Day 3

Tarangire National Park

It's time to begin your safari. Welcome to Tanzania! After we greet you and provide you with the trip briefing, we'll take you out to help you discover why so many people think Tanzania is the best place in Africa to go on safari.

Explore one of Tanzania's most rewarding national parks, a land of big baobab trees, big elephants and big cats. No wonder this ends up being the favorite park in Tanzania for many visitors. Sightings of wildebeest, giraffes, hippos, buffaloes, baboons, vervet monkeys and zebras are also almost guaranteed. Lions are plentiful here – Tarangire is home to one of Tanzania's healthiest lion populations. While you'll have to work a little harder to see a cheetah or leopard, it will only enhance your excitement when you do. You can also look forward to classic safari scenery – savannah plains, river woodlands and rocky hills.

Accommodation | Day 1
Eileen's Trees Inn
Lodge

You're going to love Eileen's Trees Inn. Just off the Lake Manyara-Ngorongoro road and close to Karatu's town center, this place is nonetheless pleasantly quiet and a real refuge from busy Tanzanian roads. It's the garden that really stands out here as an oasis of greenery, but the rooms, too, are large and excellent, and there's a good restaurant as well.

Central Serengeti National Park

When you explore the Central Serengeti, you're enjoying one of the best wildlife destinations in northern Tanzania. Here you'll find the big populations of wildlife for which the Serengeti is famous. You'll also have a good chance of seeing big cats. This area has plenty of northern Tanzania's iconic acacia trees, as well as seemingly endless Serengeti horizons.

Karatu

In the busy provincial town of Karatu, with its constant stream of passing tourist traffic, the many places to stay mean you can rest from life on the road here. It’s big enough to have banks, shops (for both supplies and souvenirs) and a few roadside restaurants where locals eat.

Watch as, from above, morning mist rolls up and over the crater rim, and notice how the steep walls suggest a place unlike any other. Down below on the crater floor, explore a lost world preserved in a state of pristine isolation, one that shelters lions and hyenas, elephants and black rhinos, flamingos and golden jackals. There are also forests, hippo-filled lakes, a salt pan and hyena dens, and you'll never lose the sense that you've stumbled into a safari theme park where everything's wild.

Day 7

Lake Manyara National Park

Where the plains of northern Tanzania meet the Rift Valley escarpment, Lake Manyara is a wonderful place to spend a safari day. Your highlights for the day might include getting up-close-and-personal with the elephants that made this park famous, lots of baboons, as well as one of few lion populations in Africa that spend much of their time in the trees. Between the forests at the foot of the escarpment and the lake that gives the park its name, enjoy rich birdlife and the chance of seeing predator ambush their prey.
