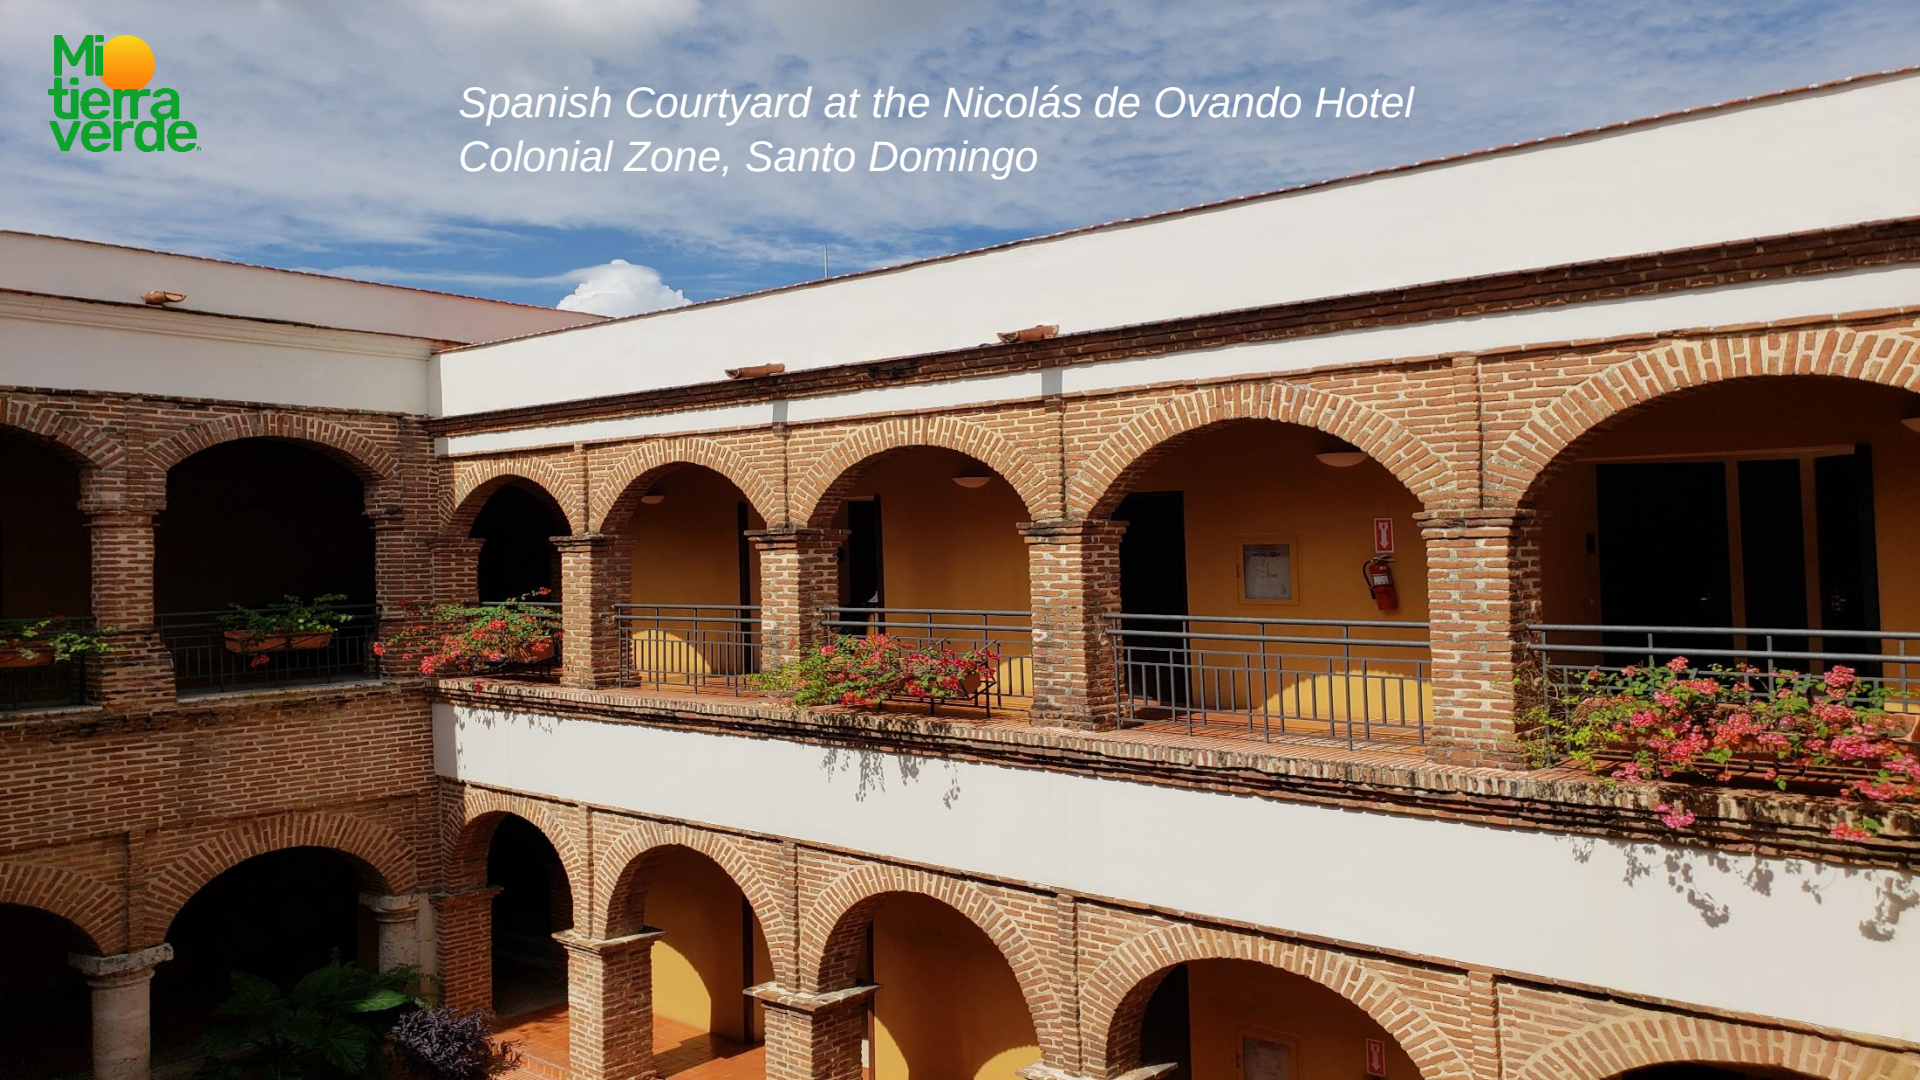

- *Cocktails*
- *Parties*
- *Meetings*
- *Incentive groups*
