Online Booking Platform

Email id : contact@trawex.com

A seamless guest experience begins with a simple & powerful online booking system hotel, designed to deliver more direct bookings.

- Trawex is a feature rich/cost-effective online booking platform provider company for booking and inventory management that converts more website visits to paid bookings.
- Trawex seamlessly integrates with your website, keeping the same look and feel through the booking. The result is a streamlined process for guests to search availability and book in real-time.
- Our online booking system is a powerful Booking Engine that allows Travel Agencies, Accommodation Providers, such as Hotel Chains, or Central Booking Agents, to commercialize their product through the Web.

- The potential that the Internet offers as a sales channel for Travel Agencies and Accommodation Providers, has allowed it to become an important part of the strategic and marketing plans of these businesses.
- Of all the different issues that make a website competitive, certainly, the booking system is by far the most important. You can manage your own inventory online, change prices and allotments according to your particular market conditions, make the most profits from every sale and also offer different prices to different market sectors, such as Rack rates, Nett rates for Agencies, commissionable rates for third-parties, and others.

Key Features:

- Our online booking system can be embedded in any page of your web site
- Customers can see tours and seat availability in real time
- Can discover more about your tours, with picture galleries, videos, guides' information...
- Can book and pay online
- Let customers book and pay for multiple tours in a single transaction with the integrated booking cart
- Send confirmation emails and SMS reminders
- Offer both group and personal tours and activities

Powerful Online Booking Reservation System to Simplify Your Online Reservations

- The booking system carries out two essential purposes: it satisfies the users' desire to purchase accommodation online at any time and provides the hotel or agency with an important database of visitors.
- We understand that most hotel operators would like to maintain all important worldwide booking platforms using a single system and this can be achieved using the services of Trawex.
- Trawex build travel portal booking engine in state-of-the-art technology and tools. Our online booking platform has all the functionality that OTA is searching for and combined with the versatility of customized services with several payment gateways.

- We provide travel booking engines in the b2b and b2c systems that are fully loaded and enable companies to provide services beyond the user's expectations. We enable you to stand out in the market and drive the changes in this industry, to be independent and to have the power to implement your strategy.
- We concentrate on providing innovative technology with reliable, accessible online booking tools to help you make your travel company the primary choice of travelers.
- Our online reservation software includes a variety of features that allow both groups and individuals to make bookings online from any device at any time of the day. You gather information in one location to prevent duplication of research.

- The system manages package tours, hotel or flight reservations only, varying schedule periods and personalized travel arrangements, connections to GDS, low-cost airlines and hotel and car rental companies as needed.
- For more than a decade, Trawex has delivered leading online booking platform solutions, travel mobile applications and responsive online travel booking websites to numerous clients in the online travel industry.
- We are expanding our travel technology services with strong after-sales support and training to give travel professionals all the skills they need to make the most of the online travel system.

- Our online reservation software is a secure and scalable solution for enhanced performance and accelerated growth for online travel companies. Our solutions are deeply rooted in the development of smart software for agencies, travel companies, and tour operators to help them centralize their business, improve customer engagement and enhance marketing strategies.
- Our online booking software with advanced customization features have been built to meet the unique business requirements of our clients. Differentiate from rivals with their own unique design and a quick and efficient booking system backed by a rich inventory of hotels, flights, and dynamic packages (hotel & flight).
- B2C Booking Engine helps travel agencies to book and manage their travel services without any complications, such as time zone issues, currency issues or sub-agents.

- Trawex comes with a wide range of standard features for travel booking, secure back-office operations for tour operators, destination management companies and other travel industry operators.
- Our technology includes travel software like customer management system, mid-office management, back-office management, accounting, and CRM systems. We have developed a range of products for our clients.
- We work with our clients to include the best travel technology solutions, such as B2B, B2C and B2B2C, Travel API / XML Integration, GDS Integration, Tour CMS, Hotel Extranet and more. We assure you of the best approach to be with the advanced travel industry and help you provide your customers with the best offers on Air Tickets, Hotels, Bus Tickets, and Tour Packages.

- We ensure that the customers are able to book how, when and where they want to. Your travel shop is open 24 hours a day, 7 days a week.
- We help our customers simplify their business processes and improve their customer experience.
- Trawex focuses on delivering premium services to travel companies on all continents.
- We believe that our success is focused on our ability to establish a long-term relationship with our clients.
- Our professional team is well trained to help our Customer achieve their goals.
