### Central Serengeti

The Serengeti together with Kenya's Maasai Mara Game Park forms Africa's most famous wildlife park. The image of acacia trees on an endless grass plain epitomizes Africa for many, and then add a Maasai warrior and some cattle to the picture and the conversation needs to go no further. The annual wildebeest migration through the Serengeti and the Maasai Mara is the largest mass movement of land mammals on the planet – with more than a million animals following the rains. But that is not where the game viewing ends; large pride of lions, elephants, and giraffes in grasslands, gazelles, and eland to mention but a few.

## Day 2 & 3: Serengeti Matawi Camp, Central Serengeti

### Day Itinerary

Spend two full days on game activities in this National Park, which is rich with all different species of animals. Meals and Overnight at the Camp

**Game drives**

There are two game drives each day: one first thing in the morning, the other in the late afternoon. With our expert guides, spot the area's big cats — lions or cheetahs and sometimes the elusive leopard. Between May and October, the big wildebeest herds also pass through for migration.

**Walking safaris**

One of the most exciting ways to explore the Serengeti is on foot. When you step down from the vehicle, appreciate all the small things that you miss on a game drive. Identify butterflies, ants, termites, and dung beetles, or get closer to birds when they're not startled by the engine noise. A great opportunity to learn about how the whole Serengeti ecosystem works.

## Optional Balloon while in Serengeti: charged $ 530

Launching at dawn, rising as the sun rises, you gently float over the plains of the magnificent Serengeti. *Probably the most beautiful balloon flight in the world and the ultimate Safari Experience*

Your Balloon Safari adventure starts early morning when you depart your lodge or camp. It is still dark and you may be fortunate to see nocturnal animals on the way to the launch site. When you arrive, you will meet your pilot and witness your balloon being inflated and prepared for launch. After a thorough safety briefing and demonstration of boarding and landing position, you board your balloon and lift off! Rising as the sun rises your balloon floats in whatever direction the winds of the day are heading over this wonderful area. It is an adventure – even for us. Whereas we know where we have started, we genuinely do not know where we will land as we float in the direction of and speed of the wind.

Your pilot will use varying altitudes and layers of air to navigate the balloon over this amazing area. Each day is different, some of the flights may be low, offering a different perspective and at other times your balloon may climb to 1000' or more. Nobody can predict, no two flights are ever the same and your balloon safari will be unique. While impossible to guarantee particular animals, you are likely to see various species from above. Your pilot knows the area well and is also a committed conservationist and will point out animals, birds, and features of interest. Fly for about an hour, depending on conditions.

**Bush Breakfast**

After landing, you celebrate traditionally with a champagne toast (well, an excellent sparkling wine) before heading off to a special 'Out of Africa' breakfast. Breakfast is prepared in the bush and served under a convenient acacia tree. Linen, bone china, Sheffield cutlery, and freshly prepared fare in the company of your fellow passengers make a memorable finale to your adventure.

*After breakfast, you receive your Serengeti Balloon certificate* and are taken to the rendezvous point to meet with your driver guide and continue your day's activities.

## Day 4: Serengeti departure

### Day Itinerary

Depart for an early morning game drive around your lodge, return to the lodge for breakfast and check out. Mid-morning, transfer to the nearest airstrip for your onward connection flight back to Dar / Zanzibar / Kilimanjaro for an onward connection flight back home.

simply close your eyes to feel the warmth of the African sun on your skin, catch the scent of wild sage on the cool evening air, and hear the low, spine-tingling moans of lions at dusk. All this and more you have witnessed on your Tanzania safari
